Your Physician--

dislikes to insist on your going to a certain drug store with his prescription because it looks unprofessional—but you can not expect results from your prescription if it is not properly filled. Usually—the physician soon learns from experience the best pharmacies from which his prescriptions come—and it is no more than right for him to caution his patient against a drug store which substitutes. Now then all we have to say about this matter is just this—when your physician gives you a prescription, ask him if he thinks it will be filled as he wishes at Schaefer's Drug Store—and we will abide by his answer for this reason. We will not tolerate substitutions. We call for fill and deliver prescriptions without charge—cause we have our own messengers.
