OMAHA LIVE STOCK MARKET | sheep of any consequence today, the market, as usual on a Saturday, being practically have of fresh supplies. The receipts for the wek have shown a considerable gain over the previous week, but

lambs, principally from Idano and Wyoming.

During the greater part of the week sheep
constituted the big bulk of the receipts.
Fortunately, there was a very fair demand
for that kind and the trade during the
first half of the week was in a good healthy
condition. On Monday prices were, if anything, a little stronger. After that steady
prices were maintained until Friday, when
there was a break of 10025c.

Lambs during the first half of the week
were in very light supply and sold at fully
steady prices from day to day until Friday,
when they, too, broke badly, the market
on that day being 25046c lower than the
previous wek.

The cause for the sharp decline in both
sheep and lambs is to be found in the fact
that while prices at this point were well
maintained, eastern markets declined until
this market was considerably out of line.
After the decline prices here are still very
satisfactory as compared with eastern
markets.
