OFFERINGS VERY LIGHT FOR DAY

Wheat Made No Marked Change During Hours of Trading-Corn Held Its Own-Realising in Oats.

OMARA, July 2, 1907.

OMAHA, July 2, 1907.

Reports of beneficial rain over a good portion of the northwest and extending into the Canadian provinces, where complaints of dry, hot weather have been coming from, has relieved the strain from those sections and the situation is more hopeiul. The conflicting reports coming in have placed trade at sea and offerings this morning were very light.

Wheat opened at about yesterday's closing prices. No wheat pressing and when commission houses went to it the market firmed up sharply. Offerings were very light and the continued poor threshing returns from the southwest caused additional strength. September option opened at 37%c, bid, and closed at 37%c, bid.

Corn opened firm and higher on good general buying and continued unfavorable reports and cooler weather in the west. September option opened at 47%c, bid.

Oats opened firm and a shade higher with wheat and corn, but advances were checked by heavy realizing. September osts opened at 35%c bid and closed at 35%c.

Primary wheat receipts were 504,000 bu. and shipments 223,000 bu. and shipments 223,000 bu. and shipments of 214,000 bu. Corn receipts were 773,000 bu. and shipments of 214,000 bu. Corn receipts were 773,000 bu. and shipments were 773,000 bu. and shipments of 450,000 bu. Corn for the shipments of 450,000 bu. Corn for export.

Seaboard reported 120,000 bu. of wheat and unchanged on corn.

Seaboard reported 120,000 bu. of wheat and 18,000 bu. of corn for export.

Clearances were 59,000 bu. of corn, 5,000 bu. of oats, and wheat and flour equal to 182,000 bu.

CHICAGO GRAIN AND PROVISIONS Pentures of the Trading and Closing

Prices on Board of Trade.

CHICAGO, July 2.—Higher prices for wheat in the European grain markets again caused an advance here today, the September delivery closing at a net gain of like. Corn and oats were each up 1966.

Provisions were 24c lower to 24c higher.

The builtsh foreign news imparted a strong tone to the local market at the opening and induced lively bidding by commission houses. The demand continued brisk all day and despite periodical reactions sentiment in the pit was decidedly builtsh. The market was also strengthened by shorp advances at Minneapolis and Duluth, caused by reports of rust and greenbugs in the Dakotas. Reports of delayed harvesting and of small yields in the southwest and talk of liberal exports at New York were additional bullish factors. The market closed strong and near the high point of the day. Beptimber opened a shade higher to 1996 and closed at 274,008%c, advanced to 2096 and closed at 284,209%c. Clearances of wheat and flour were equal to 182,400 bu. Primary receipts were 504,000 bu. compared with 25,000 bu for the same day last year. Minneapolis, Duluth and Chicago reported receipts of 552 cars. Prices on Board of Trade. day last year. Minneapolis, Duluth and Chicago reported receipts of 562 cars, against 453 cars last week and 248 cars

against 463 cars last week and 245 cars one year ago.

Cool weather, small primary receipts and the bulge in wheat held the corn market strong all day. The market was also affected by additional reports of the backward condition of the growing crop. The close was attong. September opened unchanged to 56 and closed at 544,25440, advanced to 56 and closed at 544,25440, advanced to 56 and closed at 544,25440. Local receipts were 56 cars, with 8 cars of contract grade.

Cats were firm because of the strength of corn and wheat. The bulk of dispatches received today reported improved crop conditions because of more favorable weather. September opened unchanged to 36 and closed at 385,400. Local receipts were 154 cars.

and closed at 38%, advanced to 38% and closed at 38%, and closed at 38%, and closed receipts were 154 cars.

Provisions were quiet and easier. The chief bearish influence was the monthly report of local stocks, which showed considerable quantities on hand. At the close September pork was up 2% at 18.50. Lard was unchanged at 38.10. Ribs were 2% lower at 88.5%.

Estimated receipts for tomorrow are: Wheat, 30 dars; corn, 359 cars; cats, 74 cars; hogs, 23,000 head.

Organized Attempt to Raise Prices

Strikes a Snag.

FOREIGN CALL FOR GOLD FACTOR Report that Naval Force in Japanese Waters is to He Increased Assists in Causing the

Reaction.

NEW YORK, July 2.—The organized attempt to carry prices of stocks to a higher level encountered obstacles today which had the effect of impairing to some extent the confidence of the operators embarked on the attempt. Support of the market was not absandoned, however, and a good show of resistance to the reaction was made at times during the day.

