

From Omaha Newsboys TWO CENTS ... FIGHT TWO-CENT LAW ... FREIGHT RATES ALSO AFFECTED ... HILL TAKES GLOOMY VIEW ... RO NEW LINE TO SEABOARD

From Omaha Newsboys TWO CENTS ... KANSAS CITY, June 13.—District Judge P. Pherson here this afternoon granted the petition of the Missouri railroads for a temporary order restraining the state officials from putting into effect both the maximum freight rate and the 2-cent passenger rate law.

NEW YORK, June 13.—That the government will be forced to lend its credit to aid the railroads was the statement made by James J. Hill today. "The public in its exasperation," said Mr. Hill, "will demand that the railroads lay certain rails and provide for cars. The railroads will answer that they cannot; their credit has been curtailed. The government will be obliged to step in and lend its credit to supply this deficiency. It eventually might lead to government ownership of railroads. It would be the end of republican government. The trouble is that the business of the United States has outgrown the capacity of its railroads, and the railroads are in no position to catch up. If men cannot get their freight moved they must cease to produce. It does not appear any easier for a railroad to get money now than it was a few months ago. During the past seven or eight months the railroads have raised something like \$500,000,000. Has it gone to increase facilities? Not at all. Most of it went to pay off old bills."

NEW YORK, June 13.—The building of some 150 miles of railroad to connect the Western Maryland line and the Washburn and this provides an eastern outlet for the Gould system, the Tribune says it learns, has been indefinitely postponed chiefly because conditions at the present time are unfavorable to the financing of new construction. Work on the main line of the Western Pacific is getting ahead and looking now as if the new Gould line will be built before the Western Maryland and the Washburn are connected in the east.

NEW YORK, June 13.—Because Nikola Tesla, proponent of a theory of communications with Mars, has failed to satisfy a judgment of the court, the mysterious tower at Wardencliffe, N. Y., has been advertised for sale by Sheriff Wells of Suffolk county. Mr. Tesla has expended a fortune upon his electrical experimental works in Wardencliffe, whose purpose he has kept to himself. Only his closest friends were permitted to get within seeing distance of his "wonder tower," as the huge structure of steel and cement was called, and no one appears to know exactly what it was intended for. That it was to be used to demonstrate his theory of communicating with the Martians is popularly believed. The judgment is held by Dr. James W. Warden. The security is the 200 acres owned by Tesla, upon which stands the tower, which is sunk into the ground a distance of 150 feet and is 150 feet in height, according to Tesla's statements to his friends. The tower has a great mushroom top, from which there used to be blinding flashes of electricity at night some years ago. Mr. Tesla when seen at the Waldorf-Astoria last night said the case was an old one, the judgment growing out of an option he had taken on the land. He said the matter would be settled.

COLORADO SPRINGS, Colo., June 13.—Nikola Tesla, about ten years ago erected a laboratory and tower on Nob Hill near this city for experiments in the transmission of power without wires. The plant was valued at approximately \$500,000. Shortly after he left this city the caretaker of the plant, a man named Duffner, sued Tesla for \$1,000 salary. Subsequently the assessor's office levied upon the property for taxes, with the result that the building and machinery was sold under the judgment obtained by Duffner and the taxes were paid out of the proceeds of the sale.

SIDNEY, Neb., June 13.—(Special.)—Unlucky coal is furnished to the people of Sidney and vicinity in the next forty-eight hours a raid will be made on the coal outfits of the Union Pacific Railroad company. The people have been very patient here and as there is but one dealer he has a monopoly of the business and at the same time the railroad company will not half supply the demand. Rock Springs coal is selling at \$5 a ton. The people here the State Railway commission will take some action and put the price where it properly belongs.

SIDNEY, Neb., June 13.—(Special.)—Unlucky coal is furnished to the people of Sidney and vicinity in the next forty-eight hours a raid will be made on the coal outfits of the Union Pacific Railroad company. The people have been very patient here and as there is but one dealer he has a monopoly of the business and at the same time the railroad company will not half supply the demand. Rock Springs coal is selling at \$5 a ton. The people here the State Railway commission will take some action and put the price where it properly belongs.

CHICAGO, June 13.—At a special meeting here today of the executive committee of the Western Passenger association, all applications for reduced rates were refused. This includes conventions of all kinds, camping trips, Sunday school excursions and merchants' conventions. The maximum and minimum passenger rates in all western states passing 5-cent rate bills will be the best rate that can be secured. All western roads were represented and the so-called weak bills stated they would consider their rates to the regular schedule.

NEW YORK, June 13.—A dispatch to the Herald from Rio Janeiro states that failure of the coffee loan scheme has caused a panic in the market here. Several important firms are affected and a serious crash is feared.

SUMMARY OF THE BEE

Table with columns for dates (1907, JUNE, 1907) and days (MON, TUE, WED, THU, FRI, SAT). It lists various events and their dates.

WESTERN MATTERS AT CAPITAL

LAND AVAILABLE FOR ERECTION OF ADDITION TO THE NEBRASKA CITY POSTOFFICE. (From a Staff Correspondent.) WASHINGTON, June 13.—(Special Telegram.)—Attorney General Bonaparte has advised the Treasury department that clear title may be secured to the property offered by A. C. Morton and S. S. Wilson, known as lots 4, 5 and 6, being the remainder of the half block upon which the present postoffice at Nebraska City, Neb., is located.

BOISE, Idaho, June 13.—The men who are battling to save the life of William D. Haywood and the good name of the Western Federation of Miners made their greatest assault upon Harry Orchard today when, carrying the review by cross-examination of his life of crime down to his confession, they hitly assailed his guiding motives. Six days they spent in stripping him before the jury of every shred of morality of character, and then, suddenly turning upon him in a final fierce attack, they fought with every means known to legal craft to convince the jury that Orchard was committing a crime in falsely swearing away the lives of innocent men in the hope of saving his own. They carried their attack to the very language with which the witness answered their questions, and everywhere they alleged by forceful implication that it was put into his mouth by men controlling him.

CHICAGO, June 13.—At the annual election of the Illinois Tunnel company, which controls the subway beneath Chicago's streets, sweeping changes were made in the management. President A. G. Wheeler resigned and gave place to Samuel McRoberts, treasurer of Armour & Co. W. J. C. Kenyon, manager of the Omaha stock yards, was made general manager, and P. A. Valentine was succeeded on the board of directors by J. Ogden Armour, who was also elected to the executive committee. President Wheeler gave as his reason for resigning at the company was now preparing to commence operations and he considered that he should give way to an operating man, which he does not claim to be.
