GREAT DAY FOR THE BULLS

Cables Firm and All Foreign Markets Are High, Giving Additional Strength to the Domestic.

OMAHA, Neb., Aug. 23, 1907.

With a perfect stream of damage and strong bull reports from the northwest this morning, the market was strong and all options went skyward recovering from yesterday's slump.

Cables came strong and all foreign markets were much higher, giving additional strength to domestic market.

Wheat opened firm and higher and advanced steadily.

Reports from the northwest were extremely bullish and with the strength shown in European markets, buying was general and prices recovered from yesterday's break. September wheat opened at 82c and closed at 89¾c.

Corn opened strong and higher on general buying and higher cables. Trade was very active and, owing to the higher arrivals, all offerings were absorbed readily. September corn opened at 51¾c and closed at 52¾c.

Oats opened with a general rush of buying by commission houses. Prices advance steady with wheat and corn and on general assurances of a short crop. September oats opened at 39c and closed at 50¾c.

Corn receipts were 414,000 bushels and shipments 312,000 bushels, against receipts last year of 424,000 bushels and shipments of 60,000 bushels.

Clearances were 81,000 bushels of corn, 16,000 bushels of oats and wheat and flour equal to 292,000 bushels.

CATTLE—Receipts of cattle this morning were very light, not enough of any one kind being reported to make much of a test of values.

The few beef steers on sale changed hands quite readily at good, steady to strong prices, but there were not enough to make much of a showing and nothing very choice to put a top on the market. The few loads of cows and heifers in sight changed hands readily at good, strong prices, some would say strong to 10c higher. Everything in sight was sold at an early hour.

There has been a better feeling in the feeder market during the last two days. Speculators have been clearing up their surplus stock and the market is taking on a more healthy condition. The few fresh feeders today changed hands at fully steady prices.

HOGS—Hogs sold 5@10c higher this morning, but the trade was not overly active at the advance. After having suffered such sharp selling declines we all determined to get every cent possible out of their holdings and were hence asking good, stiff prices, while buyers were not overly anxious to put on very much. This would naturally account for the market not being more active. Light hogs, as usual, sold most readily and it was easier to get the advance on that kind than on the rough heavy. As has been the case for some time back, the market was more or less uneven. Some of the medium hogs, which on days when the buyers were not anxious for supplies would be classed with the heavy hogs, looked lighter to them today, when the demand was better. Such hogs would naturally get more advance in some cases than they were really entitled to as compared with the way others were selling.
