Washington Authorities Are Inspecting the Packing Houses.

BANK WAITING ON BUILDING

Eagles Are Making Great Preparations for Their Pienie Which is to Be Held Sunday at Sarpy Mills.

Fr. A E. Bahnke, Dr. I. C. Mattatall and Chief Architect Perks of the Department of Inspection in the bureau of antmal industry have been in South Omaha since last Tuesday, making a close examination of the various packing houses with a view to making the inspection bet-Dr. Bahnke is assistant chief of the department, He, with the others, came here from Chicago. They have visited in detail each of the packing houses and will have a large volume of matter for report They expect to finish today. As far as can be gathered the object of the visit is to make way for a more rigid inspection of all departments. It is possible that some extensive reforms will be required in some of the packing houses still. Within the last year all of the South Omaha packing institutions have been cleaning. remodeling and repairing with the object of meeting the demands of the sanitary regulations. Explicit instructions will probably follow the report of the present commission to the head of the department.

Bank Waits on Building. L. M. Lord, the banker of Glenwood In., who is interested in the new Live Stock National bank in this city, was here yesterday for the purpose of attending the suit of a writ of ouster served on John Riches to compel him to vacate the preniises wanted by the bank. Mr. Lord says he will be ready for the organization as soon as the building is vacated to him and the necessary fixtures are put in. The promoters of the bank are very enthusiastic both as to the location and as to the opening for a new bank on that

Furniture Men Busy.

About forty representatives of various furniture houses were in South Omaha yesterday securing the requisitions of the various officials of the city for the necessary outfitting for the new city hall building. With this information at hand the companies will submit bids for the furniture. It is expected that the furniture will cost the city about \$6,500. This sum includes the vault fixtures, the mill work and the special articles of equip-

Y. M. C. A. Only Resting.

The local Young Men's Christian association is figuring on reopening the campaign for the new building as soon as the weather cools, along about September 1 Efforts will be made to secure the services of William J. Bryan, and it is hoped that he may be able to come to South Omaha to create some interest in the movement H. B. Fleharty, the city attorney, has written Mr. Bryan a letter to that effect. Meicher Buys Property.

C. A. Melcher closed the purchase of the Rudersdorf block yesterday morning. The price was \$10,500. The property is situated at 418 North Twenty-fourth street. It has heen used for a pool hall for the last fif-teen years. Mr. Melcher will remodel the building and open a new drug business The property has a twenty-foot front on enty-fourth street. There is a two-story time building on the property. handersdorf will retire for a time, but he expects to open a business in South Omaha again Mr. Melcher recently sold his store at Twenty-fourth and N streets to the Schaefer Drug company. He received Sarpy Mills. More elaborate plans than \$10,000 for the store and rights to the build-It is said that his reason for selling

was that he was unable to renew the lease

on terms which were satisfactory to him.

He had no desire to retire from the busi-

Mrs. Brass Dies.

Dess.

Mrs. Minnie Coatsworth Brass, 506 North Thirteenth street, died yesterday morning after an illness of several weeks. Tw weeks or more ago she was so low that her life was despaired of, but she held on until yesterday morning. Her friends are mostly in Omaha, where she was raised. She was connected there with the Young Women's Christian association work for many years. She was married to H. T. Brass. June 7, 1906. Since her marriage she has lived in South Omaha. Mr. Brass has been manager of the Western Casket company. She is survived by her husband her father and mother, two brothers and a sister, who live in Omaha. The funeral service will be private and will be held Monday at 10 a. m., with burial at Forest Lawn. None but immediate friends will be present. Sunday afternoon the house will be open for all friends of the family who wish to pay their respects to the dead. The visitors will be received from 2 to 8

Farewell Party.

A farewell dancing party and luncheon was given to Mr. and Mrs. S. B. Christie and C. O. Nelson and wife, who will leave soon for the west to make their homes, by members of the Lotus club and their friends at the South Omaha Country club Thursday night, when a pleasant time was

Of Interest To Comen.

To such women as are not seriously out of health but who have exacting duties to perform either in the way of house-hold cares or in social duties and functions which seriously tax their strength, as well as to sursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nervine. By its timely use, much serious sickness and suffering may be serious sickness and suffering may be avoided. The operating table and the surgeons' knife, would, it is believed. seldom have to be en ployed if this most to in good time. The "Favorite Prescrip-"has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are juite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF ENOWN COMPOSIrion, a full list of all its ingredients being printed, in plain English, on every bottlewrapper. An examination of this list of ients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined giveerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's poculiar weaknesses and allments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the allments for which "Favorite Prescription" is recommended. A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo N. Y.

