CHOICE OFFICES

It is very seldom that good outside space in a well appointed office building is available. At the present time we have a beautiful suite of two rooms on the fifth floor, with east and south light, a large yault, which makes this a most desirable space during either summer or winter.

Room No. 546 is now vacant and is laxis, with a good-sized vault; has east light. A new hard-wood floor was recently put in this room.

trength and desirable kinds are pullose to 50c higher than the low time d days ago. Grass cows as usual this season of the year, have been weak and the feeling is that with more liberal receipts of rangers, the market on that kind is liable to sell off most any day. As has been the case with beef steers, the trade in cows and heifers has been very satisfactory all the week, the buying demand being active and the trade in a good healthy condition from day to day.

OMAHA LIVE STOCK MARKET sheep of any consequence today, the market, as usual on a Saturday, being practically bare of fresh supplies. The receipts for the Week, over the previous week, but are still considerably short of the record made a year ago. The arrivals have considerable gain over the previous week, but are still considerably short of the record made a year ago. The arrivals have considerable and with the previous week, but are still considerably short of the record made a year ago. The arrivals have considerable and with the previous week, but are still considerably short of the record made a year ago. The arrivals have considered in Better Condition.

During the greater part of the week sheep constituted the big bulk of the receipts. Fortunately, there was a very fair demand for that kind and the trade during the first half of the week was in a good healthy condition. On Monday prices were, if anything, a little stronger. After that steady prices were maintained until Friday, when there was a break of 10000c.

Lambs during the first half of the week were in very light supply and sold at fully steady prices from day to day until Friday, when they too, broke badly, the market on that day being 25040c lower than the previous wek.

The cause for the sharp decline in both sheep and lambs is to be found in the fact that while prices at this point were well maintefined, easiern markets declined until this market was considerably out of line. After the decline prices here are still very satisfactory as compared with easiern markets.
