 Gentlemen:
 In answer to yours 18th; I am
 happy to say I have received the clock.
 I am proud as a Peacock and my wife thinks
 more of me than ever and that is saying a
 good deal. If it stands as hard usage as the
 Bee and lasts as long, you will never hear
 from me again. I am afraid our neighbors will
 "Bee" running over all the time to get posted
 on the time, just the same as they always do
 with your paper. It looks O. K. so I will thank
 you and take chances on its running.
 Yours truly,
 Ben. Ashton

 Gentlemen:- Answering yours
 of 27th with reference to clock
 shipped me, will say, it hangs
 on the wall and is doing time
 like "my grand father's" clock of yore
 olden time. It is a fine piece
 of furniture and I am well
 pleased with the manner
 in which it starts to do business

The Clock

Is guaranteed to keep perfect time; is finished in the square corner Mission style, in Flemish oak, which gives an admirable and pleasing contrast to the large brass pendulum weight and large brass figures; it runs for eight days with one winding - strikes the hour and half hour on separate and distinctly toned bells; is 13 in. wide and 28 in. high and is an ornament to any home, business house or private office. This is a splendid opportunity to secure a beautiful and accurate timepiece. Call at our main office or send us your name.

The Bee

Is acknowledged as the most reliable western paper for western news. Its editorials command respect, because they are strong, honorable and unbiased. Its sporting columns are reliable and comprehensive; its news and advertising columns are clean - no objectionable medical copy is accepted - in short, it is a conservative, reliable, progressive newspaper for the office or the home. It is devoted to the interests of Omaha, Nebraska and the middle-west. If you read it one year you will continue to read it - that's why we can make this exceptional offer.
