Both the direct and cross-examination of Boxton was concluded within the day Other witnesses called were Homer S. King of the Bank of California, a director of the Pacific States Telephone and Telegraph company, and Henry Scott and Frank U. Drum, respectively, president and director of that corporation.

On the cross-examination of Mayor Boxton Attorney Delmas begun laying the foundation to show that Boxton is a perjurer and therefore his testimony against Glass in having accepted a bribe from Halsey of the telephone company is not worthy of belief.

The examination of King was to prove that Louis Glass was the only official who had authority to sign checks or O. K. disbursements without authorization by the board of directors.

The examination was to determine that after the storm broke Glass shipped Halsey at 7 o'clock Wednesday morning instead of 8 o'clock in the evening. The plan proves a good one for hot weather.

The Secret of the Christian Success; at 8 p. m., "Something." Men's prayer meeting at 10:10. Men's Bible class at noon. Sunday school at 3. Christian Endeavor rolls of the San Francisco company as at 7. company of which Glass is president and rolls of the San Francisco company as pension. All that Scott would testify to was that Halsey did go to Manila, and that he (Scott) put him on the payrolls as stated, though Halsey "was no longer an active employe."

"This is one of the cases where such formality can and will be overruled. The strike will be against both the Western Union and the Postal companies, though the main grievance is against the Western Union. President Clowry of the Western Union, notwithstanding his statements from time to time, has shown no inclination to live up to these pledges he gave in his letter to United States Commissioner of Labor Neill. The situation is getting worse instead of bet-
