Men's Belts

In Tan, Black and Gray. Values up to \$1.25, Sat-day 25¢

The Close of the Buyers' Sale

Notwithstanding very irritating weather conditions, our second Euvers' and Managers' Sale has been a most pronounced success. .Coming so soon after our great July Clearance Sales, which lasted for two weeks, we have much satisfaction-after three weeks of special effort-in having to our credit the three greatest between-season sales weeks ever enjoyed by any

great store in the west. Much of this is due-the final week's effort at least, is wholly due-to our employes. We thank them thus publicly for their loyalty and enthusiasm, and we congratulate them on their achievements. Each and every one of them, by the exhibition of these qualities, more than compensates the management for the gratuity of a half holiday each week to each of our clerks.

CLOSING SALES DAY-SATURDAY- WILL BE RIFE WITH EX-TRAORDINARY OPPORTUNITIES FOR MONEY-SAVING. WHERE THIS AD SAYS "ONE-THIRD, ONE-HALF, TEN, FIFTEEN, TWENTY OR TWEN-TY-FIVE PER CENT OFF USUAL PRICES," YOU MAY BANK ON THE ABSOLUTE ACCURACY OF SUCH DECLARATIONS.

ATTEND THE FINAL ROUND UP OF THE BUYERS' SALE SATURDAY.

Buyers' Sale in Hoslery, Underwear, Handkerchiefs and Gloves

The markets from which these gigantic stocks are drawn have been erratic for months. Had it not been for our immense purchases of last fall-purchases sufficient to cover spring, summer and next fall needs-it would be impossible for us to make these prices.

These figures may be common enough around, but these qualities at these prices are uncommonly great.

Secrets of Some of the Thrillers Pulled Off on the Vaudeville Stage.

MAKING MOVING PICTURES

HOW THE SCENES ARE MADE UP

Inside Views of a Factory Equipped with Theatrical Realism-Modern Wonders of the Camers and the Cost.

to the moving picture factory, or the vitalaters of some of its keenness.

factory have to serve many purposes, from something.

prairies. In the small yard of the factory disadvantage of lacking conversation, it dreary, fagged, old, white horse; a pig rooted near a pile of lumber and within used in recent moving pictures.

Like a Theatrical Performance. The moving picture story or play is made much after the fashion of any other story or play. Plota are sometimes original; oldand new stories from books or newspapers. are often taken, but always the play is written out in detail for the benefit of the actors and it is rehearsed before it is presented to the camera, which is an audience A ride on the Brighton Beach train to so critical that every part must be just Greenfield stattion, Long Island, brings one right to suit it. Frequently dialogue is introduced into these picture plays, so that graph factory in more dressed-up language. the actors may understand just what gess place as full of mystery and interest as tures to make use of and to get the right the workshop of a magician. The moving spirit. For the moving pictures regular picture man was at home when the visitor actors are engaged, and usually first-class led the other day, very busy in his actors, because they must understand how workshop and inclined to frown and look to express an emotion or a happening peratmoyed at an interruption, but he soon feetly with gestures and action. The actor resigned himself with a show of grace to must understand the trick thoroughly. the inevitable and revealed some of the however, or he is no good for this purpose. secrets of the pictures that keep us The actor who is too reposeful on the stage thrilled and wondering when we have a and expresses his meaning and feeling dash of them at the close of a vaudeville merely by the tones of his voice or in program. There were some things that the subtle movements is utterly worthless for moving picture man would not reveal, but the moving picture. Sometimes the actor merely skimmed over with wise node of the who has risen no higher than to strub head and vague hints, because he believes parts or the chorus can be made good use

too great a knowledge might cob the spec- of for the moving picture because of his great proneness to gesture and motion. In the moving picture factory is as varied | The actors have to rehearse under the a collection of costumes and properties and eye of the director and must understand scenery as a big theatrical company carries | their parts well before the camera is set and scene painters are constantly at work to work. They must crowd quick, fast making new canvasses for the pictured action into a short space of time, so that dramas. The scrubby woods about the every click of the crank will count for

on the day of the visit was drooping a has the advantage over the real play of when the picture was taken over again is to move, for instance, the knife, is being able to crowd a great many pictured events into a small space of time. the studio of the factory were two white For instance, in a play where, for lack doves perched on the rim of a painted of time, many happenings have to be canvas boat. All these were properties described only in conversation, the camera in the plays that are introduced, the mov- Gradually little by little the knife is plecan picture those events and make them ing picture man has to be on the keen tured approaching the bread and finally apworked over for a moving picture and for his purpose. Though some of the joined together and moved at the enormou in its new form is called "Retribution," It shows actually in pictures a murder and duced, there are very few scenes for effect is of the knife moving itself in some how it was planned, where on the stage that event, the consequences of Which ferred to in the first act as having hap- trick of focusing whereby a small excapened fifteen years before. The murder of winter when the murdered man was driving homeward from an inn in the drama where such rugged-looking scenes The woods near the moving picture factory last winter were utilized for whole thingwas acted out, a dummy ligure being struck with the ax of the murderer. Some things can be faked in the were usually the results of the painter's moving picture, but never action. That must be genuine.

