We Offer at Par and Accrued Interest the Unsold Portion of \$9,000,000 6% First and Refunding Mortgage Gold Bonds Long-Bell Lumber Company of Kansas City, Missouri

This bond issue is a direct obligation of The Long-Bell Lumber Company, whose total assets at a contervative appraisal amount to \$25,510,293.23, and is made for the purpose of refunding into one loan all of the outstanding bonds of that company and its subsidiary companies, together with practically all its floating indebtedness, and to place the company in an impregnable financial condition

Dated May 1, 1907. Coupon Bonds, \$1,000 and \$500 each, payable as follows: \$250,000 each six months-November 1, 1907, to May 1, 1908. 300,000 each six months-November 1, 1908, to May 1, 1920. 325,000 each six months-November 1, 1920, to May 1, 1922. Principal and Interest Payable at

Central Trust Co. of Illinois, Trustee, Chicago

Secured by about 275,000 acres of Virgin Long and Short Leaf Yellow Pine Timber Lands, owned in fee simple, containing over 3, 300,000,000 feet of merchantable pine timber, located in Calcasieu, Rapides and Sabine Parishes, Louisiana, and San Augustine, Angelina and Sabine Counties, Texas. Also about 100,000 acres of partly cut-over lands containing about 350,000,000 feet of pine and hardwood timber; seven large modern saw-mill plants with a daily capacity of 1,000,000 feet of lumber. Our appraisal of the present cash market value of the property securing this bond issue is \$19,261,167.00. This appraisal does not include the value of the standing timber on the partly cut-over and hardwood lands covered by this mortgage, nor the value of the lands for agricultural purposes when the timber is removed.

The body of timber covered by this mortgage is one of the largest and finest tracts of pine timber lands under one ownership in the United States.

The mortgage requires, under careful restrictions, a deposit with the Central Trust Company of Illinois, Trustee, of \$3.50 per thousand feet for all timber manufactured into lumber. This will result in the payment of all of the outstanding bonds long before the timber covered by the mortgage has been exhausted, without taking into account any security afforded by the value of the saw mills and other property included under the lien of the mortgage.

The net earnings (profits) of The Long-Bell Lumber Company for the year ending January 1, 1907, after crediting stumpage account \$4.00 per thousand feet, were \$2,330,488.25, over two and one-half times the largest annual payment of principal and interest. The average net earnings (profits) of The Long-Bell Lumber Company for the past three years were \$1,629,679.03. over three times the interest charge on this bond issue.

The Long-Bell Lumber Company has a capital and surplus of \$15,632,203.23; has been established thirty years and possesses the highest credit.

Circular describing this issue, together with full information, will be mailed upon application to the undersigned. Price of bonds, for long or short maturity, par and accrued interest, yielding "six per cent.

limited. There was very little doing in stockers and feeders, partly because there were few cattle of that description on sale. Such cattle as changed hands brought good,

cattle as changed hands brought good, strong prices. HOGS-Receipts of hogs this morning were extremely large and buyers started out hidding a little lower. With such large receipts it looked as if buyers had the best of it, and the first hogs sold a little easier, The demand, however, proved to be fully equal to the large receipts, so that prices firmed up very quicksy until the market was fully steady with yesterday. The close was active and strong at the prices. The huk of the hogs sold at \$5.0006.07%, with a top at \$6.16. Considering the very large receipts the market was in a most satis-factory condition from start to finish. A few loads which came in late did not sell so well.

few loads which came in late did not sell so well. SHEEP--Receipts of sheep were quite liberal this morning for this season of the year, about fourteen cars all told being reported in. The big, slump reported at Chicago as well as the general decline at still more easterly points caused the mar-ket here to break for the first time in a long while. The market here could safely be quoted 25 lower than yesterday or than the close of last week. In spite of the decline there was a fair demand and everything sold in good season. The sharp break in the markets of the country occasioned no surprise, as the sea-son of the year has arrivel when such a thing was to be expected. The fact is fat stuff has been selling at enormously high prices and it was to be expected that when sufficient grass stuff had become available prices on fed sheep and lambs would break sharply. Quotations on shorn stock: Good to
