

THE OMAHA DAILY BEE

FOUNDED BY EDWARD ROSEWATER. VICTOR ROSEWATER, EDITOR. Entered at Omaha postoffice as second-class matter.

TERMS OF SUBSCRIPTION. Daily Bee (without Sunday), one year, \$4.00. Daily Bee and Sunday, one year, \$5.00.

DELIVERED BY CARRIER. Daily Bee (including Sunday), per week, 7c. Daily Bee (without Sunday), per week, 5c.

STATIONERS AND PRINTERS. Omaha—The Bee Building. South Omaha—City Hall Building.

REMITTANCES. Remit by draft, express or postal order. Remit to The Bee Publishing Company.

Table with 3 columns: Circulation, Date, and Amount. Includes sub-totals for net total and daily average.

CHAS. E. ROSEWATER, General Manager. M. B. HUNGATE, Notary Public.

WHEN OUT OF TOWN. Subscribers leaving the city temporarily should have The Bee mailed to them.

Platinum is up to \$2.69 an ounce. Almost as expensive as anthracite.

In the trial at Boise the jury is being punished severely, no matter what may be the fate of the defendant.

"Anxious Reader" is informed that Henry James' new novel, "The Prevaricators," is not based on the trial at Boise.

The emperor of Korea wants it understood that he abdicated voluntarily. He would rather abdicate any day than be fired.

Senator Foraker is outspoken against tariff revision. The senator's voice and vote are always with the againsts.

A microscope that magnifies 16,000 times has been invented. It might be tried on the Senator Bailey presidential boom.

Mabelle Gilman Corey denies the report that she is to star in "The Merry Widow." She has not yet selected her style of divorce.

In enumerating his troubles the de-throned emperor of Corea will naturally place Marquis Ito's name near the head of the list.

Governor Johnson of Minnesota says his presidential boom is not worrying him. The governor is too big to be worried by trifles.

"Mr. Bryan's executive ability has never been demonstrated," says John Temple Graves. True, but that is not Mr. Bryan's fault.

The democratic nominee for governor of Oklahoma is an Ohio man. No office has ever succeeded in losing the Ohio man on its trail.

It is plain that public sentiment in favor of a new court house is growing. It is also plain that public sentiment opposes any change of location.

President Ingalls of the Big Four says the railroads support 20,000,000 persons. Yes, and the railroads are supported by 80,000,000 people.

White and Brown are candidates for the democratic nomination for governor of Maryland. The color line is always an issue in Maryland politics.

Colonel Watterston's dark horse may as well understand right now that, so far as Mr. Bryan and the other candidates are concerned, he will not do.

Now that the scare has subsided, the Navy department admits that it has not been definitely decided to send a squadron of battleships to the Pacific.

The report that Senator Lodge and Senator Crane of Massachusetts have quarreled is clearly a mistake. They do not even speak to each other and, therefore, cannot quarrel.

The customs officials who recently ruled that frog legs were poultry have declared that the Canadian geese is not a bird. Philadelphia, on the other hand, has decided that the elks are birds.

Notwithstanding the new direct primary law, the local democratic bosses propose to patch up a slate for a county ticket according to the same old form and leave the rank and file no choice but to put the democratic label on it at the primary.

WHICH OR WHO? A recent issue of the Lincoln Journal asks the question, "Why not direct primary nominations of presidential candidates?"

THE JOURNAL SHOULD MAKE IT PLAIN whether its animadversions have any local application to Nebraska and whether its idea is to fence out one or both of the Nebraska senators from going to the front as president makers.

THE SUCCESS OF ARBITRATION. A striking report comes from the anthracite region of Pennsylvania, showing the remarkably satisfactory results of the system of arbitration of disputes between the coal operators and the miners.

THE COAL MINES OF THE PENNSYLVANIA region have been a source of countless conflicts between employers and employees, these difficulties culminating in the strike of 1902, which threatened to become a national calamity.

THE EMPEROR OF KOREA wants it understood that he abdicated voluntarily. He would rather abdicate any day than be fired.

SENATOR FORAKER is outspoken against tariff revision. The senator's voice and vote are always with the againsts.

A MICROSCOPE that magnifies 16,000 times has been invented. It might be tried on the Senator Bailey presidential boom.

MABELLE GILMAN COREY denies the report that she is to star in "The Merry Widow." She has not yet selected her style of divorce.

IN ENUMERATING his troubles the de-throned emperor of Corea will naturally place Marquis Ito's name near the head of the list.

THE REDUCTION of rates to a point where they will yield only a reasonable return upon the real value of the road is a part of the federal rate law.

THE NATION is on the down grade, with economic and ethical bankruptcy in sight and nothing can be done to prevent the catastrophe unless ear is given to and action taken upon the warnings issued by Dr. Charles J. Bushnell.

