

NEWS OF INTEREST FROM IOWA

CONCOUNCIL BLUFFS

HOT TIME OVER FIRE CHIEF

Mayor Vetoed Resolution Adopted at Last Meeting of Council.

Council Passes It Over Veto, but in the Meantime Several Lively Tiffs Are Indulged In—Peace Comes in Wind-up.

As had been anticipated, Mayor Macrae returned to the city council at its meeting last night the resolution adopted July 7 calling upon Charles M. Nicholson to assume the duties of chief of the fire department and not to interfere with the property of the city or the management of the department without his official signature. Mayor Macrae's communication to the council giving his reasons for vetoing the resolution follows:

I herewith return the resolution passed July 7 instructing the marshal and city attorney to notify Chief Nicholson of the fire department not to interfere with city property, etc. I refuse to sign same after careful consideration, for many reasons, among them the following:

1. The Iowa laws authorize the mayor to appoint a police and fire commission, who shall have power over these departments. See law.
2. In accordance with above law I have by said authority appointed said commission.
3. The names of said commission were reported to and endorsed by your honorable body.
4. District Judge Wheeler having dissolved an injunction which asked the Police and Fire Commission restrained from further action, and whereas said judge decided that it was not in his power to restrain said commission, the court should decide its unconstitutionality.
5. Therefore, I am of the opinion that it has overstepped its rights and privileges in passing the attached resolution. An expression from this body in order, but legal instructions to the city attorney or marshal are absurd and unwarranted.

Councilman Smith moved to pass the resolution over the veto and the mayor refused to put the motion, declaring that the city council had nothing whatsoever to do with the acts of the Fire and Police Commission. Councilman Smith then called for a roll call by the clerk and the resolution was passed by the votes of the republican councilmen. Councilman Maloney refused to vote and Councilman Younkerman promptly followed his lead.

Precedents Warm Debate.

The controversy between the city council and the Fire and Police Commission over the discharge of R. W. Jones from the position of fire chief and the appointment of Charles M. Nicholson by the commission was responsible for a large display of oratorical pyrotechnics on the part of the mayor and a decidedly heated tilt between him and Councilman Wallace, who warmly resented some of the remarks from the chief executive.

The ball was started rolling when Clerk Sapp read the communication from the Fire and Police Commission to the city council announcing that Robert W. Jones had been discharged permanently for cause and that Charles M. Nicholson had been appointed chief of the fire department. Councilman Wallace moved that the communication be referred back to the commission for an explanation as to the causes leading to Jones' discharge. Mayor Macrae refused to put the motion, saying: "It's none of your business what the cause is. I appoint a police commission under the authority vested in me by law, and I am ready to stand back of them in all they do. An insult, which the returning of this communication would be, to the commission is an insult to me."

Councilman Wallace appealed from the chair and after a particular deposition had set the opportunity to remark, "I think it is entirely out of order," Mayor Macrae took the floor again, saying:

"As far as this controversy is concerned I have up to this not taken any part. There has, however, been on the part of certain members of the council a disposition to antagonize the commission from the very start. There has been a narrow-minded, irritating disposition on the part of these councilmen to block all the acts of the commission. The law is explicit. This council has absolutely nothing whatsoever to do with the commission. It may be right and it may be wrong, but it is no matter for the council to interfere in," he declared with considerable warmth, directing his remarks principally to Councilman Wallace.

At this point Councilman Maloney stated that he refused to vote any further in the matter of the Fire and Police Commission and Councilman Younkerman, taking his cue from the councilman from the Second ward, made a similar statement.

Vote Comes at Last.

Councilman Wallace then succeeded in holding the roster for a new moment, during which he asserted that Jones had been booted out of his position without a scintilla of evidence to support the charges brought against him, and he was so ready to reason why the communication should not be referred for an explanation as to the cause leading to Jones' discharge.

"This notice was merely an insult to me as an act of courtesy," interrupted the mayor.