Jobbing Business in Fall and Winter Goods is Active.

GENERALLY FACTORIES

Commodity Prices that Were Inflated by Speculation Are Lower-Collections Somewhat leregalar.

NEW YORK, Aug. 18.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: Jobbing trade in fail and winter goods at the leading cities is lively, country merchanis being in large attendance and operating freely, as a rule. Retail sales of seasonable merchandise are liberal, although at some points customan midsummer quiet is noted. While payments are somewhat irregular, mercantile collections show distinct improvement on the whole. A few labor disputes are pending, but there is little interruption in the leading industries, most manufacturing points working full time and holding orders that promise centinued activity. Commodity prices are lower practically in all cases where speculative inflation existed, favorable weather having greatly improved crop prospects. NEW YORK, Aug. 10 .- R. G. Dun & Co.'s

flation existed, favorable weather having greatly improved crop prospects.

New business in the iron and steel industry is light and some quotations of pixinon are lower, but wire and wire products have become firmer and many steel mills are sold wall into next year. Steel rails are in better demand, a liberal tonnege of new contracts appearing this week and material is sought by carshops and shipyards. A few additional orders for cotton ties have come forward, but most of the season's recutrements were purchased some time and

come forward, but most of the season's re-culrements were purchased some time ago and are now being delivered.

Textile mills are well occupied, except where the strike has interrupted the silk industry in Pennsylvania. The cetton goods situation is featureless, as might be ex-pected after the extensive purchases of the months and the process of assim-

inst few months and the process of assimilation is in order.

Another general reduction is prices of hides makes a severe fall from the recent high level, but large receipts of range cattle have added to the weakness of the statistical position. Stocks in all leading markets are so burdensome that concessions are readily made in order to effect sales. During the last week alone some grades have weakened over half a cent. The decline in fereign dry hides was checked by increased interest on the part of small tanners, but large producers insist on further concessions. Trade in leather improves steadily, but is still somewhat below expectations. No large individual sales are recorded, but numerous small transactions make up a fair aggregate. Prices are firm because curtailed production offsets the light demand, no large stocks having so-cumulated in any position. Beltine butts are neglected and harness leather is easy. Jobbers recently in the footwear market have not yet forwarded orders of size and wholesale buying is restricted to current requirements. The delay is evidently due to anticination of better terms, but few concessions are secured. Local jobbing trade is satisfactory for the season, some city retailers providing for fall needs.

BRADSTREET'S REVIEW OF TRADE

ross-Currents in Developments Render Generalization Difficult. NEW YORK, Aug. 16 .- Bradstreet's tomorrow will say:

ever are being worked out and the comwill be an example hard to excell for any

Wheat, including flour, exports from the United States and Canada for the week ending Avenust 8 aggregated 3.272.9% bu., against 2.729.838 bu last week, 2.262.901 bu, this week last year and 8.831,796 bu, in 1991. For the first six weeks of the fiscal year, the exports are 15.983.791 bu. against 12.100.271 bu, in 1906-07 and 36,284,784 bu, in 1901-02. teams. There is great rivalry between the Corn exports for the week are 1.107.431 bu. sgainst 1.608.121 bu. last week and 1.092.638 bu. in 1906. For the fiscal year to date the exports are 9,679.22 bu., sgainet 4,578,337 bu. in 1908-07.

M. W. A. picnic at Bennington, Thursday, August 15. 90c round trip.

..... Creighton Marin Chambers FUEL FROM COAL WASTE results. Schaeffer Hongland Y. Houck Kelly House Kennedy New and Cheaper Method of Makipig Briquets Successfully Used in Wales.

Vice Censul A. S. Phillips of Cardiff, in a Carl Sporwin, 2015 Polk street, reported Labor, furnishes the following particulars of the family physician. of a new method of producing patent fuel from coal:

The manufacture of patent fuel is an important industry in South Wales, espe-Josephine Hannigan, infant daughter of James Hannigan, died yesterday morning. The funeral will be this afternoon at 120 o'clock. The burial is to be in A. Mary's cemetery. The home is at Thirty-ninth of cially at the leading seaport towns-Cardiff, Swansea, Newport, etc. Large quantitles are exported every week from these greatly on the increase. The old method Miss Ola Barreit, who has just finish de visit of three weeks in Chicago, has feof making the fuel into briquets was the blending of fine particles of small coal with about 8 or 10 per cent of pitch un-J. F. Kelum was arrested yesterday, sus sected of being a deserter from the United the trade seems very encouraging.