When the actors in moving picture nearby woods to be pictured for the various scenes, there is usually an accomsanging string of small hoys and curiosity seekers who follow in their train and Sometimes the onlookers beof the camera and mar the reality. Octo it, however. One day recently a fight between two men was under way for a

it happened, the plate was not good and nothing could induce the dog to repeat his part of the performance

Scenery Essential. A well-known play was watch for localities that can be adapted pears cutting it. When the pictures are wildest of western scenery is often introwhich some bit within a few miles of the mysterious way. It takes a whole day city cannot be found and utilized. The sometimes to work out one of these picform the basis of the play, is merely re- man behind the camera knows many a tures that is shown in a few seconds. vation can be made to look like a deep, scene took place in the woods in the dead treacherous gorge, and a slight hill like were in reality excavations for houses on the outskirts of Brooklyn within a few tracks who just escape the second before he will not be there. this on a snowy day last winter, and the yards of the trolley line, and the steep mountain side was rocks in the park. The buts and interiors and unusual scenes brush and are merely of canvas.

plains the scenes of an automobile running train to that point is cut out and the efdramas set forth from the factory to the up to a house and climbing right over the fect is greatly intensified. One day retop is that the picture is taken with the cently the cables from abroad told of a nachine really approaching the cottage tragic instance where two men were bound mind, think of this matter seriously for Then the front of the house is painted on to the track, posing for moving pictures, a moment. canvas and laid flat on the ground. The sometimes interfere with the taking of the automobile goes over the painted house over and killed. That made a picture ing around at the rate of a thousand miles while the man with the camera takes the hideously real, no doubt, but there is per hour. That is, his feet are going at me so absorbed in the drama that is picture from above. That picture is joined surely no audience that would be willing that rate, but his head goes a triffe faster. going on that they stray within the focus | right on to the other where the automobile | to see it. is approaching the cottage and the effect casionally they add a note of naturalness is of the machine climbing over the house, and expense attached to the making of motion, would by reason of inertia, fly off Fixing the Thrills.

POPULAR GAME FOR FAME Hunting the Pole Has Amused Many Energetic Gentlemen in the

Past.

Hunting the pole is a good game, and has amused many energetic but unscientific gentlemen, and several rich but ignorant as if the equator had stopped moving syndicates. No one has ever yet won The logical result of this would be that the game, and no one ever will; because

win is a physical impossibility. The truth of the matter is that reaching But since at the pole there is no east or the pole is a paradox; a contradiction of west, the scientific consequence would be terms. For when a man reaches the pole that the man standing on the pole would

As we know, the earth is whirling around on its axis at the rate of a thousand with the world. miles per hour, which is a fairly rapid recognition of this fact proves how illogi-

cal is the idea of reaching the pole.

A man standing on the equator is mov-If the globe suddenly stopped revolv-

the spectators thought it wonderful. Now ually, but that wouldn't matter much to the man. As is well known, the motion of tude recede from the equator; at the arctic circle the surface of the globe creeps languidly, and at the pole itself there is no

motion whatever. It is not difficult then for a rational mind to grasp the situation. Were a man, who, at the equator, has contracted the habit of continuously moving through space at the thousand-mile-an-hour rate, suddenly transported to the stationary pole, the sensation would be precisely the same inertia would cause the man to move in the direction opposite to customary route. spin around like a top, with a motion the reverse of his previous movement around

This is not theory, but incontrovertible fact, and the only uncertainty is whether the man spinning round somewhat faster than an electric fan, would necessarily bore a hole in the earth, and disappear that way, or be shot off the earth, still Even though you are not of a scientific spinning. In view of these self-evident and inevitable conclusions, it does seem strange that presumably scientific men should strive to attain the unattainable Indeed we are forced to the conclusion that the polar expeditions are fakes, and are merely excursions for the recreation, glory, or other emolument of the so-called

> Another conclusion forced upon us is the probability that many explorers who are looked upon as lost, in reality reached the pole, and suffered the consequences --Uncle Remus' Magazine.
