OYSTER BAY, N. Y., July 31 .- Radical reforms in the territorial government of New Mexico are to be inaugurated upon rival in Santa Fe of Governor George Curry, who has just returned for om the Philippines to assume that office. President Roosevelt conferred with Governor Curry for two hours today and sent him on his way thoroughly imbued with the necessity of ruling with an fron hand until the alleged tangle of intrigue and graft in New Mexico had been straightened

"Clean government is what the p antdent wants," said Governor Curry, on lieaving Oyster Bay, and that is what I shall do my best to establish."

Conferences on the situation in ritories were continued at Sagamore Hill after the departure of Governor Curry, as Chief Justice Kent of Arizona and Federal Judge B. S. Rodey of Porte formerly delegate in congress from New Mexico, were luncheon guests of the pres-

Judge Rodey told the president that the tax valuation in New Mexico has been outrageously juggled by the railroad and mining interests. He claims that the value of one mine is equal to the tax assessment for the whole territory and that the actual valuation of the railroads in the territory more than doubles the entire tax valuation of all the territory.

Judge Kent, whose friendship wi president dates back to their college days, said his visit was entirely of a social character.

Cleaning Out in Store. On leaving Sagamore Hill, Governor Curry said he had gone over the New Mexico situation in a general way with the president. He will spend one day in Washington and then proceed to San's Fe. "You know," he remarked, "I have always been a democrat, but I am a Ptoosevelt man, and next to that a Taft man. The president wants me to take hour of he administration in New Mexico with but one object in view-cleaning out. There will be some changes in the offices of the territory, but this cannot be annotinced at present, The appointments I shall make will be solely with a view to getting good metals. Wherever I can get a from the republican party I shall take them, but shall not be confined to that

in making appointments. "The political factional wrangle in the territory has grown to be very scute and the president has honored me with the appointment as governor, a place I was not at all anxious to take, evidently because I had been out of the territory for the last eight years and am entirely free from such alliances."

Iowa Railroad Commission Will Compel Steam Roads and Interprbans to Confer.

(From a Staff Correspondent.) DES MOINES, July 31 .- (Special.)-An order was issued by the Iowa Railroad commorrow. This is declared as breaking the mission to the effect that steam roads must strike. The reply of the steel corporation make joint rates with interurbans after to the striking ore dockmen was delivered August 1, when the joint freight rate schedule goes into effect. The order was issued in the case of the Boone Brick, Tile and Paving company against the Newton re-employ all old men before accepting any & Northwestern.

The Newton & Northwestern is an interurban, owning the line from Ames to the State Agricultural college grounds. The brick company ships brick from Boone to switching charge from Ames to the coltion has decided to begin operations at its; lege. The Chicago & Northwestern, over which the brick was shipped to Ames, was really back of the deal. The interurban maintained that it was entitled to the minimum charge for a shipment.

The railroad commission took the ground that if it allowed the charge to be a switchwhatever because of the strike. This is ing charge the steam roads all over the considered fair to the men in view of the state would make switches of the interurbans. It therefore ruled with the integurban that it was entitled to the minimum shipping charge, the distance being about that it entered into an agreement with the two miles. After August 1 the rate must be a joint rate of 80 per cent of the locals. The order of the commission, it is believed, will result in the Chicago & North-The company expects and believes that a western building a switching spur to the college grounds, the tracks of the road already going through the college farm.

The more we discover about Rameses the more convinced we are that he was a fraud. He was not great in any way, but his vanity was colossal. To satisfy this he conceived the notion of causing his name to be inscribed on every temple, statue and monument that he imagined would stand the test of time. The plan succeeded only too well for many years. In consequence of it explorers united in deciding that he must have been a great king. Now we are beginning to find him out.

SENTENCES EXPIRE OCTOBER 5

Kirkman Was Convicted of Unbecoming Conduct and Given Sentences of Two and One Years for Separate Offenses.

TOPEKA, Kan., July 31 .- Judge Smith McPherson of the United States district court for the southern district of lows filed an opinion here today with the clerk of the federal court denying an application for a writ of habeas corpus made by George W. Kirkman, ex-captain of the United States army, now serving three years in the federal prison at Leavenworth, Kan. The decision is important as bearing upon the matter of time off allowed military prisoners for good behavior. It is Kirkman's second rebuff in an effort to secure

release. Captain George W. Kirkman was convicted by court-martial at Fort Niebrara, Neb., on two separate charges. Under one he was sentenced to imprisonment for two years and the other for one year. Both orders were approved by President Roosevelt June 15, 1906. The wording of the judgments failed to state whether they should be construed or considered as cumulative or consecutively and at the expiration of the two years' term, less credits for good conduct, Kirkman applied to the federal court to be discharged on a writ of habeas corpus, his contention being that the two judgments were cumulative. The ments of military courts should be con-Amos R. Rumbaugh, who shot himself strued as consecutive. Kirkman appealed

ORDERED TO REPAIR TRACK act of grace and mercy, with or without condition, relieve the offender and give him a legal statue as though he had never violated the laws. And it is conceded that the president may grant pardons to a class of persons without naming them, as illustrated by the case of E parte Garland, 4 Wallace 333, and as was done in numerous cases following the civil war by amesty proclamations, and as have been done by like proclamations with reference to polygamists.

Regulations Not Pardons.

But it cannot be said that the army reg-ulations allowing abatements of time for good conduct are in the nature of pardons. The president and he alone can pardon and the fact that he is materially aided by the Department of Justice, including a pardon-ing cierk, does not in any way limit the Department of Justice, including a pardoning clerk, does not in any way limit the prerogatives of the president under the constitution. The president can and does remit to others the duties of investigation and making reports as to pardons, but such persons cannot issue the pardon. Under the army regulations, as has been seen, the abatement of the sentence is by the commander or warden of the prison, and with which the president has nothing to do. Therefore, it was and is entirely competent for congress by enactment to provide what abatement the prisoners may have for good conduct, and such legislation is not infringing upon the powers of the president to grant pardon nor upon his prerogatives as commander-in-chief of the armies.

The statute of June 21, 1902, provides what

the armies.

The statute of June 21, 1902, provides what abatements shall be sllowed. And, as I understand the record, the warden is observing the same and will most cheerfully give the credits as that statute provides. And as that statute was in force when the judgments were pronounced, and as the computation under that statute will make the sentences expire by limitation October 5 next the writ must be discharged and the prisoner remanded.

Story of Kirkman's Offense. Captain Kirkman was first tried in March, 1905, by a court-martial in Fort

Niobrara. Neb., and was convicted of conduct unbecoming an officer and a gentleman. He was sentenced to Gismissal from the army and to serve a sentence of two years in the federal penitentiary. In April, 1905, he was tried again on a similar am indicted my story will first be told charge, found guilty, sentenced to dismis-It sal from the army and to serve an additional year in the penitentiary.

The second charge against Kirkman recited his career for the two years previous and bore particularly upon the alleged relationship ending in the suicide, last winter, in Omaha of Mrs. Chandler, wife of Lieutenant Chandler of Captain Kirkman's own company, the Twenty-fifth United Nebraska gathered here today in a state States infantry. "Breach of arrest" charges were filed because of Kirkman leaving the post while under arrest and going to Valentine, Neb., where, it was charged, he met Mrs. Chandler, who killed