THE NEW YORK legislature has passed a law prohibiting any candidate for governor of that state from spending more than \$10,000 for his political campaign.

WITH THE JAPANESE war and the telegraph strike ended, and the trial at Boise about concluded, the Central American revolution and the Dahlgren-Jacksonian democratic feud are about all that is left to command the attention of the war correspondents.

THE GREATEST advantage of the coming circumnavigation of South America will be to ascertain how many battleships and armored cruisers are sufficiently seaworthy to make such a voyage.

THE FUTURE of the city, although it has been deferred from time to time for one reason and another, it might be deferred again, but that would not be a final settlement, because it would be brought back again in a few years at most, when conditions might make it still more costly and expensive.

THE FOUNDERS of Omaha laid out the townsite with a view to its expansion to the north, fully convinced that would be the direction population movement would take.

THE FUTURE of the city, although it has been deferred from time to time for one reason and another, it might be deferred again, but that would not be a final settlement, because it would be brought back again in a few years at most, when conditions might make it still more costly and expensive.

ARMY GOSSIP IN WASHINGTON. Current Events Gleaned from the Army and Navy Register. The War department has given its approval to the request received from certain citizens of St. Joseph, Mo., who desire a representation of the military body in the military tournament which it is proposed to hold in that city during the last week in September.

THE EXAMINATIONS for filling the vacancies in the junior grade in the army medical department will begin at various army posts throughout the country on July 23. There were until recently twenty-four candidates who had expressed a desire to be examined, but two of these have withdrawn from the competition.

THE IOWA State College of Agriculture and Mechanical Arts is desirous of receiving from the government the usual arms and ordnance material, the issue of which is authorized by law. There is, however, no army officer on duty at that institution as professor of military science and tactics and it is understood the college authorities do not desire the detail of an army officer to act in that capacity.

THE PRESIDENT will probably send a special message to congress early in the session approving of a general bill which will provide for an increase in service pay, both of the commissioned personnel and the enlisted force. It is altogether too early to predict the character of the general message.

REVERING THE OLD SAW. Money makes the mare go and the auto makes the mobby go. Value Call for Royalty. King Oscar wants his hundreds of wandering Swedes in America to come home. Why? Let echo answer.

SWELLING TIME for Kernels. Every day this weather continues makes amends for the early summer's bad effect upon the corn crop. It does not increase the acreage, of course, but it swells the size of the ears and kernels.

REGISTERATION OF THE ELECT. This should be a memorable summer for the United States of America. The registration of the social elect of the nation shows that in 1907 the number of voters considered worthy of mention by our home-made college of heraldry. And of this select band never before or at least never since the days of the pilgrims when European trips were slow and costly—have so many spent the summer in their own country.

SENATORIAL LINE-UP IN IOWA. Shall Primary Vote by Districts or Whole State Govern. They are having a dispute in Iowa as to whether members of the legislature in voting for a United States senator shall be guided by the primary vote in their several districts or by the vote in the state at large.

PERSONAL NOTES. One member of the Finnish Diet allows her husband and family 12 cents daily out of her pay of more than \$25 a month. A Miss Czateianikow and a Mr. Frinchinowky were married in Connecticut a few days ago. Well, that will help to simplify matters a little.

PERIODS OF PAIN. While no woman is entirely free from periodic suffering, it does not seem to be the plan of nature that women should suffer so severely. Irregularities and pain are positive evidence that something is wrong which should be set right or it will lead to serious derangement of the feminine organism.

MISS ADELAIDE NICHOLS. that period of its terrors. Women who are troubled with painful or irregular functions should take immediate action to ward off the serious consequences and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound.

MAYOR "JIM" IN THE WEST. Reminiscence Write-Up of Omaha's Mayor on His Travels. Tall onks from little across grow, and James C. Dahlgren is one of them.

SUPPOSED TO BE FUNNY. Somebody had remarked that the rat was coming down in sheets. Distinct thunder rolled in melody.

THEN AND NOW. He sat on his steps at midnight. As the clocks were striking the hour, and he watched the red moon. With a mournful cloud.

TO CONTRADICT certain talk and to put the consuming public in possession of the truth, we say in plain words that no one in this town can sell as good coffee as Arbuckles' Ariosa for as little money.

Misbranded and make-believe Mocha and Java, or coffee sold loose out of a bag or a bin, is not as good value for the money, nor can it be sold at as narrow profit, nor reach the consumer under as favorable conditions.

When you buy Arbuckles' Ariosa Coffee you get more than 16 net ozs. of straight, wholesome Brazilian coffee from the largest coffee firm in the world, with that firm's direct assurance that they are giving you the best coffee in the world for the money.
