CROPS ON BURLINGTON LINE

Reports at Headquarters Show that Grain of All Kinds is in Good Condition.

Although there was no rainfall last week on the Wymore division the soil was in good shape, according to the crop and soil report by the Nebraska division as prepared by the Burlington road. Winter grain ripened very rapidly last week and the harvest has well begun on the Wymore and McCook divisions. The reports on winter wheat were more favorable for last week than any week this spring and summer.

The growing season is over for oats and they are beginning to ripen. Like winter wheat, the most favorable report of the season is that for the week ending July 6. In many places where but half or two-thirds of a crop was expected they are now reporting a fair or average crop.

Corn made excellent progress during the last week. With high temperatures for several days and not much rain the corn crop gained a good portion of what was lost in the early part of the season. The week of dry weather made it possible to thoroughly cultivate and clean out the weeds, so the crop today is in fine condition.

The indications for potatoes are for one of the best crops that this state has yet produced. Sugar beets are in a satisfactory condition. Hay may not exceed more than half a crop in some places on the Wymore division and in some places the pastures are damaged by the dry weather. The ground is not dry enough to prevent growth of vegetation.

During the night of July 6-7 showers were general and in places heavy on Lincoln and Wymore divisions; rainfall at Wilber was three inches and Plattsmouth two inches. In number of other places the rainfall was very heavy.

DAMAGE WROUGHT BY HAIL

Dave Rowden Reports an Effect of Storm in Lancaster and Saunders Counties.

D. C. Rowden, superintendent of the city hall, has returned from a trip over parts of Saunders and Lancaster counties, where he drove for several miles in a buggy Sunday and Monday. A storm of hail and rain swept over the district visited. Damage estimated at least \$100,000 was done, corn and small grain having been beaten into the earth beyond recovery, while weeds along the roadways were demolished and even the trees barked by the hailstones.

"The sight was pitiable," says Mr. Rowden. "Over a tract of ground thirty miles long and nearly eight miles wide practically all vegetation was damaged. The storm was particularly severe on the big Fitzgerald farm, which is now in the hands of several owners. In the 4,000 acres there is not enough standing corn to produce feed for the animals on the place. Uncle Joe Cannon's holdings were severely damaged, and many of his tenants will be compelled to borrow money to pay their rent. Rain fell for two hours and hail for about twenty minutes. Rock creek, near Ashland, was overflowing in a few minutes and water extended from the hills on one side to the hills on the other."

By name Mr. Rowden mentioned farmers who had lost from fifty to 200 acres of corn and from twenty to eighty acres of wheat and oats. Much of the small grain was ready for harvest and the ripened grain is now scattered over the ground.

HIGGINS IN JAIL AND HAPPY

Murderer Thinks It Great Lark that He Went to Prison and Wasn't Hanged.

Loris E. Higgins, the Coppis murderer, is breathing somewhat easier again in his cell at the county jail since his return from Thurston county, where he went Monday for the preliminary examination.

"I can't say I was not afraid," said Higgins Tuesday, "but I was not bothered much. I knew I was in good hands and I had made up my mind if a mob grabbed me not to show the white feather. I knew if they got hold of me there would be no use to resist, and I would have died without a word."

Higgins was rather inclined to be grateful over the outcome of the trip and he laughed at some of the rumors, played by Sheriff Young, to prevent his presence with Higgins becoming known. The Sheriff's party occupied a baggage car which was closed up tight when Bancroft was reached. When they alighted from the train they walked down the track away from the depot and toward the crowd at the depot, had dispersed before taking the carriage. After the preliminary they left town at once, telling some inquirers they were going to West Point and others they were going to Winner. Instead of going to either of these places they went to Beemer, later on the way, and waited there until 2 o'clock, when they took the train. Rumors they were in town spread and a number of people came to the depot to see them. No one recognized the party.

One man who showed more than usual amount of curiosity went through the train and asked the crowd at the depot to talk with Sheriff Young and Higgins and asked them where the murderer was. This incident amused Higgins very much. The party heard rumors while at Beemer that Higgins had been hanged on the way to Winner and the telephone wires cut. This also caused Higgins to laugh.

LOVELAND FOR ANOTHER TERM

First Methodists Will Ask Bishop to Give Present Pastor Assignment to Church.

Members of the official board of the First Methodist church in quarterly conference Monday night adopted a resolution requesting the presiding elder to ask the bishop to assign Rev. Frank L. Loveland to that church for another term at the next meeting of the conference. The resolution was presented by C. A. Goss and unanimously adopted. Dr. Loveland was given a month's vacation to be taken at his convenience.

Financial and other reports showed the church to be in excellent condition and a vote of thanks was given to C. E. Berry, the financial secretary, who leaves to take up work at Baldwin university. It was decided to employ an assistant pastor next year, he to carry on the work of Mr. Berry and in addition to perform such other services as may be performed by an ordained minister.

Officers of the church will be elected at an adjourned meeting to be held in September, at which time annual reports will be presented.

ONE WAY TO REACH LANDLORD

Unsanitary Houses Will Be Notified Sued by City Health Commissioner.

Health Commissioner Connell announces a new method to be pursued in cases where property owners refuse to make necessary repairs to sanitary devices in dwelling houses in order to abate nuisances. One tenant has been given fifteen days in which to abate such a nuisance under penalty of being fined. He has said the matter must be attended to by the owner of the place, and the case will come up for trial in about two weeks. Dr. Connell declares that if the tenant be convicted he will have the house where the nuisance exists nailed up and permit no one to rent the place until the necessary sanitary devices are installed.
