LOCAL BULLS DUMPING WHEAT For Time Wheat Showed Sign of Rally, but it Did Not Develop—Corn Showed Weakness.

OMAHA, July 9, 1907. Market generally weaker this morning. After early firmness prices faded away on weaker cables and weakness in northwest markets. Local bulls show signs of discouragement and dump wheat on all breaks. Thrashing reports from Missouri not running so good.

Wheat showed signs of a rally at opening, but it did not develop. A bearish government report and weak cables, prices slumped and market showed little of the firmness which was seen yesterday. September option opened at 85 1/2 and closed at 85 1/2.

Corn was weak, wheat and a general rush to sell at opening, owing to cables and favorable weather. Some buying yesterday rallied the market somewhat yesterday's close. September corn opened at 49 1/2 and closed at 49 1/2.

Cats were selling by commission houses and considerable green bay reports from Wisconsin and the northwest were crowd backed away from all offerings and the trade was light. September oats opened at 38 1/2 and closed at 38 1/2.

Clearances were 2,500 bushels of corn, 4,000 bushels of oats, and wheat and flour equal to 12,000 bushels.

Liverpool closed 1/4 cent lower on wheat and 1/2 cent lower on corn.

Chicago Grain and Provisions Features of the Trading and Closing Prices on Board of Trade.

The market opened weak because of a decline of more than 1d at Liverpool, said to be the result of a bearish report and the continued favorable weather in this country.

Chicago reported receipts of 391 cars, against 381 last week and 384 a year ago.

The corn market was steady, but the market was not strong because of the September delivery closing at a net gain of 1/2 cent.

NEW YORK STOCKS AND BONDS

Indications of Reactionary Tendency in Market is Marked.

NEW YORK, July 9.—The reactionary tendency became rather marked in today's stock market, although there was some show of resistance to the decline and efforts to support were evident at some points.

The principal ground for the reaction was the banking position, which is the cause for some anxiety, based on the fact that the banks are generally short, although the rates charged for money today showed no symptoms of a coming advance.

The market was generally lower, with a few exceptions, and the volume of business was not so good as yesterday.