"Yes, the commission has shown a great deal of courtesy to this council. I don't think," remarked Councilman Fleming.

"This motion is a dirty insult to me and to the commission. I know who is back of all this. They are a particular bunch and a man not far from the sheriff's office. They're back of the whole thing," continued the mayor, with increasing warmth as he brought his fist down on his desk to lend emphasis to his words.

After more or less heated discussion a compromise was effected. Councilman Wallace consented to the placing of the communication on file and then moving that the commission be requested to give a fuller explanation of the causes for which Jones was discharged. This motion was lost, as some of the republican councilmen deemed it useless to make the request.

Among the regular business transacted was the appointment of Hart & Tinley to act as counsel for the city in the absence of City Solicitor Kimball, without expense to the city.

Goldson permits were granted to Sol S. Goldstrom at 54 West Broadway, and Martin Mortensen at 129 South Eighth street.

A communication was received from the Commercial club, offering its assistance and co-operation in the efforts being made by the city council to compel the Burlington, Great Western and Illinois Central railroads to place gates at their street cross-

CAPITALIZATION TOO HIGH

Governor Cummins Takes Issue with President Roosevelt.

START ON WORK OF ASSESSMENT

Manufacturers of Stock Food Attack the Iowa Pure Food Law on Ground of Unconstitutionality.

(From a Staff Correspondent.)

DES MOINES, July 9.—(Special Telegram.)—Governor Cummins took issue with President Roosevelt on the valuation of railroads today and intimated that the president's statement at Indianapolis that the railroads are worth what they are capitalized at was largely for the purpose of allaying the fears of the stockholders of the railroads at the president's anti-corporation crusade.

It all came out at the hearing by the executive council to the railroads preparatory to fixing the assessment of the railroad property of Iowa. Mr. Baldwin, for the Burlington, had taken some time in explaining there were reasons not shown in the Burlington report why its assessments were not made on a mileage basis. Governor Cummins explained to him that there were this year two new members of the council and they would be glad to have him go deeper into questions of the valuation of railroads.

Mr. Baldwin demurred, claiming that his opinion on that was of no value.

"But the president has said that the railroads are worth what they are capitalized at," said the governor, "and according to the Interstate Commerce commission's report the capitalization of the railroads is nearly \$4,000,000,000. On that basis, giving Iowa the per cent of mileage entitles it to the railroads in Iowa should be assessed at about \$20,000,000, or about three times as much as this council has been assessing them at. We would be very glad, therefore, if some of the railroad representatives here would go into this question of railroad valuation."

Mr. Baldwin asked the governor if he really thought the president knew what he was talking about. The governor replied in the negative, and said that he thought the railroad representatives present were more competent to speak on the subject as they had posted themselves, and intimated that the president's Indianapolis speech was probably for the purpose of allaying the fears of railroad stockholders with his anti-corporation crusade.

The council made only a beginning in the matter today and the hearings will continue two days yet.

Mr. Baldwin from the Burlington claimed that the report of the Interstate Commerce commission that there is something over \$18,000,000,000 of railroad capital stock was way off. He said it had been figured on this in this report to the extent of \$2,000,000,000 and that there were other mistakes. He said the report would show that the railroads are capitalized at \$60,000,000,000 and he maintained that they were not actually capitalized at \$50,000,000,000.

Governor Cummins said that speaking for himself and for the other members of the council, he had always thought that the railroads were capitalized at much more than they were worth. Mr. Baldwin promised to speak later to the council on the point.

J. C. Davis for the Northwestern, spoke at some length on the question of stock values and also assented to the Interstate Commerce commission report of capitalization. He compared the fluctuation of railroad assessments and land assessments of Iowa and maintained that during the last three years the railroad assessments have gone up 10 per cent, and the land assessments only 8-25 of 1 per cent and that since 1904 railroad assessments have gone up 30 per cent and land assessments only 10 per cent.

Manufacturers Start Fight.

