CHOICE

It is very seldom that good outside space in a well appointed office building is available. At the present time we have a beautiful suite of two rooms on the fifth floor, with east and south light, a large vauit, which makes this a most desirable space during either summer or winter. Room No. 56 is now vacant and is lixif, with a good-sized vauit; has east light. A new hard-wood floor was recontly put in this room.

Everybody in Omaha knows the location of the Bee building; it is central, close to the city hall and county court house, There are several hundred people who spend more time here than in their homes and any one of them will testify as to the care they receive here.
