

JUDGES AND THEIR PASSES

Both Sedgwick and Reese Make Statements on the Subject.

NEITHER ARE USING THEM NOW

Both Say They Quit in 1905, Though Reese Says He Had One in 1906, but Denies Having Hidden On It.

(From a Staff Correspondent.)

LINCOLN, Aug. 23.—(Special.)—Appropos of the discussion of the pass question, Judge E. H. Sedgwick says: "I have not used a railroad pass since the 1902 state convention declared against their use."

Judge M. R. Reese said: "I had a pass in 1906 and used it. I was sent a pass in January, 1906, but I never used that one. I kept it a while and then I tore it up. I have no pass now."

"I was sent a pass by reason of the fact that I was an inmate of the Nebraska Prison Association. I used the 1906 pass only on business connected with that association. I used it when I went to Geneva to speak. The meeting was held in the Methodist church there, and I may have used it in riding to Ashland. But I never used it on private business. I never used the 1906 pass and never signed it. I kept it a while and then tore it up. As president of the Nebraska Prison Association I am instrumental in getting prisoners who are discharged back to their homes and the board had special arrangements with the railroads for transportation for these prisoners. I spoke in various parts of the state and took up collections for the association, and on the trips I used a pass furnished me by the railroad."

For several days rumors have been in circulation regarding Judge Reese and his passes and this afternoon he was asked regarding these rumors and he made the above statements.

University Warrants Held Up

A large number of university employees and instructors are liable to go without their August pay for a long time. As the treasurer of the Nebraska University refused to sign the warrants which were issued by the auditor upon the certificates filed by the State Board of Regents, Mr. Brian refused to act because Secretary of State Junkin refused to endorse the certificates until the vouchers from which the certificates were issued were submitted for his inspection. Until the state treasurer affixes his signature to the warrants they are worthless. Mr. Brian said he would countermand any warrant when he knew the voucher had not been indorsed by the secretary of state, as the constitution clearly provides the secretary of state and the auditor shall audit and sign all vouchers for money to be drawn out of the state treasury. Some time ago Mr. Junkin served notice upon the regents that he would not sign certificates issued by them, until he had examined the vouchers supposed to be on file at the State University. That month the vouchers were given to him for inspection, and he signed the certificates. Last month he signed the certificates without examining the vouchers, but this month he has balked and until the regents conduct their business as other state officers or until the supreme court compels him he said he would not sign another certificate. As it is contrary to law for the state auditor to give out a warrant until countersigned by the treasurer there is little chance for the regents to get the warrants in circulation before they comply with the demands of the secretary of state.

University Place Wants Depot

The citizens of University Place have petitioned the State Railway commission to compel the Rock Island Railroad company to build a depot in that city. They assert there are several hundred students who come and go from University Place every year, to say nothing of the coming and going of the citizens, and this road has no stop or stopping place. Chickens at State Fair. Two years ago the board of managers of the State fair was compelled to build a new poultry exhibition house in order to accommodate the largely increased poultry exhibits. This new building affords a splendid opportunity for the many breeders of fine chickens in Nebraska to put them on exhibition in one of the largest poultry shows of the west. In fact, they find that they cannot afford to stay away

Judge Estelle at York.

YORK, Neb., Aug. 23.—(Special.)—Thursday's attendance at the York chautauque was the largest this year and the largest in the history of the chautauque. York was fortunate in having Judge Lee Estelle of Omaha to supply in place of Governor A. B. Cummins of Iowa, who failed to get here and deliver his address on "Government." Judge Estelle's subject was "Making Good." Another subject that Judge Estelle showed he thoroughly understood was "Juvenile Criminality" and as justice of the criminal court of Omaha, he told of many a boy who was saved from being sent to the reform school who made good and several who were now occupying official positions and engaged in business pursuits in which they were making a success in other cities, where none of their new acquaintances knew that they had been charged with crimes and only for the intervention of Judge Estelle and others of Omaha were they saved from a criminal life. The afternoon was Hobson's day and the new pavilion, accommodating nearly three thousand people, was filled to overflowing to hear him. At the close of the meeting a resolution was offered: "Resolved, That it is for the best interests of the United States to increase its navy until it would be the largest navy in the world," and when the vote was taken it was carried unanimously. A copy of these resolutions will be sent to Congressmen Hineshaw, the two Nebraska senators, and to President Roosevelt, by the mayor of York, with request that they be acted upon.