Original notice of suit in the federal court to restrain the enforcement of the pure stock food law was served on H. R. Wright, state food and dairy commissioner, today by a deputy United States marshal here. The hearing will be had in the federal court before Judge Smith McPherson Wednesday. The suit is started by the Sanborn Stock Food company of Omaha. It is claimed that the law is unconstitutional in requiring that the per cent of dilutant be given and also that it interferes with interstate commerce.

Notice of suit to restrain the enforcement of the 3-cent fare law was served on Gov. Cummins today by Attorney General Myers also today. This hearing will be had tomorrow before Judge Smith McPherson.

Wants Prisoner Released.

Tom Bevington of Sioux City is afraid of the Nebraska authorities and wants the help of the supreme court of Iowa in getting a writ of habeas corpus released on bond. The prisoner is one of the four wanted in Nebraska for a bank robbery for which Governor Cummins granted a requisition. Bevington is attorney for the prisoner, and when Judge Mold refused a writ of habeas corpus Bevington appealed. Pending the appeal he asked that his client be released on bond which the Sioux City judge refused. Bevington wants the supreme court to make an order on the ground that the Nebraska authorities are liable any day to drive over to Sioux City in a buggy and legally kidnap the client, with no authority of law or opportunity of recourse on the part of the client.

Commander Appoints Chief.

Department Commander D. J. Palmer of the Iowa Grand Army of the Republic today transferred Adjutant General Newman to the appointment of his staff, as follows:

Department Inspector—J. H. Carl, Muscatine.

Judge Advocate—A. W. Jacques, Fairfield.

Chief Muster Officer—A. J. Cratsenburgh, Decorah.

Patriotic Instructor—Robert Kiesel, Oakholme.

Finance Aide and Chief of Staff—J. J. Kellogg, Washington.

Department Bugler—T. E. Kirkpatrick, Cresona.

The appointment of additional aide-de-camp will be announced later.

Swedish Minister Coming.

Herman L. F. Lagercrantz, minister plenipotentiary to the United States from Sweden, is expected to visit Des Moines as part of the 30th anniversary of this city's centennial. He is traveling through the west, accompanied by his wife, to study the conditions of the laboring men of his nationality in this country. He is now in Minnesota. When he reaches Des Moines he will be given a public entertainment by the Swedes of this city.

Grain Men Arrive.

Grain men of Iowa being arriving in the city today preparatory to the opening of the state convention of the dealers association tomorrow. More than a score were in the city at noon and by the time the evening trains were in there were more than three score.

Pope to Receive Home Woman.

BOONE, Ia., July 9.—(Special Telegram.)—Miss Grace Pearl Moss of Boone, now

touring Europe with a party of Des Moines friends, will be received in audience by the pope on Sunday, July 21, in Rome.

WANTED, TWO CARRIERS TO CARRY THE BEE IN WEST PART OF CITY. CALL AT 11 O'CLOCK, 15 SCOTT ST.

Full line of refrigerators. Peterson & Schoening.

Iowa University's Big Year.

IOWA CITY, Ia., July 9.—(Special Telegram.)—All records at the University of Iowa were broken by the attendance for the year just closed. Registrar Dorcas figures, made public today, show a grand total of 2,027, the largest attendance in the history of the institution. The development of the university, and the vast percentage of increase in attendance the last seven years are accredited largely by Iowans to the executive ability of President George E. Maclean, formerly of Nebraska. In the list of states contributing to the university Minnesota is fourth. Only Iowa, Illinois and South Dakota lead, in the order named.

Bryan Denies Story.

WEBSTER CITY, Ia., July 9.—(Special Telegram.)—In this city today William Jennings Bryan branded as a canard the story that he had ever said Roosevelt was just as good a democrat as he. The colonel was obliged on account of missing a train, to take an automobile forty miles to Iowa Falls to fill a chautauque date. The roads were hub deep with mud.

COMPLAINT ON CREAM RATE

Interstate Commerce Commission Appealed to by the Big Creameries.

