## ARMERS CET TOP PRICES

Nebraska Crop Producers Are More Prosperous Than Ever.

ALL GRAIN SELLS FOR MORE NOW

ats Are Higher Than for Any Simiinr Time in Twenty-Three Years, Fifty-Two and Seven-Eighths.

Nebruska farmers are getting better prices for their corn and oats than they have received since 1902, with the exception of a single week in May of 1905, when corn prices were a little better than they are now! On the average the Nebraska farmer is getting 40 cents a bushel for his oats and 45 cents for his corn. Cash No 8 oats is quoted at 45 to 46 cents on the Omaha Grain exchange, which is the record in the exchange's history. Cash No. 3 corn is quoted at 50% to 51% cents, which price has been equalled only once since the establishment of the exchange.

Corn for September delivery, which is practically a cash basis, sold as high as 60% cents Monday in Chicago, the highest since May, 1966, when cash corn reached \$41/4 cents. For several months in 1902 corn sold in Chicago above 60 cents, but the highest price in the last twenty-five years was attained in May of 1892, when a limited quantity sold on a squeeze at \$1. The farmers, however, were geeting only about half that much.

Onte Highest in Quarter Century. Oats is higher today than it has been in August or September for twenty-three years, Having reached 52% cents on the Chicago Board of Trade Monday. In these twenty-three years a higher price than this has obtained only in July, 1902, when oats were 56 cents at Chicago, in April. 1891, when they were 57% cents and in May, 1891, when they were 54% cents.

The records of the Chicago market show the law price of 14% cents on oats for the Inst Eventy-three years to have been REVENUE DISTRICT LARGER reached in September of 1898, while corn reached its low price of 1914 cents in the same month. People burned corn in their stoves in those days, rather than sell it at 19 or 12 cents a bushel.

Advancing prices make the cost of feed so high to dwellers, in the city that many an Omaha citizen has had to sell his horse in order to buy bones for his dog. Sixty cents a bushel you must pay for shelled corn at the local retail stores and 55 cents for oats. With hay and bran high too, a horse is an expensive luxury.

Wheat is comparatively not nearly so high as the course grains. No. 2 hard wheat is solling on the floor of the Omaha Grain exchange at 54 to 85 cents, though it reached 94% cents on May 27.

Corn Needs Rain Badly. Corn needs rain and needs it badly. This is a general cry over the corn belt. There was no rain last week in Ne braska, according to the Burlington soll and crop report. Wheat which was not stacked has practically all been threshed and some threshing from the stack has been completed. All reports from the Lin-coln division show that the corn crop needs rain, although it has not been damaged to any very great extent. There has been but one day of hot winds. Corn west of Edgar and on the line from Kenesaw to Oxford and Red Cloud to Oxford has been imaged and not more than half a crop is expected. Some corn is being cut for fodder on the Orleans branch.

SCHERB TAKES THE DREXEL Los Angeles Man Pays Thirty-Nine Thousand and Accepts Pos-

finally accepted possesssion of the Drexel hotel, paying John G. Harte \$39,000 for it. The money changed hands Monday, Mr. Scherb mortgaging the building and lot to the Byron Reed company for \$30,000 to get money for the purchase. In August of 1886 Mr. Scherb leased to

Mr. Harte for twenty years the ground where the hotel stands, at the southwest corner of Sixteenth and Webster streets.

Retiring Secretary of the Druid Hill Improvement Club Given a

Monday evening Elmer L. Platz, secretary of the Druid Hill Improvement club. was settin' around the house, not saying nothin' to nobody, and feeling pretty good over the prospects for the fruit crop of 1908, when Bert Miner came slipping along. Miner said he wanted to talk politics, and very soon he and Platz were busy disposing of the chances of numberless candidates, when a wagon drove up in front of the place and began to unload things.

"Hey," called Platz to the driver, "you've made a mistake—I live here and those things are not mine."

But the driver kept on, and presently a couple of hundred chairs decorated the Platz lawn, and ice cream and other comestibles were produced, and along came nothin' to nobody, and feeling pretty good

comestibles were produced, and along came the Druid Hill Improvement club and others of the neighbors, and the first thing Mr. Platz knew he was the storm center of about the most complete surprise party that has ever been sprung. The occasion for the event is the fact that Mr. Platz is about to retire to a fruit farm near Florence, and therefore sent in his resignation as secretary of the improvement club. During the gyening Mr. James C Lindsay of the Board of Education made a neat little speech, referring to the activity and excellent service of the retiring secretary and presented him with a purse of \$15 as a substantial evidence of the opinion his friends and neighbors hold of

on August 20 for forgery in South Omaha is a fugitive from the Indiana state penitentiary at Michigan City. He has ninyears yet to serve there out of a fourteen year sentence. He is also wanted in St. Joseph for the same offense, and while there went under four names, John Stevens, C. W. Miller, Harvey Miller and John Brown. In South Omaha he called himself E. E. Roberts, and in Indiana he is known as Frank Sanford.