Paul Horkerholp on med \$5 and coats or assault and battery, yesterday morning dayor Hoctor remitted the fine. Considerable interest has been developed in the Hurst league lately organized in South Omaha. An effort will be made to get 300 members. Secretary G. A. Young is occupying the Methodist parsonage in the absence of Rev. H. H. Millard and wife, who are spending the summer in Colorado. John Giosakopoulos, a Greek, who died at the South Omaha hospital Tuerday, will be given burial Sunday at 2:30 p. in from St. Martin's church. The Pan-Helienic so-city will have charge.

the fuel works. fect as possible; this affords a binder unequaled for the purpose. The less quantity of the binder and consequent greater compression the less chanco of expansion in the briquet under the climatic conditions to which this class of fuel is always subject.

An important gain of the new process will be the distillation of tar from various oils. In the case of bituminous and semi-bituminous coals the heating process takes sufficient of the gases away to render the fuel practically smokeless. Arrangements are being made to erect a imprisonment. He appealed from this very large works at Cardiff, and also in the various coal producing districts. The new product has been suplied on trial for some time to several heat-consuming When you have anything to buy or sell concerns with emmently satisfactory readvertise it in The Bee Want Ad columns | sults.

The Bee Want Ads Are the Best Business | As a railroad fuel, especially for run-

ning express trains, it is considered by far the best of all fuels now in the market, taking efficiency and economy into the account. It is claimed that the new fuel is superior to that made by the old method from every point of consideration emitting less smoke, being less brittie, and, block for block, showing greater tensile strength. Placing it on the same level in the matter of quality, the gain in manufacture, altogether apart from the utilisation of by-products, the new fuel can be made at 59 cents per ton cheaper than fuel made under the old conditions.

TREATING CHOLERA MORBUS Effective Home Remedies Recom! mended to Promptly Allay

the Disorder. Dr. Kate Lindsay in the Housekeeper for August recommends the following home treatment for cholera morbus: While the symptoms are so very alarming, there is no disorder that yields more promptly to proper treatment. The patients are usually young and strong and able to take vigorous treatment. The first thing to do is: Stop the chill by a warm bath, hot back or hot leg bath and hot water drinking and hot enemas; give a dose of castor oil or a dose of salts, if they can be retained long enough to act; free the allmentary canal from fermenting food as soon as possible In most cases the vomiting and purging due to the disease will accomplish this, but in some cases there will be severe cramps and intense pain without throwing up the fermenting food. In such cases an emetic of tepid water will often relax the spasm and enable the stomach to throw off its load of spoiled food and toxing. The surface is always cold, and as all the blood of the body is tending toward the alimentary canal, measures must be taken to relieve the cramping of the muscles and spasms of the skin blood vessels, and warm the surface by drawing the blood flow to the vessels of the skin. Brisk, vigorous, dry rubbing, especially of the extremities, and a short, hot bath, followed by a cold towel rub and then dry friction. These measures should be kept up until the surface warm. If ice is at hand the cramping the body, which will not yield either rubbing or heat, often will relax if the body is rubbed first with towels wrung out ! very hot water and then quickly with toe The application of heat should not last more than five minutes, and of cold, not more than one minute, or even half a minute; but they may be alternated for ten, fifteen or twenty minutes at a time until the surface shows redness and the cramping is relieved. The pain in the abdomen is often intense, and the best means for treating it are hot fomentations er a hot body pack. In some cases an ice bag alternated with the hot cloths will be more effectual. The use of mustard in the fomentation of water or aprinkling a few drops of turpentine on the het cloths often renders them more effective. Sometimes the only thing that will give complete re-

NEW YORK. Aug. 16.—Bradstreet's tomorrow will say:

