 CHICAGO GRAIN AND PROVISIONS

Centures of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, July 1.—influenced by higher prices for wheat at the principal European grain markets, the market here today was strong, the September delivery closing at a net gain of like. Corn was up %0%c. Dats were %6%c higher. Provisions were 1606c to 10012%c higher. Unfavorable weather for the crop in France, England and Germany was the chief cause of the advance in the continental wheat market. The local market besides being builishly affected by the strength abroad, was also strengthened by weekly statistics and unfavorable crop reports from this country. World's shiptent of the week were about 1.000,000 bu. It is than last week's movement and the ... down to breadstuff on passage decreased 1.840,000 bu. Harvesting reports from the southwest country sweather. Commonth weather the spring wheat crop is making unsatisfactory progress because of dry weather. Commonth with a moderate advance the local spring wheat crop is making unsatisfactory progress because of dry weather. Commencing with a moderate advance, the local market continued to gain until the price of all deliveries was more than 2 cents above the close of Saturday. Realizing sales crused a slight decline in the last half hour, but the market closed strong. Deliveries on July contracts were 5,000,000 bu., which was about what had been expected. September opened 160% to 180% higher at 20% 180% advanced to 25% 2000c and closed at 250 25% at 25% advanced to 25% 2000c and closed at 250 25% at 25% 2000c bu. The visible supply decreased 470,000 bu. Primary receipts were 500,000 bu., against 46%,000 for the same day last year. Minneapolis, Duluth and Chicago reported receipts of 588 cars last week and 35% o year ago.

year. Minneapolis, Duluth and Chicago reported receipts of 885 cars last week and 370 a year ago.

There was only a moderate trade in corn, but the market was strong all day. Commission houses and local bulls were the principal buyers, while offerings came largely from holders. Deliveries on July contracts were less than had been expected, at \$50,000 bu., and this had a strengthening influence. The sharp bulge in wheat, however, was the main source of strength. The market closed strong. September opened a shade to the higher at 53% to 53% 753% c. soil between 13% 153% c and 54% and closed at 54%. Local receipts were 558 cars, with 51 of contract guade.

Oats were active and strong, chiefly because of the strength of wheat and crop damage reports. Deliveries on July contracts were almost 1,000.00 bu. September opened 150% to 150% to 150% and closed at 55%. Local receipts were 150 cars.

Agtive demand by shorts and pit traders, based upon small receipts of live hose, light deliveries on July contracts and the strength of grain, caused a strong market for provisions. At the close September pork was up 109512% at 16.67%. Lard was up 19512% at 18.64%. Lard was up 19512% at 18.64%.

High Rate for Call Money Causes Traders to Hesitate.

CAMPAIGN FOR RISE NOT PUSHED

Prices Bid Up Slight Late in Day After Selling to Realise Subeldes and Final Values Are Highest.

NEW YORK, July 1.—The first of July

NEW YORK. July 1.—The first of July has been looked forward to as an important period in financial circles and has been the immediate objective of the recent quiet modest campaign for a rise in prices of stocks. There was in consequence a good deal of taking of stock of opinions and feeling of the pulse of sentiment in the neighborhood of the stock exchange today. Judgment of the outcome was and feeling to one or two complicating factors in the situation. The most important of these was the failure of the call money to relax at once. Money rates receded in foreign markets, as is usual with the passing of a settlement period but, as is also usual, the effect was belated here. Money on call commanded a higher rate today in fact than on Friday of last week, and did not relax until late in the day when stocks railled. An installment of subscription for new Northern stocks calling for \$11.825.000 was payable today, and this aggravated the pressure incident to the regular dividend and interest payments, which are very large.

The Saturday bank statement was a clear exhibit of the narrow margin to which the available resources of the banks have fallen. The redemption of the metured United States four per cents was due today, but the effect was not felt in the money market. There is indeed considerable doubt as to how the redemption and the coming recall of \$80,00,000 of government deposits from the banks, set for July 10, will balance each other in the money market. There is lalways a proportion of government bonds called for redemption which are delayed in presentation, set that the redemption process may be slower than the recall of deposits. But it was on the side of foreign markets that there arose again today some misgivings or a drain which may resist New York resources. The relaxation abroad finds many requirements to be provided for The London open market is heavily indebted to the Bank of England and when this debt is repaid it is not expected that any decline in the bank discount rate will be feasible. At Pa houses have reported there was some improvement in outside demand for stocks as a consequence of brighter sentiment which developed in securities markets generally last week. Stocks were for sale freely to supply this demand in conformity with the plans of the professional buyers last week in anticipation of this demand. The proportions of the new demand also proved meagre. The selling to realize was carefully conducted however, and was not pushed at the expense of prices. The news of a failure of a banking house in Baltimore, although not deemed important was not a help to stocks.

The renewed strength in commodity

prices gave some point to reports of crop damage. Railroad earnings reports for May showed good increases over May of last year. It was found easy to bid up prices late in the day after the selling to take profits had subsided and the last prices of the day were generally the highest.

BUILDING INTERESTS Number of Permits and Amount of Money Spent Greater Than Before.

Building permits for the month of June, 1906, exceed in number those of the corresponding month last year by sixty-six and value the excess over last year is \$66,725, an increase of about 18 per cent. The record for last month was 143 permits, valued at \$436,366; and for June, 1906, 127 permits, valued at \$369,626.

In connection with this report the building inspecter makes the following statement:

Building operations throughout the city at the present are greater than at any pre-vious period in the history of the building department of Omaha, more buildings are being constructed and more men employed in the construction of the same than any

A portion of the city at the north end will be fenced off for the special use of girls and the smaller children and this is being equipped with swings, merry-go-rounds, teeter boards, slides and a sand pit. The sand pit is being covered with an awning for protection against the sun.

The grounds were thronged Monday with children and the resort promises to become the most popular recreation grounds in Omaha for children.

It was intended to have the formal opening and inauguration of Juvenile City Monday, but owing to the unavoidable absence of a number of parties that were to take part in the opening program the formal opening has been postponed until a later date this week, of which due announcement will be made.

PRILITE REWARD PUT UP FOR FIEND horn Girl.

The county board has authorized the payment of a \$300 reward for the arrest and conviction of the man who committed a criminal assault upon a 15-year-old girl near Elkhorn, June 28. The request that the reward be offered came from the authorities, but the name of the victim was not secured by the board.

The assault occurred Friday afternoon at 1 o'clock The 15-year-old daughter of Charles Babbel, living five miles south of Elkhorn, went out to the road from her home to get the mail from the rural de-livery letter box, when a man who had been hiding nearby, assaulted her and succeeded in overpowering her. She was unable to attract the attention of any person in the vicinity and when she was found, she was in a serious condition. She, however, will recover.

The man, she described as five feet tall, with smooth face, stubby mustache, sandy, and wearing gray clothing. No trace of him was found at Elkhorn by the local officers after the crime and no person was found who had seen him about the town or the locality before.