Increasing Railroad Facilities.

MITCHELL, S. D., Aug. 23.—(Special.)—The Chicago, Milwaukee & St. Paul railroad, after putting off proposed improvements requiring the expenditure of many thousands of dollars, has at last authorized the beginning of the work. A letter was received today from W. E. McKenna, secretary and vice president of the company, announcing that the work would be taken up at once. The Commercial club for several weeks has been in correspondence with the officials relating to the improvements that the business interests of the city demanded, and after the officers were out here a couple of weeks ago and discovered to their personal knowledge the congested condition of things, where the railroad yards were so full that loaded cars had to stand on the switch in a long line before they could be unloaded, they came to a realizing sense of what the company needed in the way of additional work. The company will first put in several new switch tracks and enlarge the scope of the others. A new freight house will be erected east of the depot, which will be 40x200, and will be built in all probability of cement, with plenty of platform room around the house, and a transfer platform.

Red Cloud a Division Station.

RED CLOUD, Neb., Aug. 23.—(Special.)—Wednesday forenoon B. & M. railroad officials from McCook were here overseeing the extension of the roundhouse and making arrangements to make Red Cloud a division

station. Three more trains will be added and several new stalls added to the roundhouse. Fifteen men, fourteen of them with families, have been transferred to this place. It is probable the division station will be changed from Oxford to this place.

COUPLE MARRIED THIRD TIME

Unique Experience of Elliott J. Perry and Winnie Philpot.

HUMBOLDT, Neb., Aug. 23.—(Special.)—A somewhat romantic marriage is scheduled to take place at Humboldt, Neb., today, the contracting parties being Elliott J. Perry and his divorced wife, whose maiden name was Miss Winnie Philpot and who was raised from childhood in this city. The latter was within the last year granted a divorce from her husband, suit being maintained in this county on the grounds of desertion, and her maiden name was restored. Since her husband left her a portion of her time with her father, James W. Philpot of this city, later going to Omaha, where she remained for some time. A short time ago Perry went to Omaha, the couple met and effected a reconciliation, and after she came and visited a couple of weeks with her folks here she left yesterday for Humboldt, where Perry has been engaged in business since leaving here. Her intention was to meet her divorced husband at her destination, where they would be reunited in marriage, making their home at Humboldt. A peculiar feature is the fact that if this ceremony takes place as planned it will be the third time the couple has stood at the altar. When they were first originally married some eight or nine years ago an error was made and the minister performed the ceremony in this county while the license had been issued in Pawnee county. When the fact was discovered the minister was again called and the parties went over into Pawnee county and had the ceremony performed a second time. If there is anything in the proposition that the "third time is the charm" Mr. and Mrs. Perry should be "happy ever after."

Farmers Organize for Drainage.

ASHLAND, Neb., Aug. 23.—(Special.)—For several years overflows from the Platte river have destroyed crops along the low lands north of Ashland. For mutual defense against these yearly inundations 200 farmers met Wednesday evening at the Christian church in Warsaw to organize a drainage district. Martin L. Shupe of Yutan was elected chairman and Nova Z. Sanders secretary. There are about 3,000 acres to comprise the district. B. E. Hendricks of Wahoo addressed the meeting, giving the law governing drainage districts. E. Bignell of Lincoln, superintendent of the Burlington railroad, gave a talk and detailed his thirty-five years' experience in such work.

By vote the organization was delegated to a board of seven directors, their bonds being fixed at \$20,000 each and that of the treasurer at \$20,000. About thirty farmers signed a petition to the commissioners of Saunders county to call a special election to form the district. A committee of three, consisting of E. Bignell, George E. Ricker and Martin L. Shupe, was elected, who, with a surveyor, are to outline the proposed district. The farmers donated \$54 as preliminary expenses for the purpose. The meeting was very enthusiastic. The Platte bottom contains some of the richest farming land in the state and if the overflow can be stopped will make it very valuable. It is estimated that the cost of draining the bottom and dyking and riprapping along the Platte will amount to \$200,000.

Boys Arrested for Burglary.