(From a Staff Correspondent.)

WASHINGTON, July 9.—(Special Telegram.)—The Interstate Commerce commission today received a complaint from the Beatrice Creamery company, an Iowa and Nebraska corporation, the Blue Valley Creamery, a Missouri corporation, and the Blue Valley Creamery company, an Iowa corporation, against the Illinois Central, Rock Island, Great Western, Burlington, Northwestern and Milwaukee railroads regarding the cream rate.

The Beatrice Creamery company was originally organized under the laws of Iowa, but in 1905 succeeded to and acquired the business of the corporation of the same name under the laws of Nebraska. The principal office of the Nebraska corporation is at Alton, Ill. The principal churning plants of the Beatrice Creamery company are located at Omaha, Beatrice and Hastings, Neb., Des Moines, Denver, Cheyenne and many other points in nearby states.

These creamery establishments purchase cream from all contiguous territory, which is churned into butter by thousands of pounds annually. They combined apparently and assert upon promises of certain rates by the various railroads mentioned opened a plant in Chicago, expending many thousands of dollars to put it into operation. It is alleged that the railroads went back upon their original tariff agreement with the creamery people and they now appeal to the Interstate Commerce Commission to adjust matters.

Upon the recommendation of Congressman Parker, a board of pension examining surgeons, consisting of Drs. J. M. Walsh, C. J. Lavery and J. W. Dilsey, has been established at Fort Pierre, S. D.

Roy W. Pegenbush has been appointed regular and Earl Persinger substitute rural carriers for route 2 at Whiting, Ia.

Bureau route 3 has been ordered established September 3 at Alton, Ill., county, Iowa, serving 430 people and eighty-seven families.

Carl M. Cornell has been appointed postmaster at Ludlow, Butte county, South Dakota, vice O. M. Clark, resigned.

Good leather never sold so cheap. Shoes for men, women and children in the Norris store at 65c, 50c, 35c and \$1.35. Benson & Thorne, 1337 Douglas.

MORE ARRESTS IN COLORADO

Seven Additional Men Charged with Coal and Timber Land Frauds.

DENVER, July 9.—It was announced today that seven more Colorado men had been arrested by Deputy United States Marshals Frank and Clark for coal and timber frauds as a result of indictments of the late federal grand jury.

They are James A. Coppinger of Durango, James S. Hatcher of Pagosa Springs, Edna M. Hampton of Pagosa Springs, Ephraim K. Caldwell of Pagosa Springs, Edolphus M. Taylor of Pagosa Springs, Robert E. Sloan of Pagosa Springs and William Morrison of Durango.

SCALY ERUPTIONS COVERED HIS BODY

After Three Boxes of CUTICURA OINTMENT

"When I was about nine years old small sores appeared on each of my lower limbs. I scratched them with a brick and they began to flow. A few days afterwards both of those limbs were covered with scaly eruptions. I could scarcely walk. When I had been suffering for eight months a doctor's advice was sought and a small scaly eruption appeared on my face. From that time onward I was troubled by severe itching that, until I became acquainted to it, I would scratch the sores until I bled. It was not until I was five months old that I was able to walk. I used other remedies, such as iodine, sulphur, zinc salve, but they did me no good. I made a renewed effort to effect a cure. The eruptions by this time had appeared on every part of my body except my face and hands. The best doctor in my native county advised me to use arsenic in small doses and a salve. I then used to bathe in a warm water solution which gave almost intolerable pain. In addition I used other remedies, such as iodine, sulphur, zinc salve, but they did me no good. I made a renewed effort to effect a cure. The eruptions by this time had appeared on every part of my body except my face and hands. The best doctor in my native county advised me to use arsenic in small doses and a salve. I then used to bathe in a warm water solution which gave almost intolerable pain. In addition I used other remedies, such as iodine, sulphur, zinc salve, but they did me no good. I made a renewed effort to effect a cure.
