NEW YORK STOCKS AND BONDS

Withdrawal of Support of Professionals Causes Reaction in Prices.

LONGS TO SELL TO TAKE PROFITS

Market is Narrow and Close is Ensy. with Net Losses More Numerous Than

NEW YORK, June 26.—The principal interest in today's stock market centered in the technical position of the market and the inferences that might be derived as to the origin and character of the demand which sprang up yesterday and started the upward movement of prices. The effect was to confirm presty confidently the supposition of the professional nature of the market in skilful hands, and the appearance of activity and strongth was well maintained during the period of profil-taking sales. Later the appearance was not so favorable, and the organized support of prices was not pursued, presumbly because the process of realting profits had been successfully concluded. The result was a disappointment to a following that had looked for a prolongation of the movement over the end of the month might be the objective in view by the operators for the advance. The taking of quick profits proved the greater attraction, however, in view of possible contingencies over the end of the month. The money market showed no immediate indication of coming stringency and the reaction in foreign exchange, which promises to put a stop to the outward movement of gold, went further today. This movement was made much of yesterday as a reliance for averting the threatened strain on the local money market. Today's statement of subtreasury operations, in fact, showed a loss by the banks to that institution, since last Friday, of \$2,00,000, which is a sufficiently threatening prospect for the heavy credit requirements of the end of the half year, in view of an existing surplus of less than \$2,00,000 held by the banks last Saturday. The forthcoming sale on Friday of \$2,000,000. Which is an end of the half year, in view of an existing surplus of less than \$2,00,000 held by the banks last Saturday. The encouraging effect of the success of Monday's Philadelphia bond sale on the hopes of a success for the New York offering, had passed away to some extent today and there was renewed anxiety over the sun of the effects of the withdrawal or governme

trials.

There was some revival of crop damage reports and this may have conduced to the late reaction in stocks. It had much more the appearance, however, of natural reaction from yesterday's sharp advances and of a demonstration of the continued narrow dimensions of the present market. The closing tone was easy, with net losses more numerous than gains.

Honds were irregular. Total sales, par value, 51,048,000. United States bonds were unchanged on call.

value, \$1,088,000. United States value, \$1,088,000. United States unchanged on call.

slow and unsattefactory.

There was a fair showing of fair to pretty good killers among the receipts of steers this morning, but that fact was no inducement to buyers. It was evident right from ment to buyers. It was evident right from the first that buyers had made up their minds to secure the cattle at less than they paid yesterday. The result was that the trade was a drag from start to finish. The severe hot weather prevailing in the east has cut down the demand for beef to such an extent that the cattle markets of the country are steadily working to a lower basis for the want of support. That explains why the market has been slow and lower every day this week so far.

There was no change in the cow situation, receipts being light and the demand limited.

There were only a few stockers and There were only a few stockers and feeders in sight and they sold in about the same notches as yesterday, there being no quotable change in the market.

Cattle of All Kinds Continue Slow to Lower. NORTH AMERICAN **EXPLORATION CO**

AUTHORIZED CAPITAL, \$20,000,000 4,000,000 SHARES AT \$5

FULLY PAID AND NON-ASSESSABLE OFFICERS H. C. BROWN......President M. H. McCALL..... Secretary. Carnegie Trust Co., New York City. REGISTRAR AND DEPOSITORY

National Copper Bank, New York City. The Company was organized for the purchase, sale, development and working of mining properties of all kinds, also the operation of mills, smelters or other works for the reduc-

tion of ores and refining of metals. The Company's activities will extend over the North American Continent and Central and South America.

The Company already owns a valuable option on the controlling interests in large mining property, and has other very valuable properties under consideration.

The Company will issue stock for cash as required, in payment for mining properties, or for the control of mining properties by exchange of stock, and also to purchase shares in well developed Mining Companies, but only after most careful investigation by either the Company's engineers or well known mining experts.

The Board of Directors has authorized the issue for cash of 200,000 shares at par.

CATTLE—Receipts this morning were not very large, there being only a fair run for a Wednesday; at the same time there was a great plenty, considering the condition of the market. The trade as a whole was very slow and unsatisfactory.

There was a fair showing of fair to pretty good killers among the receipts of steers this morning, but that fact was no inducement to buyers. It was evident right from

been coming all the week sold at \$5.65, the same price as yesterday and day before. The balance of the receipts consisted of fed stuff.
