OFFICIALS' SECRET CONFERENCE

Two Large Transcontinental Lines Said to Have Served Notice that Reduction is Coming—No Formal Agreement.

CHICAGO, June 22.—The Inter Ocean today says:

Passenger rates on all railroads of the United States will be reduced to cents a mile. The lowering of the price and complete abolition of the old 2-cent rates will begin on July 1.

Murray Makes a Point

When W. H. Murray, assistant general passenger agent of the Union Pacific, was asked in reference to the story from Chicago to the effect that all railroads of the country were going to put in a 2-cent passenger rate July 1, and said:

"I don't believe there is anything in it. For if there was we would surely have heard something about it by this time. It is foolish on the face of it, because, under the provisions of the interstate commerce act the railroads could not reduce the rates without the statutory thirty days' notice, and of course there is not time to give that before now and July 1.

COUNCIL HAS AMPLE POWER

City Can Compel Necessary Street Car Improvements, Says Harry Zimman.

"The city council has the power to compel the street railway to make such connections and extensions as the good of the service requires," asserted Councilman Zimman Friday night to 100 taxpayers who had assembled at a meeting of the Omaha View Improvement club in the headquarters of the organization.

"The street car company has ample means without borrowing one penny to make these improvements," declared Mr. Zimman. "Don't let it deceive you with statements to the contrary."

"The street car company is bonded for \$10,000,000. Of these bonds \$2,000,000 are reserved, \$1,000,000 is 5 per cent preferred stock and \$5,000,000 common stock, valued at \$9 per share," Mr. Zimman then went into the question of the universal transfer plan and the demand of twenty-five tickets for \$1 and stated that such an ordinance was now pending in the council and that it should pass, and that the street car company had said that if all this agitation drew the company would give all needed extensions and additional interurban lines.

The reported interview quoting me as stating that President Small would be disciplined by the executive board as a result of the strike at San Francisco is absolutely untrue. Nor has any member of the executive board made such a statement.

A Good Motto. "Speaking of curious signs," began the city salesman.

"Which one has mentioned heretofore," hinted in the buyer.

"Well, speaking of signs, now that you've brought up the subject," continued the salesman, unperturbed, "I saw a curiosity in that line the other day."

"I don't see that," remarked the buyer, colorlessly.

"Yes, sir, it's a good one for you to remember, not that you need it particularly, but just on general principles, the salesman explained.

"It was in a little lunch room and took the place of the sign that reads 'No credit,'" you've seen that sign, but it had it best to death," continued the salesman.

"Well, what was it?" questioned the buyer.

"The salesman produced a little card and handed it over the counter. This was it: 'Pay as you go and you'll cut the best quicker.'" Chicago Record-Herald.
