ARRESTED ON GRAFT CHARGE

Two Men Charged with Swindling People Out of Feather Beds.

NUMEROUS COMPLAINTS LATELY

People Who Give Up Feathers to Be Cleaned Inform Police They Are Never Returned—Third Man of the Party Escapes.

Watt Nute and Frank Green were arrested yesterday morning by the police and are being held on a charge of fraud. The men, it is alleged, have been working what is known as the "feather renovating" graft in the city and adjoining territory. Complaints have been made to the police that a gang of men has been soliciting feathers to renovate. Persons who were beguiled into parting with their feather beds and pillows, it is said, never saw them again.

The arrest was brought about by W. R. Morgan, proprietor of an upholstering establishment on Broadway, whom the men under arrest are said to have claimed to represent. Nute was arrested at the Green barn on East Broadway as he was about to leave for Omaha with a wagon load of feather beds and pillows which he and his partners had collected during the last few days. Green was arrested at 142 Ridge street. Bert Green, another member of the gang, and a brother of Frank Green, could not be found by the police. Some time ago the local police were asked by the Sioux City authorities to pick up Bert Green, as he is wanted for abandoning his wife and three small children.

Robert Rude, the driver of the wagon, was taken into custody but later released.

MANAWA RESORT IS ENJOINED

Plaintiffs Seek to Stop the Sale of Liquor on the Grounds.

The Council Bluffs Fish and Game Protective association has taken the first steps to carry out its threat to prevent the sale of liquor in the enclosure at Lake Manawa. Attorney G. H. Scott, who also appears as one of the plaintiffs in the petition, filed in the district court yesterday suit to enjoin the Interstate Amusement company, the Omaha and Council Bluffs Street Railway company and others from selling liquor at the lake resort. The hearing on the application for a temporary writ of injunction has been set by Judge Wheeler for Saturday morning.

The plaintiffs in the suit are C. W. Atwood, O. C. Brown, G. H. Scott, A. D. Bray and W. L. Williams, members of the board of directors of the Fish and Game Protective association, who at the last annual meeting of the club were elected on an avowed platform of hostility to the Lake Manawa management, as a result of the street railway company failing to comply with the demands of the association that it be furnished with a site for a club house. The defendants named are the Interstate Amusement company, Luther Drake, Fred B. Hamilton, H. C. Barton, George H. Palmer, Lewis C. Nash of the Interstate Amusement company; T. J. O'Brien, caterer and lessee of the restaurant at the resort; R. F. O'Brien, brother of T. J. O'Brien, and said to be manager of the restaurant, etc.; William Byrne, manager for the Interstate Amusement company; R. A. Leussler, secretary of the street railway company; W. A. Smith, general manager of the street railway company; C. R. Tyler, resident stockholder and director of the street railway company; the Omaha & Council Bluffs Railway and Bridge company, the Omaha, Council Bluffs & Suburban Railway company and the Omaha & Council Bluffs Street Railway company.

The petition recites that the plaintiffs, as residents and citizens of Pottawattamie county, Iowa, are interested in the peace, welfare and good order of the inhabitants of said county and that the defendants unless restrained from the sale of intoxicating liquors within the enclosure known as Manawa park, will continue to be a nuisance to the irreparable injury of the plaintiffs, the prosecutors and the citizens of said county.

The Interstate Amusement company is attacked, the allegation being made that the corporation was organized merely for the purpose of avoiding liability against the street railway company. In addition to setting forth the fact that liquor had been sold for several years past within the enclosure at the lake, it is alleged that on Sunday last liquor was sold, contrary to the law, to one George Broyles.

For the edification of the visitors Colonel Baker gave a demonstration of packing cinders and dirt into a dirt road. The visitors were much pleased with their trip and expressed complete approval of the system of roadmaking in vogue here.

Cousins Out of Office.

Captain L. B. Cousins, who was known as a "standpatter," has been relieved of his position as deputy oil inspector and announcement comes from Des Moines that G. B. Hardell, said to have been an adherent of the Cummins, or "progressive" faction of the republican party, is to have the appointment. Mr. Hardell resides at 829 Avenue C, and his appointment is said to have been brought about by Councilman Wallace and G. H. Scott, former judge of the superior court, as a reward for his active opposition to the granting of a new franchise to the water works company.