HUMBOLDT, Neb., Aug. 23.—(Special.)—Sheriff Denton came up from Falls City last night and this morning took down with him Olin Chum, O. A. Cooper and Floyd and Ralph Shaffer, four lads of the city, ranging in age from 10 to 15 years, charged with robbing the department store of Boyd & Lyford of this city. The thefts were first noticed by the management of the store during last Thursday, the day of the carnival. During that night the money drawer was robbed of \$11, the miscreants having gained entrance through a broken window pane into the cellar. A watch was set and kept at this and adjoining stores each night, but the thefts continued, much to the discomfort of the watchers, among the things missing being cash, candy, tobacco, sweet chocolates, etc. Finally last evening about 9 o'clock the Chumms had was caught emerging from the cellar with the \$2 left in the cash drawer as bait, and confessed everything, implicating the other

boys in the work. The Cooper boy confessed to taking some rings from the store on Sunday during the day, but families have been transferred to this place. It is probable the division station will be changed from Oxford to this place.

SOCIETY OF EQUITY MEETING

State Convention in Session at HASTINGS, Neb., Aug. 23.—(Special Telegram.)—The preliminary session of the annual state convention of the American Society of Equity was held this afternoon. There was a fair-sized attendance, and tomorrow a large number of visitors are expected. The important sessions of the convention will be tomorrow morning and afternoon.

Baptists in Convention.

BEATRICE, Neb., Aug. 23.—(Special.)—The fourth annual meeting of the Blue River association of Baptist churches convened here last evening in the Baptist church, with about fifty delegates in attendance. After devotional exercises conducted by Rev. U. G. Miller, Dr. A. H. Felch read the address of welcome. The sermon of the evening was delivered by Rev. J. P. Watts of Fairbury. Special music was rendered by the choir, and Prof. Watts favored the audience with a cornet solo. The meetings will continue until Sunday evening, and an interesting and instructive program has been prepared for each day during the session.

Reunion at Waterloo Close.

WATERLOO, Neb., Aug. 23.—(Special Telegram.)—The last day of the reunion of the Douglas County Veterans association opened with threatening weather, but at noon had nearly cleared up and, while not so many were present as yesterday, the crowd was large and the address of Hon. J. H. Van Dyusen, Jr., was listened to with intense interest by about the usual number. The campfire tonight was not largely attended. All are loud in the praise of the treatment received and declare the reunion the best of late years. Judge Troup also spoke briefly this afternoon.

Judge Estelle Talks to Veterans.

CAMBRIDGE, Neb., Aug. 23.—(Special.)—Yesterday was one of the big days in the annals of the southwest Nebraska Grand Army of the Republic reunion assembly here. Judge Lee Estelle's address along the line of juvenile reform contained a message that should be carried to every father and mother and to every boy and girl in the land.

NEBRASKA FROM DAY TO DAY Quaint and Curious Features of Life in a Rapidly Growing State.

Mr. Weaver had a kick from a young colt that demolished his glasses and caused him to wear his head in a sling—Auburn Granger.

Crofton Holds Record—There's no use talking about this base ball business with Bloomfield. They are not in our class. This season we have one broken head for Crofton, a broken finger for Colebrook, a broken collar bone for Hastings, a broken finger for Crofton, a dislocated ankle for Crofton and seven or eight hundred sore heads for Bloomfield. What has she to show for the season's playing? There's nothing to it, she's not in our class.—Crofton Journal.

Nature Foke—The bees have been swarming this week, although it is late in the season. Two swarms wisely selected Beaver City for an abiding place, and as there were no vacant buildings for their reception, they camped out as best they could. One swarm was attracted to the north side by the good things kept at the restaurant of John Bickford, and are now happy in that location between the weather boards and the plastering. The other swarm settled down as close to the Christian church

as possible without getting their feet wet, and roosted in an elm till otherwise provided for.—Beaver City Tribune.

Horse Played Possum—An ordinary horse played a pretty good joke on Joe Smith of the Walker Bros. lumber yard one day last week. Aside from being the right-hand man in the lumber yard, Joe, with the assistance of his boys, farms quite extensively. While cutting oats one day last week one of his horses became overcome with heat and as the animal failed to display any signs of life, Joe supposed, of course, the horse was dead. He was in the town trying to secure somebody to go out and bury the dead horse, but failing to find anybody to do the job, he went home with the intention of doing the work himself. When he reached home, however, to his great surprise and pleasure the horse had come to life again and seemingly did not feel any bad effects from its passage over the great divide and return.—Humphrey Democrat.

