Opening is Strong, but Shows Reaction Soon After. BAD REPORTS NORTH AND SOUTH Predominating Factor in Price Making from Now On Hangs on Development of Spring Wheat.

NEW YORK, June 10.—The usual lull today in the stock market from the week-end recovery in prices. That is, some moderate outside interest. The sufficiency of a demand to absorb the profit taking sales on Monday by the professional who have bought stocks on the week-end rise is regarded usually as a sign of the real strength of the market.