Cross currents in crop and trade developments render generalization difficult. Dispatches to Bradstreet's point to further
favorable progress by leading crops—notably, corn, cotton and spring wheat, but
excepting cats, reports from which are not
favorable. Ideal weather is reported for
corn, except in parts of the southwest,
where advices from the spring wheat section are better than for some time, and
hot weather benefits cotton. Winter wheat
yields are also better than earlier indicated, but oats are turning out short ast
light. In the southwest, northwest and
at large eastern centers sentiment as to fall
trade has been helped by these developments and fall buying is becoming more
noticeable, as country merchants are comfing in increasing numbers. In some of the
large industries, however, there is quieter
trade in some branches, with prices easing.
Thus pigiron and some finished lines are
reported lower on the week. Reports to
Bradstreet's show less activity in current
building. Demand for shees, leather and
lumber is of a mid-summer character, and
Rendstreet's price index number shows a
deron of 1 ner cent for July. In textile

This at 16:30. should be strained and fed in teaspoonfuls at first. Beaten white of egg is also often well borne by the stomach and is very nutritious. Then soft poached eggs, soft cream toast and strained blackberry and other mild fruit juices, adding one article of food to each meal until the patient is able to digest a moderate-sized plain meal of healthful food. There is no disorder in which prompt treatment gives better

In the country, where medical aid is often not easily obtained promptly, the mother who knows what to do for the boy ill with cholera morbus from eating green apples may have him free from eport to the Department of Commerce and pain and asleep before the tardy arrival

> FINED FOR WOUNDING GHOST German Disbeliever in the Supernatural Had No Business to

Doubt. BERLIN, Aug. 10 .- (Special.) - A curious ports, and the demand for this product is point has been raised in an appeal just decided by the criminal court of Meiningen. A watchman named Koenig, whose the summit of a tower in the Thuringian Adams). In the evening a chorus of thirty der steam heat, and subjecting it to great town of Wasungen, had noticed for some compression. Now a revolution in the time past that on the stroke of midnight, manufacture is at hand, and the future of at the turn of the year, a flickering light appeared in the churchyard below. On Patent rights for the new method have last December 31 he wagered with a crony been secured in every country producing named Bach twenty quarts of beer that coal and manufacturing briquets. The basis if he would mount that night to the place of the new manufacture is a combing ion of vigil he would behold a ghost. With plant, which admits of the use of tar in- a fine sense for actualities Bach came atend of pitch, which heat supplies largely to the rendezvous armed with a revolver by means of furnace gases instead of and a sword and accompanied by two sissteam. The price of tar is about \$5.70 per ters and a friend. Sure enough, at the ton, against pitch at \$8.52 per ton, while first stroke of midnight, a spectral light only 5 per cent of tar is used against 9 per emerged out of the darkness. The women cent of pitch. The use of pitch involves fied terror-stricken, but Bach with a cry great inbor in handling, being a solid when of "All good spirits praise the Lord." disnot under manufacture, while tar, being charged his revolver at the apparition and always liquid, can be pumped or piped prac- then charged down the churchyard about tically automatically all the way from the 100 yards distant, brandishing his sword. gas works to the point of manufacture in Discerning a figure in the darkness, he shouted, "Are you a spirit or a person? As tar runs thinner than pitch, it coats If you are a human being answer!" Repractically every particle of coal, the ceiving no response he said about him mixing arrangements being as nearly per- with his blade. A couple of slashes with the weapon induced the ghost to declare himself as one Bernhard Gunkel, who, in accordance with an old superstition, had made it a practice to gather in the church yard as the New Year came in a few branches of a certain kind of buckthera which, plucked in such circumstances, has the reputation of being an infallible specific for most of the maladies of both man and beast.

The sequel to the encounter was that Bach was prosecuted for wounding the ghost and was sentenced to six months' judgment on the ground that he had really attacked a spectre and that it was an accident that he had struck a man, but the Meiningen judges evidently held that ghostly apporitions were entitled to protection against violence and confirmed the

Something Better in a Piano

In asking every prospective piano buyer to do us the honor of making a visit of inspection to our warerooms, we do not wish to belittle, in the least, pianos sold elsewhere; but we earnestly believe, and prove every day, we offer you something better. Our pianos are the select instruments of America. In the course of our many years' experience, we have gradually selected the choicest lines, culled out, as it were, the agencies we cared for. We represent the greatest and best factories in the world. Only in our mammoth salesrooms can be found: The standard piano of the world,

the Steinway; the artistic A. B. Chase; the Royal Hardman; the old reliable Emerson; the celebrated Steger & Sons; the famous McPhail; the high grade Kurtzman; and other world renowned makes. Owning and operating five large stores give us exceptional advantages. We have stores at Omaha, South Omaha, Lincoln, Sioux City and Council Bluffs, besides a score of smaller agencies. We mention these facts merely to emphasize the point that we are in position to save a great deal of money in piano buying. We contract for carloads at a time and get discounts that equal the ordinary dealer's profit; consequently, we can sell you a better piano at a lower price than any other house. Remember this: We are the only house that can afford to sell high grade pianos on \$5 monthly payments. New pianos in upright cases, \$165, \$185, \$225, \$300 up to \$700. Used pianos, \$50, \$75, \$120 and upwards. We tune, repair and move

Schmoller & Mueller Piano Co.