A prime factor in the doubts engendered over the feasibility of conducting a prolonged advance was the new light on the foreign demand for gold thrown by yesterday's course of the foreign exchanges. Today there was, to be sure, some recovery in the exchange rate at Paris and some early decline in the rate here, both movements being sway from the point profit on the gold shipments to Paris. The rate became strong here again later. That the resumption of the movement might follow a relaxation in the local money market was a general conviction amongst international bankers. Discount rates continued to decline abroad, but there was also some subsidence of the new confidence which was reported from these markets lately. London sold stocks in this market again and Paris sentiment was somewhat disturbed. The weekly statement of the imperial bank of Germany reveals the severest strain of the semi-annual settlements there in a decrease of \$34,255,000 in cash on hand and in an increase of \$79,005,000 in outstanding loans and of \$85,665,000 in the note issues. These figures represent requirements now met, but a necessary period of recuperation from the strain of meeting them is to be supposed. The forthcoming report of the Bank of France will be looked forward to with even greater interest to secure light on the probable demands of the bank for gold in the process of recuperation. Money on call here continued light, but did not touch the high figure of yesterday. Large amounts of the matured 4 per cent bonds were presented at the subtreasury for redemption and the routine operations of the sub-treasury are also yielding a cash gain to the banks. The interior movement of currency

treasury for redemption and the routine operations of the sub-treasury are also yielding a cash gain to the banks. The interior movement of currency also may be expected to be seasonably in favor of New York. The threat of gold exports upon any decline in money rates serves as a balance to the advantage of this prospect.

The Japanese question asserted itself to some extent in the markets again, the effect being more pronounced on Americans in foreign markets than in New York. The published report of the intention to astrengthen the naval forces of the United States in the Pacific was the immediate occasion for the expressed anxiety. Some attention was given to intimations of an early presentation of the Intention to preport on condition of cotton was sufficiently qualified by the action of the cotton market. The disappointing showing of improvement since the preceding monthly report helped to depress some of the cotton carriers, although St. Louis Southwestern was conspicuously strong. United States Steel rose against the early depreceding the coming dividends such as usually circulate on the approach of the united formarket. The disappointing showing of amongst the speculative following by a resort to advertising methods on behalf of the purchase of stocks on the part of a supposed leader in the recent movement. The recurrent depression of the tone of the market was in force at the time of the market was in force at the time of the closing.

Bank of Germany Statement. BERIAIN, July 2.—The weekly statement of the Imperial Bank of Germany shows the following changes: Cash in hand, decrease, 137,020,000 marks; treasury notes, decrease, 2,000,000 marks; other securities, increase, 316,140,000 marks; notes in circulation, increase, 346,860,000 marks.

Treasury Statement. WASHINGTON, July 2.—Today's statement of the treasury balance in the general fund, exclusive of the \$150,000,000 resorve, shows: Available cash balance, \$269,002.552; gold coin and builion, \$72,081,253; gold certificates, \$78,064,450.

Bank Clearings. OMAHA, July 2.—Bank clearings for to-day were \$1.886.697.67, and for the corres-ponding date last year \$3,566,308.41.

Wool Market. BOSTON, July 2.—WOOL.—The local wool market continues active, with increasing receipts and strong prices. Buyers are becoming frequent and, while their operations are not on an extensive scale as yet, there has been a fair volume of small saies. An increased demand for pulled wools of the B grade and below is noticed and there is considerable inquiry for fine deialne to arrive. New England mills are running full at present and good consumption and only a fair supply gives strength to the situation. Prices for new wools of all grades are hardening and the highest quotations of the season have been recorded. In Montana 24c, in Wyoming, 25c, and in Ohio, 35c, show the trend of the prices. Unwashed Ohio and Pennsylvania wools find buyers at 30c, with a few large sales. There have been but few transactions in Michigan and Wisconsin fiecces. The offerings of territory wool are expanding, especially the better class. The foreign wool market is steady, with a limited supply. The leading quotations range as follows: Kentucky, Indiana and Missouri: Three-eighths blood, Miguse; quarter blood, 30g. 30c. Scoured values: Texas, fine, 12 months, 70gFile; fine, 5 to 8 months, 60gSe; fine fall, 57gSec. California: Northern, 50gSec; fine fall, 57gSec. Cregon: Bastern staple, 71gFile; castern clothing, 50gSec; eastern average, 58gFoc; valley No. 1, 50gSec; fine fall, 57gSec. other kinds.

There was a very fair demand for beef steers of desirable quality and the market opened in good season in the morning and, as offerings were so limited, it did not take buyers very long to effect a clearance. In other words, it was a good, active market with prices strong to the believe. other words, it was a good, active mar-ket, with prices strong to 19c higher at least. Among the offerings were some very well finished beeves.

Only a few scattering loads of cows and helfers and a few odds and ends were on sale. The market was without any note-worthy change. The deadlock between commission men and packers still con-tinues.

There were only two or three cars of stockers and feeders in the yards and they brought about the same prices as yesterday. Representative sales:
