Lincoln, Aug. 2.—(Special.)—A rumor has reached Lincoln that, owing to the dillikory tactics of the State Railway commission, agents of the various express companies of the various express content of the various express companies of the various express content of the various express companies of the various express content of the various express content of the various express content of the various exp

Attorney General Thompson, "but I have rect. received no infimation that this is contemplated, and such proceedings will not be started with the sanction of this office. We shall keep faith with the federal court and will not attempt to impose the penalty clause of the law hatil its constitutionality is settled. We have adopted this course because we believe it the best course. If the law is held to be valid then officials or employes of express companies can be prosecuted and punished. We have eighteen the company are the following of Omaha: months' time to prosecute from the time the act is committed, so if the law is valid the guilty parties can be prosecuted after the law is held valid just as well as now. Should we arrest some employe who is Lincoln, twenty shares. The report says acting under orders and then the law is held invalid, we just cause a lot of trouble and do no good. The question of the constitutionality of the law has to be tested some time, and it may just as well be done

On the day the law went into effect the

attorney general filed a petition in the state supreme court asking for a restraining order to prevent the express companies from disobeying its provisions. The supreme court took no action on the petition and within a few days the express companies transferred the case to the Lincoln branch of the federal court and at the same time filed a petition in the Omaba federal court for an injunction against the state authorities from enforcing the law. Upon the statement of the commission and the attorney general that they did not intend to enforce the law at thise time, but to test its constitutionality, Judge W. H. Munger denied the application of the express comwould, there can be no prosecutions. In talk of census padding: the meantime no suit has been brought to test the legality of the act making the penalty for committing burglary with explosives not less than twenty years or for life dsonment. This law was enacted at Fren the same time the Stbley law was passed. Answer in Cream Case.

The big creamery companies of the state today filed their answer to the petition of the Western Freight association asking the State Railway commission to increase the various towns. rates on cream. The creamery men aver that the Western Traffic association is not m carrier, a railroad or an association entitled to maintain an action in sidering the services rendered, the rates more than \$1,000,000 in their business and present: to increase the rates, they say, would be to ruin them financially by destroying their business. They claim for the commission to accede to the demands of the traffic association would ruin the dairy interests in the state. The following signed the aFrmers Co-operative Creamery and Supply company, Fairmont Creamery company, Omaha Cold Storage company. David Cole, Kirschbaum & Son, Beatrice Creamery company, Ravenna Creamery company, Golden Rod, and Fountanelle. The hearing on the petition is set for Aug-

A Thing of Life-William Wilson, mayor and postmaster general of Glen Rock, has learned to his sorrow that a phonograph will not only talk and sing, but the blamed thing will bite. While trying to induce the little animal to sing a new song he was seized by the wrist, but with considerable effort he succeeded in freeing himself, but was badly torn to pieces and a moment later he would have been ground into plantation melodies or second hand campaign speeches. When Will learned that the animal would bite he boxed it up and shipped it back to the factory .- Auburn Granger.

Nature Fake-Fremont telephone managers are grappling with a problem which, at this time, is a vexatious one to say the least. Squirrels are addicted to the habit of gnawing through the metal covering the cable wires, thus letting in air and water and crippling the service. Manager Wilson of the Independent company, has samples of the leaden metal showing the holes which have played the mischief. Of course, no one has caught the squirrels at it. Indeed, some have expressed the opinion that woodpeckers instead of squirrels are the miscreants. But it is shown that woodpeckers never find pecking worth while unless worms or other morsels abound. while squirrels, it is said, for the mere fun of the thing been known to eat through soft metal on several occasions. Government Dismisses Strike Leaders and Promises to Consider Grievances Properly Presented.

BELFAST, Aug. 2.-Having secured the presence in Belfast of a strong military force capable of dealing with any possible development in the police strike, the government has dismissed the leaders of the strike movement and promised through the lord lieutenant, the earl of Aberdeen, to take under consideration any genuine grievances presented through the proper channels. This prompt action on the part of the authorities, it is believed by many, will avert what at one time appeared to be a dangerous situation. Additional troops reached the city tonight, but everything remains quiet.

It is quite impossible to predict what will happen at the parade of the disaffected police tomorrow, but the belief is general that there is much difference of opinion between the constabulary over the advisability of proceeding to extreme measures. The authorities, however, will neglect no precautions in disposing the military forces tomorrow to meet any possible emergency.

A peremptory message was dispatched to Arklow today ordering that all available members of the constabulary in County Wicklow should be sent immediately to Belfast. The message caused a sensation among the Arklow constables, who declared their determination to stay by their Belfast comrades.

REMOVES

When the blood becomes infected with unhealthy humors the effect is shown on the skin in the form of pimples, rashes, eruptions, or some other type of skin disease, 'These humors circulating in the blood, come in contact with the delicate tissues and fibres of the skin and produce irritation and inflammation, and often excessive itching and burning. Trying to cure skin troubles with external applications is treating the effect instead of the cause. Such treatment perhaps allays some of the itching and discomfort, but does not reach the blood where the real source of troubles lies. A thorough cleansing of the blood is the only cure for humors in the blood. S. S. S., a gentle acting, safe blood purifier, is the proper treatment. It goes down into the circulation and neutralizes the humors and removes them from the blood. S. S. S. supplies the blood with the fresh, healthy properties necessary to sustain the skin and keep it free from disease. S. S. S. cures Eczema, Tetter, Acne, Salt Rheum, pimples, boils, rashes, and all other skin affections and diseases, because it purifies the blood and removes the humors which are responsible for the trouble.