Deputy Sheriff Woolman, who last January was appointed deputy game and fish warden, has been notified by State Warden Lincoln that his commission has been revoked and William Roper of 622 West Washington avenue appointed in his place. Woolman was a "standpatter" and it is presumed in court house circles that Roper must have been identified with the "progressive" wing.

Decision in Brown Case Saturday.

Judge Wheeler intimated yesterday that he would hand down his decision in the J. Brown contempt case Saturday morning. He also will pass Saturday morning on the motion for a new trial of Arthur Southwell, convicted of assault with intent to inflict great bodily injury. In the event of the motion being overruled, it is likely he will pass sentence on Southwell. The court also has set Saturday for passing sentence on George Matheson, the young man who shot and dangerously wounded former Deputy Sheriff Baker at Weston. Matheson escaped with a conviction on the minor offense of assault with intent to inflict great bodily injury.

Horse Scared to Death.

Council Bluffs has a well authenticated instance of a horse dropping dead from fear at the sight of an automobile. While the men at the warehouse of the McCormick Harvester company were getting out a new automobile on Sixth street, a farmer named Jensen, living a few miles south of the city, in Lewis township, attmepted to drive by with a team, one of which was a young horse which had never seen an automobile before. The animal, frightened by the appearance and noise of the machine, reared up, then stood trembling for a minute or so and fell in a heap. When its owner attempted to raise it the animal was found to be dead.

Atlantic Man a Winner.

ATLANTIC, Ia., June 13.—(Special.)—G. W. Wakefield, a farmer of Edna township, claims to have made $40,000 by speculating on the Board of Trade during the recent flurry in wheat, and he tells through the columns of a local paper how he accomplished the feat. He lost but $12,000 during his operations on the board, and says that anybody with ordinary judgment and lots of nerve can beat the great game of dealing in futures.

Iowa News Notes.

ATLANTIC—Miss Grace Conerd and Carl E. Hoffman, two Atlantic young people, surprised their friends yesterday by boarding an early morning train for Omaha, where they were married yesterday.

ATLANTIC—Dr. Ellery Reed, who was on Sunday installed as president of the Lenox college at Hopkington on the occasion of its semi-centennial celebration, is well known here and has a host of friends who knew him when he was pastor of the Presbyteran church here some years ago.

ATLANTIC—There will be no public celebration of the Fourth of July at this place, but the management of the Merchants' Grays base ball club have announced that they will play two games of ball, one in the morning and one in the afternoon with the Yeoman team from Des Moines and will also furnish a program of foot races and other athletic sports.

ATLANTIC—The Rock Island road, which has already announced its intention of building a new round house and enlarging the trackage here, has now announced that it expects to make other repairs and improvements to its property here and will soon build an addition to the freight depot, making it the most commodious freight house between Des Moines and Council Bluffs.

ATLANTIC—The barbers of Atlantic recently posted notices that after June 15 they all would charge 15 cents for a shave, forcing the customer to take a neck shave whether he desired it or not. The order created such a storm of discontent from customers that one of them pulled out of the agreement, and the others were unable to hold it together, and announcebent was made yesterday that the new schedule would not be enforced.

ATLANTIC—Miss Lillian Pekin has received word from the General Board of Foreign Missions of the United Presbyterian church that her application for a position in the foreign field has been favorably acted upon and that she will be ready to sail for Egypt as a missionary early in the fall. Miss Pekin has been a teacher in the schools of Cass county, a student at the State Normal school and has made special preparation for her work.

BOONE—Madrid, located on the Milwaukee, south of Boone, is decidedly in a pickle, all of the councilmen save one having resigned. The men took the view that owing to the amount of work involved they could not afford to give up so much of their time for the 50 cents per meeting which is allowed the present council. Nothing much was said about the matter until last evening, when with one accord five of them arose and resigned, leaving only one. Now the town finds itself in a dilema. A majority vote of the council is necessary to make appointments and a council may appoint other councilmen during a term if the place is made vacant by a resignation. The council can also call a special election, but in the case of Madrid there is no council left. The situation is a mighty interesting one and one which has never been paralleled heretofore.

CLAIM BONUS IS A REBATE

Santa Fe Railroad Pays Sugar Company to Build Factory on Its Line.