A New Church Rule—The official board of the United Evangelical church held a business meeting August 7 in the evening. All members of the board were present save one. They authorized the pastor to make some improvements on the church building, and also passed the following resolution: Resolved, That after the date of this meeting, persons attending meetings at the United Evangelical church at Odessa, will be required to go into the church when services begin, or if they remain on the outside of the building they must go off the church lots. This rule is made necessary because some young men (7) tampered with rigs, changing wheels and writing burlesque together and endangering the lives of the owners. The rule will be rigidly enforced, and violators will be prosecuted to the fullest extent. You, you had better go elsewhere for your fun.—Elm Creek Beacon.

Rights of the River—Last Friday the government snag boat J. B. McPherson went down the river. When they got to the former village of Hillsdale, instead of going down the main channel of the river, they went down the "chute" between the island and the main land, and when they got to John H. Moorehead's cable ferry that runs to the island, demolishing the boat and tearing the cable down. The boat was at the west bank and a wagon loaded with corn had just driven off it. The steamboat apparently made no effort to avoid the ferry. This will be a serious inconvenience, as a corn sheller was on the island, shelling corn, which was being hauled over on the cable ferry and then to market. Apparently the pilot of the steamboat believes cable ferries have no rights that a steamboat is bound to respect.—Nebraska Advertiser.

There's no chance for an argument as to whether the Bee's want ads pay or not. They always pay if they ask anything consistent. There are so many people in Omaha that somebody is qualified to fill any sort of a want. Banker Schiff Says Jews Who Come to This Country Should Be Citizens.

NEW YORK, Aug. 23.—The American Hebrew will publish today a letter written by Jacob H. Schiff, the banker, to Dr. Solomon Schechter, president of the Jewish Theological seminary of America, in which he says: "Speaking as an American, I cannot for a moment concede that one can be at the same time a true American and an honest adherent of the Zionist movement. The Jew should not for a moment feel that year ago at four cents, the volume being made up of numerous orders rather than by any new interest of heavy business. In fact, many merchants display a disposition to go slow, fearing that orders may fall off, not because of a decline in consumption, but more particularly of the tightness of money."

The wool manufacturing situation is an interesting and almost unprecedented one, in spite of high raw material prices, owing to the fact that the wool growers, dividends large, surplus heavy and their stocks sell at high prices. On the other hand, owing to the uncertain money situation and some minor labor troubles, there is an increasing undercurrent of conservatism in the trade. The mills are overold, many makes are "at value" and some manufacturers are refusing orders. Taken all in all, the situation is such as to repay examination, which is rendered possible by an article in another column. The woolen and worsted manufacturers bought more heavily directly from the growers this season than ever before, paying fairly high prices. The undertone as regards prices is less favorable and some fortunes are said to be seeking loopholes for getting out of high-price contracts placed early in the year.

Wheat, including flour, exports from the United States and Canada for the week ending August 22 aggregated \$24,424,000, against 2,347,435 bu. last week, 2,136,775 bu. this week last year and 4,956,989 bu. in 1901. For the first eight weeks of the fiscal year the exports are 22,676,540 bu., against 15,124,600 bu. in 1906-7 and 12,941,254 bu. in 1912-3.

Corn exports for the week are 1,120,545 bu., against 1,461,727 bu. last week and 623,364 bu. in 1906. For the fiscal year to date the exports are 11,823,265 bu., against 5,767,414 bu. in 1906-7.

The Easy Meal has GRAPE-NUTS as its foundation. Ideal on hot days because GRAPE-NUTS requires no cooking and is at the same time a perfect food. A perfect hot weather breakfast, made up of GRAPE-NUTS, and cream, some fruit, soft-cooked eggs, and a bit of crisp toast, starts the day right, keeps the blood cool and body and brain well nourished. Compare the cool, contented GRAPE-NUTS-fed man or woman with your meat-fed neighbor who is sweltering and miserable. You don't have to cook GRAPE-NUTS, for the reason that this food is cooked perfectly at the factory. This cooking is done on scientific principles, so that all the starches of the grain are transformed until they are ready for immediate digestion and yet all the good of the grains is left in. Grape-Nuts is the most famous food product in the world. "There's a Reason"
