WILL BE LITTLE EXPORT WHEAT

Statistics of Five Years Preceeding Compared with Present Conditions Seem to Warrant This Outlook.

OMAHA, June 8, 1971.

The market railled some this morning, ifter the heaviness shown near the close yesterday. Low percentage crop reports the pour in and experts say there will be very little wheat for export, judging from statistics taken for the previous five years. European weather conditions are more faverable and cabies came lower.

Wheat opened a little soft this morning, after the heaviness shown at the close yesterday. Considerable nervousness was felt and it took very little to move the market either way.

There was a raily on Kansas report and shorts are covering on advance. July OMAHA, June 8, 1907.

ROSIN-Quist; strained, common to good, Additional Strained, Common to good, Common to good LONDON, June 8.—Money was in good demand and in fair supply in the market today. Discounts were steady. Prices on the Stock exchange were quietly steady. Yesterday's release of gold by the Indian secretary helped consols to harden, but the good board of trade figures failed to assist home rails. Poreigners were supported by Paris. Japanese imperial to of ligit closed at its. Americans suffered from moderate liquidation during the early trading, which caused a setback from parity, but renawed support later hardeged prices.

CATTLE—There were no new developments in the cattle trade today, there not being enough cattle here to make a market. The receipts for the week show a very heavy gain, being double the receipts of last week and larger than a year ago by over 10,000 head. The arrivals have consisted principally of beaf steers, there being only a very small sprinkling of cow suff and feeders.

The receipts of boef steers being so large in connection with the fact that prices advanced 60,650 las. seek made buyers feel rather bearish and there was an inclination throughout the week to pound prices each day. On the other hand the demand proved to be very good, and while the market seek in Sight.

WYOMING RIVERS ARE HIGH Heavy Snows of Winter Have Hosulted in Floods Generally Over State.

CHEYENNE, Wyo., June 8 .- (Special.)-Reports received here from Pinedale and vicinity reveal what an immense amount of snow fell in the mountains during the winter. The creeks have all risen higher than ever known before. The Kemmerer stage road has been almost a sea of water and mud and passage almost impossible. The Ham's Fork went on a rampage at Kemmerer and for one week it overflowed and washed out all the wagon roads, so that no wagons could pass between that point and Frontier. > TYPHOON SPREADS DISASTER Caroline Islands Almost Entirely Wrecked by March Storm and Tidal Wave.

SAN FRANCISCO, June &-The first dotalls of the havor wrought by a typoon the latter part of March were brought here today by Rev. G. H. Jagnow, a missionary, who arrived on the steamer Coptic. A few days before Easter Sunday, a typoon swooned down upon the islands known as the Olcal group and completely wrecked them. A tidal wave that followed not only swept over the land but it practically buried it under a blanket of sand from the ocean's bed. This wave rendered 1,500 people homeless and 250 men, women and children were drowned on one island alone, Twenty-five persons were lost on another of the small islands. The typoon lasted three days. All the trees and shrubbery were either uprooted or buried in the sand, When the tidal wave occurred and swept over the land, hundreds of natives were saved by awimming about until the waters receded. The German authorities sent a steamer with supplies and with these the natives expect to subsist until they can produce their crops.
