NEWS OF THE BUSY HOME BUILDERS

SOME ARCHITECTURE AWFUL

What an Omaha Designer Says of Personal Tastes.

RESULTS ARE FROZEN DISCORD

Fantastic Creations that Are Designed Because the Owners Think They Are Cute Are Slowly Giving Way.

The taste of the people nowadays lean allogether toward something entirely new and unheard of in the line of building homes, as in other things," said a leading Omaha architect. "We have to draw up what the people want and sometimes our ideas of taste are awfully violated and mutilated by the demands of people for what they think will be 'nobby,' or 'odd,' or 'cute.' Odd they certainly are. Some of the things planned and erected are posttively fantastic. They contain a bit of all kinds of architecture, horrible in its incongruity.

The time is coming and I can see it already when people will go back to the grandparents. I can see the big, roomy, solid, substantial, comfortable houses now like we used to have east in the little town where I lived. They were built of stone, and the white mortar showed in irregular lines on those massive gray walls. The windows were deep and provided with shutters-a mere detail which could be left off in the modern house after this model. The roof was gabled and the chimneys rose from each end

"Inside the arrangements were just as tensible and there was every sign of comfort and homliness. A bed room with the four-poster, covered with its white dimity hanging and white coverlet; the wall paper modestly flowered, the big, deep fireplace with its ask paneled mantie, the deep, nunny windows.

What do you see in the modern house that approaches this? Some people erect massive dwellings that look like castles or penitentiaries. Others erect fantastic things that bear more or less resemblance to Chinese pagodas.

"Recently I have had requests for plans to be drawn for structures on the lines of the old colonial dwellings or the farm houses of New England. People seem to be gettting a desire to move back to nature. and with this desire, which generally follows on a healthy city growth. I think there will come a revival of rural architecture. Houses of this type can be built more cheaply than the more common type of house now in vogue because they require rougher and less expensive materials. The man who sets out to build such a house, though, must not try to make room for his modern tastes. He must not try to mix modern 'comforts,' so-called, with the beauty of the old-fashioned, or the composite will be a wretched failure. I look for some of the suburban homes to be erected in the near future to follow these

William Mumaugh, the contractor, is pre-Plorence boulevard, opposite the home of Rome Miller. He has purchased a lot and will begin building soon.

a new city on the large site purchased at tate in the southwest part of the city. This is a portion of Omaha which is beautifully favored topographically and has excellent street car facilities. In late years the restdence district has not expanded in that direction as much as it has toward the west and northwest. But with the prospect of a large residential suburb at Seymour Park, building in that direction has received a decided boom.

The new Rome hotel is nearing completion and will be occupied in a few days. The lighting fixtures, which are to be an important feature in this new hotel, are being installed by the Burgess, Granden

The entrance to the pastor's study of the Unity church has been changed, the Nebraska Concrete Reinforcing company were given the difficult task of matching the stonework of the church with concrete blocks. Red blocks were used for the coping, with alternate red and white blocks for the walls. The result is a very pleasing contrast.

A discovery of vital interest to manufacwas made last week by pouring water on the face of blocks treated with the filler. Although the blocks were but forty-eight homes. hours old, the water remained on the surface until evaporated, apparently none being absorbed by the block.

Advance in Valuation of Real and Personal County Property.

RAILROADS AND PALACE CARS OUT

Figures and Realty Represent New Buildings and Not Natural Raise on Land Not Yet Assessed.

Completed figures from the county asessor's office show a total increase in the valuation of real and personal property in Douglas county of \$7,069,710. This does not include railroads and palace car companies, which are assessed by the State Board of Assessment, which sits in July. The grand total of personal and real property, excluding railroads, is \$153,068,290. Last year it

The greatest increase is in the business districts of Omaha. The increase in the real estate assessment represents new buildings, or improvements on buildings, and not the natural raise in the value of land which is not reassessed until next year. The increase in the real estate assessment in Omaha was \$3,582,985. In South Omaha it was \$22,560, and in the country districts \$227,370

The personal agreement has not been empiled by districts since the afterations were made by the Board of Equalization. The total shows an increase in personal property over the entire county of \$2,926,806. The following table shows the valuations of real estate by divisions as compared with the valuation last year:

Omalia \$71,179,230 \$74,793,215 South Omaha 14,133,890 14,518,440 Country 15,000,890 15,318,250

Grand total\$146,008,580 \$152,068,290 It is believed the railroad and palace car assessment by the state board will show a substantial increase this year. The total of these two items last year was \$7,136,710.

MAYOR STANDS BY HIS SLOGAN Writes "Nothing Doing" Across Anti-Whistling Ordinance by President Johnson.

Mayor Dahlman has redeemed another of his campaign pledges and "nothing doing" as an official expression, has received of ficial recognition. Saturday morning the mayor made public

the fact that he had vetoed the Johnson anti-whistling ordinance and he did so in he following terms:

To the City Council: I hereby return without my approval the "whistling" ordinance for the following reasons: I do not think it could be enforced. It would need a regiment of policemen with special locomotives to keep in sight of the majority of railroad engines or there would never be enough evidence to convict; and furthermore, we need a little noise of that kind to keep things moving. Nothing doing.

"It is my intention." said the mayor, "to "It is my intention," said the mayor, "to redcem every pledge, and I had really forgotten my promise to the public to put 'nothing doing' on any ordinance which was not worthy. When this ordinance came up I thought there should be 'nothing do ing' and when I had written the words remembered that another pledge had been

"The national association is doing all to The quality of workmanship turned out in started soon. For a high-class residence its power to secure the passage of 'pure Omaha, in the cornice line, is indicated by district, Kountze place is again coming to food laws, by the several states, to conform with the national laws, and hopes to secure decisions by the several pure food commissions of the different states in conformity with the national decisions, tieth streets, which will be occupied by thus avoiding complications in business that would naturally otherwise necessarily arise," said Mr. Pickens.

John S. Brady was re-elected as one of the directors of the association. The Omaha and western contingent quite generally left Chicago previous to the banquet, which was served Friday evening.

CUPID WINS IN LONG FIGHT Finally Succeds in Landing Will Herdman Under the Bell at

the Altar.

William H. Herdman, well know democratic politician and formerly deputy city attorney and Miss Lou M. Nelson, will be married this evening at 8 o'clock at the home of the bride's parents, Mr. and Mrs. N. J. Nelson, 914 South Twenty-fifth street. The fact he was about to be married has been a closely guarded secret by Mr. Herdman and even his closest business associates knew nothing about it. The wedding will be a very quiet affair and the ceremony will be witnessed only by a few relatives and intimate friends and will be performed by Rev. J. W. Conley of the First Paptist church. At the close of the ceremony a

reception will be held at the home. Mr. and Mrs. Herdman will leave at once for the Minnesota and Wisconsin lake region for a three weeks' wedding trip. On their return they will be at home at 4106