Bee Want Ads Are Business Boosters.

Five Cents Within Three Days Without Any Distinct Leadership.

OMAHA, August 27, 1907. The market was firm and in spite of some short set backs prices are gradually creeping higher.
The bullish sentiment is still on and with

Oats opened soft and a little off from yesterday's close in sympathy with corn. There was some selling of long oats by locals and receipts are increasing. September oats opened at 51%c and closed at 50%c. fember data opened at tags were 75,000 bu. 50%c.
Primary wheat receipts were 75,000 bu. and shipments were 373,000 bu. against receipts last year of 429,000 bu. and shipments of 38,000 bu.
Corn receipts were 429,000 bu. and shipments were 406,000 bu., against receipts last year of 539,000 bu. and shipments of 561,000

bu.
Clearances were 112,000 bushels of corn.
2,000 bushels of oats, and wheat and flour
equal to 328,000 bushels.
The world's wheat shipments this week
were 7,568,000 bushels, last week 7,184,000
bushels and this week last year 9,394,000
bushels.

bushels and this week last year 3,354,000 bushels. Corn shipments were this week 4,704,000 bushels, last week 3,605,000 bushels, and this week last year 2,672,000 bushels.

Liverpool closed unchanged to 44d higher on wheat and 34d higher on corn.

Seaboard reported 169,000 bushels of wheat and 16,000 bushels of corn for export.

lower. Provisions were 10 @15c lower.

The wheat market was nervous and full of quick and irregular flurries. The market broke sharply late in the day on realizing sales and because of large ircreases to the local stocks. The strength of yesterday, manifested in the Gorman cable reports, was missing today and Berlin wheat reacted %d, and this affected the local market. Prices in general, however, held well considering the amount of wheat that was sold for profit. Only about %c of yesterday's advance was lost at any time and the market was well supported on every reaction. Encouraging news for the bulls was received from the Canadian northwest, where damage by frost was reported and the official prediction called for continued cold weather tonight. Prices at Winnipeg were strong. During the last few minutes of the trading a large commission house sold grain freely in all of the pits. Many weak holders trailed on and the result was that all prices were sharply depreased. The close was easy. September opened %c lower, at 91%c, sold between 90% 29%c and closed at 90%c. Clearances of wheat and flour were equal to 32\$,000 bushels. Primary receipts were 750,000 bushels. Primary receipts were 750,000 bushels, against 429,000 bushels on the same day last year. Minneapolis, Duith and Chicago reported receipts of of 480 cars, against 612 cars last week and 214 cars a year ago.

The corn market opened easy because of favorable weather for the crop and selling by shorts and commission houses. Fair outside support was given and a portion of the early loss was recovered. A large amount of long corn w sold on the decline. Country acceptances, while fair in quantity, were less than had been expected. The shipping trade was fair, but not such as to afford strong support. September opened % % c lower at 50% c for and closed at 50%c. Local receipts were 256 cars with 59 cars of contract grade. The oats market was slow. Leading longs sold heavily. The receipts were 10% 65% c and closed at 50%c, the low mark of the day. Local receip

mark of the day. Local receipts were 50% cars.

The feature of the provisions market was the selling of lard by a local packer. Prices were firm early in the day, but weakened later in sympathy with grain. At the close September pork was 15c lower, at \$16.02%. Lard was down 12%c. at \$9.05. Ribs were 10c lower, at \$8.75. Estimated receipts for tomorrow: Wheat, 235 cars; corn, 102 cars; cats, 318 care; hogs, 27,000 head.

Prices furnished in Chicago by the Updike Grain company, telephone Douglas 2473, 100 Ree building.

dion.

Although the demand for fat sheep was good, the fact that Chicago was reported lower and that prices here were already high in comparison put buyers on the bear side. With liberal receipts in their favor they were able to buy killers pretty generally loc lower than yesterday. Still the market was active and the trade in a good healthy condition. Even after the decline prices were high and sellers well satisfied with results.

Feeder buyers were again out in full force and the barn was full of men looking for something to take back to the country with them. Feeder lambs were good active sellers and fully steady. A long string of right good feeders brought \$5.90. Feeder wethers on the other hand were in many cases as much as loc lower than yesterday. The trade was quite active on all kinds, the market opening early in the morning and continuing in good shape until clearance was effected.

