makes it more difficult for the mills to arrange for the customary seasonable shutdown for repairs and inventories. Well filled order books and importunate custo-mers seeking prompt deliveries will make the season of idleness briefer than usual. Most mills cannot consider deliveries for many months and the Carnegie company has advanced prices for bars 1 per ton on all contracts for the third quarter. Fig iron is stronger.

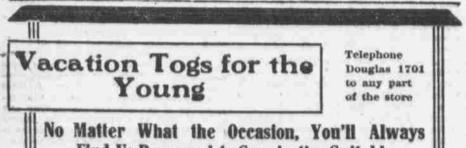

on all contracts for the third quarter. Fig-iron is stronger. Textile plants continue to produce freely, having much business already under con-tract, but orders are light owing to stock faking. It is evident that supplies in sec-ond hands are low. Variations of large size in the cost of raw material have no influence on cotton goods, nor is the attitude of the buyer potent. The dominant factor is the extent to which the mills are sold ahead, supple-mented by some curtaitment of production because of the scarcity of labor. Better conditions in China give an improved tone that because of the scarcity of labor. Better conditions in China give an improved tone to the export division. Progress is slow in woolens, orders being confined to sample pieces in most lines. Dress goods for next apring attract little attention. Duplicate fall orders are light. The hide market is still weak. Foreign dry hides have steadied, but there is no recovery from the recent decline of 3½ cents, while wet salted for-eign hides have fallen still lower. Leather is steady, but sales are smaller than hast year. Tanners are unable to dispose of glazed kid but calf skins are active and firm. New England shoe factories have a liberal sample movement of fall goods, but ipobbers are still disinclined to anticipate their wants. their wants.
