nerves had been shaken. The Chinese authorities in Manchuria are said to be endeavoring to establish a title to exercise jurisdiction over Corean subjects in Mukden on the ground that treaties do not secure to Corea any privilege resolutely opposing any such contention and they have gained a decided point by arraigning a Corean subject before their own consul in the city on a charge of sambling and sentencing him to a year's imprisonment. This is the first time that Coreans have been dealt with under the Japanese law and the incident would appear to show that Corea has definitely

recognized her powerful neighbor's right to exercise jurisdiction over Corean subjects abroad. Buch a right almost follows from Corea's surrender to Japan of the charge of her foreign relations.

Report from Rome that Pope Begins to Feel Lack of State Subsidy.

ROME, May 25 .- (Special)-The Vatican. it is once again reported, is beginning to feel the want of money. The French church, being now without the state subsidy of \$8,000.000 a year, requires every centime for itself. The stream of Peter's pence formerly sent to Rome from France, amounting to millions and millions of francs every year, has now almost dried up. The pope is therefore casting about for new sources of revenue. One of his projects is to take from the patriarch of Jerusalem the right to confer the Order stitutes for the patriarch a large source of after by wealthy parvenues. The "plaque,"

prince, but there was little to indicate that these things were for a consideration. Nevertheless, it is a fact that agencies for the procuring of decorations-for such things do exist on the continent-do make these church titles figure prominently among their wares. Whether they can 'deliver the goods," as an "American would say, is another thing. But they make no bones about claiming that they can do just what they say they can do. Of course the orders really amount to little in one way: that is, they are not recognized by law and are not recognized by any of the governments of the earth since the downfall of the states of the church.
