Delay Flareback Was Cause of Explo-

ston on Board Battleship

Georgia.

WASHINGTON, July 19 .- A telegram re-

noon from Admiral Thomas, commanding

the second division of the Atlantic flect,

gives the conclusions of the board of ex-

amination which caused the investigation

of the cause of the explosion on the bat-

tleship Georgis. The board finds that the

charge of powder was ignited by a delay

flareback, which was apparently caused

by the shutting of the air blast too soon,

with a light wind blowing into the mussle

of the gun. The first section of the charge

in the second leader's arms was first

Telegraph Operators Accept Terms Offered by Companies.

WILL RETURN TO WORK AT ONCE Differences Are to Be Submitted to Arbitration.

STATEMENT BY WESTERN UNION 28 29 30 31 @ P T

It Says the Company Did Not Make Any Concession.

CLOWRY DISCUSSES SITUATION

Me Says All Efficient Men Will Be Reinstated on Their Personal Application at Former Terms.

OAKLAND, Cal., July 19.-At a meeting held in Oakland today the telegraphers' union voted unanimously to accept the terms of settlement proposed by the Western Union and Postal Telegraph companies. According to the terms of compromise the telegraphers will return to work and then the telegraph companies will receive a committee of arbitration to discuss and settle matters affecting the telegraphers.

SAN FRANCISCO, July 19 .- Superintendent Storer of the Postal Telegraph company and Manager O'Brien of the Western Union declared today that their companies had made no agreement with the operators in regard to an increase of wages. The men will be taken back on precisely the same terms that applied when the strike was called.

Statement by Clowry. NEW YORK, July 19 .- Colonel Robert C. Clewry, president and general manager of Western Union Telegraph company, this afternoon issued the following:

"The differences between the Western Union Telegraph company and its former employes at San Francisco and Oakland have been settled. On June 21 a portion of the Western Union operators at San Franciseo and Oakland quit work without notice. About one-third of the force remained on duty and eleven of those who quit were reinstated on their individual applications at their former compensation. Additions were 1 "tly made to the force from and, except for a short period, f the company has been moved The company will reinstate all kill Frau Molitor. reliable and efficient operators who left the service on their individual applications and at the salaries paid when they quit work."

BOARD HOLDS UP FRANCHISE Commissioners to Act on Sey July 31.

After listening for two hours to arguments for and against the proposition, the county board yesterday afternoon postponed action on the granting of a franchise to Shimer & Chase for a street railway to Beymour park until July 31, when it will be taken up again. The meeting yesterday resuited in some mutual concessions, which but sympathize with certain individuals the rank of patrolmen. Similar sweeping may lead to an agreement on the terms o the franchise.

The principal debate was as to the method o flasuring the road would be built if the franchise were granted. Some of the memhers of the board feared the franchise might be used for speculative purposes or to keep some other syndicate from construcing a street railway along this road, John C. Wharton, who said he represented large commercial interests in the city, asked that Shimer & Chase be required to put up a bond to construct the road within a certain time. James H. Adams said this would shortage later. not be feasable, but he proposed to include a provision to the effect that if any other person asked for a franchise over the same road and would put up a bond to build within a reasonable time, Shimer & Chase, in order to hold the franchise, should be required to put up as large a bond.

After Mr. Wharton had finished speaking Mr. Adams demanded to know who he represented. In reply Mr. Wharton demanded to know the names of the men who were lending financial backing to the plan to develop Seymour park. None of the information demanded was given. At the suggestion of Mr. Kennard a provision will probably be added to the franchise requiring the op erators of the road to permit other roads to use its tracks for a resonable compensation. Mr. Kennard also spoke in favor of a twenty-five-year franchise insteady of a fifty-year term. This, however, was not satisfactory to Shimer & Chase. W. I. Klerstead again appeared and spoke against granting the franchises unless a bond was given that the road would be built and the about 200 members participating. During county road along which it runs properly protected. In his address Mr. Adams hinted of racing contests and at 6 o'clock supper at a city of from 50,000 to 75,000 inhabitants was served, after which the park's attracat Seymour park, but he said the road tions were patronized. The following were would not be a paying proposition for a the winners in the racing contests: Heleh Spencer; boys' creeping race, Ra
Flynn; girls' creeping race, Levine Bon
worth; boys' blindfold race, Levine Rosen

race, Edith Rooney; mixed race for married
women, Mrs. G. Miller; boys' obstacle race,
Albert Larson; girls' race, May Buckamp;
base ball contest for boys. number of years. He said it was not intended as a money-making proposition in itself, but was merely subsidiery to the development of Beymour park.