1311-1313 FARNAM STREET

We sell more pianos than any other three houses combined. There's a reason.

characters are to be removed from their vessels, and after awhile sent to others, and if they do not improve they are to be placed in a disciplinary company. This is the gist of the circular which displays the firm resolution on the part of M. Thomson to stamp out insubordination.

enycophagy or nail biting. The doctor proposes to employ an ingenious apparatus which is fastened to the lower molars with a band pressing against the front teeth, and preventing the upper and lower jaws from meeting. The apparatus can be either

Another invention which is attracting even more attention in France is the novel method of saying mass which has been adopted by the cure of La Martre in the department of war owing to the fact that he has neither precentor nor cheristers in his church. He has fitted up a gramophone in the chancel which not only makes the customary responses, but also sings the canticles.

Westminster Preshyterian, Mason and Twenty-ninth, Rev. W. S. Fulton, D. D. Paster—Services at 19:30: Sabbath school at noos: young people's meeting at 7 p. m; no evening service in the church dur-ing August; Wednesday evening meeting at 8 o'clock. Good Realth depends on pure food. Burnett's Vanilla is pure. Take no substitute. Candlesticks and Shades.

Candle-lighted dining tables are more popular today than ever. Four candles are needed to light the smallest table, and four double-branched candlesticks ers fiked better. Beside silver and brass, glass candiesticks in old English and colonial designs are seen. Cut glass is to be preferred. of course, but good imitations are made. Quartet—I'm but a Stranger Here ... Nevin offertary. Quartet—Lord, We Pray Thee..... Roberts Postlude... Possessing no powers of refrection or refrection or refrection of refrection. strong flame is diminished at least onehalf and a most depressing effect obtained. Candle shades are works of art, whether made of silk and trimmed with chiffon and beads or fashioned of paper and decorated with water-color designs. Glass shades. cubes of opalescent material, jewel incrusted, are charming, as also are the parchment paper ones with old prints in Freabyterian church has gone to Denver delicate pink and blue tints inserted on one and the mountains for a vacation of three side. Candle shades always should be arranged to hide the flame, as the glare so And you wonder why nobody wants such near the eyes is unpleasant.

fixed or made removable at will.

French Court with Heart. Military service sometimes has its and side as the following touching story which has just come in from the provinces will illustrate: A man with a large family was suddenly called upon to decide between stern duty and affection and he pronounced in the direction which his heart drew him, the consequence being his appearance before a court martial with every prospect of a heavy punishment. The poor fellow has a wife and five children, and it is as much as he can do to make both ends meet. So his consternation may be imagined when after having a particularly hard time of it he received the order to leave his home for four weeks training, he now being a reservist. If he went off to join the regiment he feared that his wife would starve. He was arrested and at the court martial stated his position. The membere of the court had already been impressed with his story when his wife entered the hall with their five children, holding the youngest, a babe in her arms, while the others clung timidly to her. This was too much for the court and the man

taken up for the woman. Historical House for Sale.

was not only released but a collection

An historical house is now for sale here in Paris. It is situated in the Rue de Ponthievre, in the Faubourg St. Honore, and was built by Benjamin Franklin for his own occupation during his sojourn in this city. It bears on its facade a plate with his name and a small medallion portrait. The interest attaching to the house is enhanced by the fact that Napoleon Bonaparte and Josephine Hortense de Beauharnais also dwelt in it. Its historical credentials, it is said, cannot be called

Does your "To Let" sign walk about? Does it tell people where your vacant house is, and how many rooms it has, and just how cozy it is, and how cheaply you'll offer It to a gilt-edge tenant, etc.? Hardly. It's just nalled up on the door casing, and some people see it while most people don't, an ideal house. Somebody does want it, and wants it now. Give a little specific information through The Bee's real estate columns and you'll probably find that somebody right away.