CHICAGO, June 13.—The government is trying to secure indictments against the Atchison, Topeka & Santa Fe railroad and some of the company's officials on a charge of having paid rebates to the United States Sugar and Land company of Garden City, Kan. The federal grand jury heard several witnesses here today. It is claimed by agents of the government that the Santa Fe road paid the sugar company a bonus of between $35,000 and $50,000 to locate a beet sugar factory at Garden City in 1905. This bonus, it is charged, was based on the amount of tonnage the company should be able to produce for the Santa Fe and was paid out as the tonnage developed, payment being made on a definite agreed basis.

In regard to the case, President Ripley of the Santa Fe said:

"It is true that we paid the sugar company a bonus of $35,000 to locate at Garden City, and we are ready to defend that action. It is ridiculous to say that we granted a rebate to a company located on our railroad and having no other means of shipping out its product."

DEWITT SAYS HE'LL COME

Hotel Clerk Shy in Accounts 'Phones that He is in Kansas City.

"I am here in Kansas City and will be back in Omaha and settle all the bills I owe."

This telephone message was received Thursday morning from Harvey DeWitt by some of the interested parties in Omaha and incidentally it lifted a load from certain minds.

DeWitt, for six or seven years the trusted manager of the Bachelors' apartment house at Twentieth and Farnam streets, disappeared Tuesday and numerous boarders at the apartment house are out sums ranging from $10 to $30 which DeWitt had borrowed from them, and Mrs. M. Coutant, proprietress, has discovered an apparent shortage in his accounts. Just how much DeWitt is owing cannot be determined until a careful examination is made of the books. The police have been notified and are now looking for him.

It is known so far that DeWitt borrowed at least $200 from various persons shortly before he left and owes Moritz Meyer about $300 for cigars. How much more than that he secured will probably never be determined. As manager of the Bachelors, he collected approximately $2,000 a month. Since his disappearance several of the roomers have discovered that payments they have made recently, ranging from $30 to $40, have not been credited on the books.

DeWitt left the apartment house Tuesday afternoon and attended the base ball game at Vinton Street park in company with a young woman. After the game he took her back to the store where she was employed and left ostensibly for the Bachelors. He did not go there at all that evening and it is believed he took an evening train for St. Louis. His failure to show up Tuesday night aroused some suspicion, but no investigation was made until these suspicions were confirmed by his absence Wednesday.

DeWitt is 28 years old and was very popular with the guests at the rooming house. Implicit confidence was placed in his honesty and for this reason it was easy for him to borrow money right and left. He had full charge of the collection of money for the house and the payment of bills. He was unmarried and drew a salary of $125 a month.

ALLIANCE READY FOR STOCKMEN

Indications of Best Convention Ever Held in the State.

ALLIANCE, Neb., June 13.—(Special Telegram.)—Elaborate preparations are being made today for the reception of the Nebraska Stock Growers' association, which meets here tomorrow. The streets and business houses are gaily decorated with the stockmen's colors and everything points to the most successful convention the stock growers have ever held. Senators Burkett and Brown, together with Congressman Kinkaid, will be big features of the session, as all are down for addresses of interest to stockmen. The South Omaha delegation of commission men will arrive tomorrow at noon in a special train, after which enthusiasm will be unconfined, for they are certainly world beaters.

SHORT TALKS BY L. T. COOPER

SPRING AILMENTS.

A man and a house need the same thing in spring—a good cleaning out. A certain amount of impurities have gathered in both during the winter. I am no authority for house cleaning. So far as the man is concerned Cooper's New Discovery taken for two weeks will bring the desired result. It will positively do these three things—clean out the stomach and bowels, tone up the system generally, and bring back the snap to body and mind that now seem dull and worn out. Try it and see if you won't be as pleased as Mr. Hull, whose letter I quote below:

MR A. W. HULL.

"I suffered a general breaking down of the system. Had no appetite, poor ambition and took no interest in anything. Nothing I could do seemed to give me relief until upon a friend's advice I began to use Cooper's New Discovery. It helped me from the start. Now I am able to do as much work as the next one and I enjoy it. I have a hearty appetite and am stronger and better every way. Your New Discovery medicine is certainly the best tonic and system builder I have ever known." A. W. Hull, 142 Porter St., Detroit, Mich.

These are the famous medicines with which Mr. Cooper recently created such a stir in Chicago. His demonstrations there attracted wide attention. We are agents.