PRIVATE 'PHONES FOR COUNTY

Commissioners Thinking of Having Independent Switchboard at Court House.

The county board is considering putting a private telephone exchange in the court house to connect all of the offices with a central switcoboard and with the Bell telephone system. Guy H. Pratt of the Nebraska Telephone company appeared before the board yesterday afternoon and submitted a proposition by which the system could be installed at a cost not to exceed the amount the county is now paying for telephones. The system would nclude the 'phones in the county store, the county attorney's office and the jail, which are outside the court house.

The county is now paying \$72.40 for the fifteen telephones incolved in the proposed change. The company would install the system with provision for twenty-one instruments for \$35 a month, leaving \$37.50 a month out of which the operator could be employed. Mr. Pratt promised to supply a trained operator for \$80 a month. The advantages of the sytem would be to provide a central station to answer all calls and to connect inquirers with the offices they want, doing away with the confusion resulting for the calling of the wrong offices and providing greater effi-

the proposition under advisement. Louisville Secure Convention. ST. JOSEPH. Mo., July 19.—Louisville secured the next blennial convention of the Retail Clerks International Protective as-

MaGills to Clinton. BAN FRANCISCO, July 19 .- A special from Sacramento to the Bulletin says: Governor Gillette today issued papers of requisition for Fred and Fay MaGill, now confined in the county jail at San Diego of poisoning MaGill's first wife. The papers charge that the woman was polsoned with strychnine, alleged to have been placed in a glass of beer by the defendants.

Freight Agent Caught Under Engine. KEMMERER, Wyo., July 19 .- (Special.)-Caught under an engine which had left the rails and rolled down a steep embankment, and scalded to death by escaping steam was the fate of R. B. Donough, traveling freight agent of the Oregon Short Line and one of the best known railroad men in the west.

Donough and Archibald Lake of Salt Lake City, with the engine crew of the switch engine, were riding from Kemmerer to North Kemmerer, where a car of wool was to be loaded, when the engine, from some unknown cause, became derailed and rolled down the side of the grade. Donough was pinned beneath the engine and the steam escaping through a pipe that burst killed him before he could be released. A wrecking train was rushed to the scene and the big engine lifted from the

Street Railway Tracks Washed Out-Excessive Loss Results from High Water-Missonri

Higher.

children had taken refuge in the basement. wind lifted the house bodlly from the foun-Scores of houses were washed from their foundations in the city by the rain which was broken. Sewers could not carry off the water and raging torrents flowed through the outlying parts of the city. Adam Zihowsky attempted to wade one of these torrents. He was swept from his feet and carried towards the Missouri river, two blocks distant. He caught a telephone pole and clung there twenty minutes until rescued by a party of men with ropes. In Brookdale, a low-lying suburb, a score of families were driven from their homes by water which reached the windows on the first floor. A dozon residences were struck by lightning, but no fatalities are reported. The home of Fred Shomaker, where a funeral party was caught by the storm was struck by lightning twice and several persons stunned. Reports from farming sections east of the city say crops were levelled in the path of the storm and the loss will be heavy.

Missouri Higher at Kansas City. KANSAS CITY, July 19.-Further heavy rains north of here last night caused the Missouri river at Kansas City to rise a little higher and as a result the cellers in two dozen wholesale houses in the west bottoms were partially flooded this morning. Stocks had been removed to places of safety and the damage in this direction was slight. Truck gardens at Quindaro, on the outskirts of Kansas City, Kan., along the Missouri river have been flooded, causing damage estimated at \$30,000, and several truck farmers with their families are moving to higher ground. The stage of the Missour this morning was 23 feet, and with the additional volume of water above here. Weather Observer Connor said today that the river probably would rise gradually until comorrow night. If there are no further rains in the west and northwest for several days the Missouri will still be low enough to take care of flood waters without danger of a serious overflow, Mr. Connor says. The Kaw is rising slowly also.
