

GRAIN AND PRODUCE MARKET

Bears Refuse to Get Scared at Unfavorable Conditions.

RUST REPORTS CONTINUE TO COME

Trade in Wheat, Which Opens Steady, is Divided and Commission Houses Take All the Offerings.

OMAHA, July 31, 1907. In spite of continued reports from the northwest and the present outlook on the wheat crop, indications from the northwest, which are considered to be similar both in yield and acreage, the crowd was inclined to the bear side and prices slipped.

Wheat opened steady with the crowd inclined to the bear side. Trade was divided and commission houses bought all offerings. September wheat opened at 84c and closed at 84c.

Primary wheat receipts were 10,000 bu. and shipments 10,000 bu. against receipts last year of 1,000 bu. and shipments of 1,000 bu.

Local corn receipts were moderate and shipments are expected to continue fairly. Demand for corn was fair.

Local range of options: Wheat—July, 84c; Sept., 84c; Dec., 84c. Corn—July, 47c; Sept., 47c; Dec., 47c.

Chicago Grain and Provisions: Wheat—July, 84c; Sept., 84c; Dec., 84c. Corn—July, 47c; Sept., 47c; Dec., 47c.

Features of the Trading and Closing Prices on Board of Trade: CHICAGO, July 30.—The local wheat market, after displaying some weakness today because of favorable weather reports from this country, closed steady on covering by shorts.

1st MORTGAGE 5% Gold Semi-Annual Interest and DIVIDEND PARTICIPATING BONDS OF THE General Electric Power Company of California \$1,000,000 To be Offered for Public Subscription FROM THE COMPANY DIRECT TO INVESTORS AT 96 Per Cent.

This Saving to the Company and the Bondholders at Profits Usually Allowed to Underwriters. The General Electric Power Company of California was incorporated under the laws of the State of California, September 1905.

The bonds are a first charge upon all property now owned or hereafter acquired. They are issued to provide working capital for construction, additions and improvements, made and to be made upon the Company's properties in the State of California.

The bonds of the General Electric Power Company of California are secured by a FIRST MORTGAGE on all lands, water rights, plant, terminals, transmission lines, retaining and storage dams, canal, dimes, pipe lines, standard gauge high tension railway and its equipment, rails, freight yards, ferry systems, docks and wharves and property of whatsoever kind now owned or which may hereafter be acquired by the Company.

Electrication of Railways: Central California is preparing to follow the East in the electrification of railway lines, covering hundreds of miles of tracks. Immense construction of interurban lines are in progress, others projected; aggregating 500 miles, all of which require large amounts of power.

It is expected that the General Electric Power Company will be delivering its entire output of power in two years, at which time the railroad will also be in operation. The railroad will also be in operation at an average selling price of 40¢ per H. P. per year, and which is 25¢ less than it can be produced in California by using the cheapest fuel (crude oil), gives:
