## STUDYING UP ASSESSMENTS

Looking Into Differences in Valuations on Same Class of Property.

LIABLE TO MAKE MANY CHANGES

Populists and Democrats Propose to Make a Test of Ruling of Attorney General on the Primary Law.

(From a Staff Correspondent.) LINCOLN, July 20 .- (Special.)-The State Board of Equalization is going into the matter of assessment, probably more thoroughly than any board has ever done. The resolve to do this is the result of an apapparent gradual falling off or a fatlure to keep up with the vigorous values of 1904. Members of the board fear there is a disposition on the part of assessors and equalof the old revenue law, when about as week. much property escaped taxation as was taxed. While it is impossible for the board to secure the individual schedules in all cases, a few will be sent for and examined. Another matter that is going to occupy the attention of the board is the different values placed on the same item of property by counties which are in the same territory. Members of the board numerous in other counties, which brings down the average value. A few blooded average, while the absence of blooded stock may make the other county's stock seem valued too low. In one county bleycles have been assessed at 45 cents each, while in the adjoining county bicycles are assessed at \$6 each. Board members say there may be some excuse for this, but they don't know just what the excuse is, As it will be impossible for the board to have all the assessors come in and explain these things, a number of individual assessments will be sent for and these used as Comparisons will be made of counties in the various groups. The board will meet again Monday morning. Test of Primary Law.

The candidacy of John L. Sundean of Wahoo for regent of the state university will be the basis of a suit to test the opinion of the attorney general holding fusion could not be permitted under the state primary law. Sundean filed his name today with the secretary of state to go on the populist ticket as a candidate. Immediately thereafter T. S. Allen and twenty-five other democrats filed a petition that he also be placed on the democratic ticket. Secretary of State Junkin refused to place the name on both tickets, and application will be made to the supreme court Monday for a mandamus to compel the secretary to do so, Judge Sedgwick or Barnes will hear

Graphophone for Commissioners. The State Railway commission is now about in shape to do something, having thus today equipped its office with a new graphophone. Not the kind that saws the air with southern melodies as sung by a chorus, but one of those which absorbs things that are said, to be ground out later at the instance of the commissioners. Today the stenographer to the commisstoner, who took the testimony in the case where the citizens of Lincoln are trying to get six street car fares for 25 cents, is reading her notes into the thing, and at her leisure she will have her own voice tossed back at her, when she will put the stuff on the typewriter. Or if the transcript is not needed until the present stenographer has outlived her usefulness. some other person may listen to her voice and do the transcribing. A member of the Rosebud Reservation, headed by an aged are hard to read after they have been in car hearing will probably occupy several cents it will have to ge through the same of Valentine. performance. And yet the time of tha commission will be taken up for at least solid week, by which time it likely will be too late to get out a grain rate in time One of the largest land deals in the histo help the farmers.

The anti-pass law provides that employes of railroads entitled to passes must be employed for the greater portion of their time. The commission has the names of all the passholders. It is considering now bringing in several of the attorneys and asking them if they are employed for the greater portion of their time and if they devote the greater portion of their time to looking after railroad business. Then they will ask the attorney what he does. It is not at all unlikely that an order to this effect will be issued shortly. Just at this time the commission has not figured part of it is under construction. out how to proceed to get the lawyers and doctors on the carpet, but by the first of the week a plan will be adopted. Giltner Charges Discrimination. GILTNER, Neb., July 20.-(Special.)-Citiens of Giltner have organized the Giltner commercial club. The first matter taken up by the club after organizing, was the fact that there is a discrimination between Giltner and Harvard in the matter of prices paid for grain. The freight rate from Harvard to Omaha is a cent more per 100 on is generally known that Harvard has been allowed to pay 1 to 4 cents more a bushel than the buyers in Giltner, and as a consequence a great deal of trade is lost by this town every year for this reason.
