Getting married is with the young man a serious problem, at least he thinks so, and, aside from the prenuptial social features in which he must necessarily figure as the second fiddle, he is prone to exercise the utmost secrecy and caution. So much so that his intimate friends are at a loss to know whether he is contemplating robbing a bank or committing suicide. The most pathetic of all social figures is the engaged young man, particularly as the time of his marriage approaches. Not wishing to seem small, he generally buys the highest priced one and, handing the license clork a handful of cigars as a bribe, solemnly cautions him to not let the newspaper reporters get hold of the license until a week after the marriage has taken place. The license clerk honestly means to keep the marriage license matter secret, but it has to go on the record, and the argus-eyed reporter discoveres it with he penciled memorandum to not publish it for a few days. The only salvation for the clerk is to divide the cigars given him as a bribe, and then the reporter does not print the license until the next day, which is invariably the wedding day, and all the world sees just how old the bride is, where the types do not happen to make her 51 instead of I.
