The Secret of... Fitting Shoes

It is as much an art as making them. Your foot is individual — differs from every other in shape and size — in sensitiveness and insensibility. To fit your foot with a last which protects it — with an upper which is snug without being tight is a Drexel requirement of their salesmen.

We have special lines of stylish footwear for young people and those who prefer a smart looking shoe in summer.

Can You Afford

To invite your clients into an office which is not spaces with the present times? You know your own feelings when obliged to go in an office building where you have to wait for the elevator and then crowd in with more people than the elevator car can accommodate, to be left off in a dark, unkempt hallway and have to hunt around in the dark for the party wanted.

The Bee Building

Offers you space which is in every way desirable. The halls are endless and well lighted, and the rooms are all plainly numbered, the even numbers outside and odd numbers on the court. The elevators are roomy and run with regularity. If you are considering locating a new office or contemplating a move we would be pleased to have you call and let us show you around the building. We make no extra charge for electric light nor janitor service.