Quotations on killers: Good to choice lambs, \$7.00@7.25; fair to good lambs, \$6.75 @7.00; good to choice wethers, \$6.55@ 5.40; fair to good wethers, \$5.00@6.25; good to choice wethers, \$6.55@ 5.40; fair to good wethers, \$5.00@6.25; good to choice wethers, \$6.55@ 5.40; fair to good wethers, \$5.00@6.25; good to choice ewes, \$5.00@6.25; fair to good cwes, \$4.80@6.00; culls and bucks, \$2.50@4.00. ST. LOUIS, Aug. 27.-WHISKY-Bank Clearings.

OMAHA, Aug. 27.—Bank clearings for to-day were \$1.599,646.71 and for the cor-responding date last year \$1,369,065.39. If you have anything to trade advertise it in the For Exchange columns of The Bee Want Ad pages.

but the Market Generally in Shifting-Money is

NEW YORK, Aug. 27.—The speculative sentiment revealed by the day's movements of stock prices was hesitating and shifting, as reflected by the constant turning in the tide. At the same time transactions were on a diminishing scale and were also doned almost wholly to professional traders before the session had elapsed. The belief that the Stock exchange would be closed on Saturday as well as on Monday in lief that the Stock exchange would be closed on Saturday as well as on Monday, in compliance with a petition in circulation amongst the members, was a factor in the growing dullness of the market, owing to the well known dismelination of stock operators to enter on new commitments on the see of a prolonged holiday. It developed quite early in the session that there was only a moderate disposition to follow up the buying movement which sprang up yesterday and after that the bears renewed the attempt to press prices and began again to directate rumors of money embarrasements, such as have been a feature of their activity for some time past.

Some of the details of the alleged syndigment Some of the details of the alleged syndi-cate formed to take over the proposed \$40,000,000 New York City bond issue lacked

\$40,000,000 New York City bond issue lacked confirmation, with a consequent waning of that influence, which was an important factor in yesterday's brick recovery. The demand for stocks here and for London account was on quite a notable scale, and international commission houses reported that this might be regarded as the closing up of a short account in connection with that this might be regarded as the closing up of a short account in connection with the fortnightly settlement on the London Stock exchange which began today. London also sent reports of a sharp recovery in the prices of copper and this conduced further to the early rise here.

Money on call remained easy, although the operations of the sub-treasury have taken \$3,353,000 from the banks since the last bank statement. New York exchange at Chicago recovered from 50 cents to 30 cents discount per \$1,000.

Bonds were irregular. Total sales, par value, \$1,168,000. United States bonds were unchanged on call.

value, \$1,168.000. United State unchanged on call.

		Wool	Market.		

Wool Market.

BOSTON, Mass., Aug. 27.—The tightness of the money market still influence; trade in the local wool market. The large firms are busy, however, as manufacturers demand quick shipments. The movement to the mill centers contines heavy and far above the corresponding period last year. Receipts from the west are coming in rapidly and local holdings are above the average for this time of the year.

Prices maintain a high level for good wool and reports from abroad show no weakness in conditions. Ohlo fine delaine is in demand. Half bloods also sell readily, while the transactions in territory wool, although somewhat curtailed during the past few weeks, showed unchanged quotations.

MAYOR SIGNS BOTH BILLS Mxes Signature to Gas Bond Proposition and Billboard Ordinance.

Mayor Dahlman Tuesday morning affixed his official signature to the gas bond and the bill board ordinances, this being the last step toward making them laws.

The effect of his approval of the gas bond ordinance will be to submit to the voters at the coming election the question of issuing \$3,500,600 in bonds for the purpose of buying the plant of the Omaha Gas company. The mayor contends this is a step toward the securing of cheaper gas for the public and he believes the amount will be sufficient to buy the plant under condemnation proceedings provided the city and the gas company do not get

together on an agreed price. The approval of the bill board ordinance closes a fight in which some of the owners of bill boards opposed the regulations in the ordinance. The ordinance makes unlawful the erection of bill boards more than 111/2 feet in height and provides the boards must be set back from the lot line a distance equal to the height of the board. In the fire district they must be constructed of galvanised fron or other incombustible material and in all parts of the city the construction and bracing must be approved by the city building depart-

MAY ENJOIN ROTATED BALLOT Client of Judge Baker Thinking of Starting an Action in

Court. There is a possibility that a suit will be filed in district court within a day or two to enjoin the use of the rotated bailot at the coming primary election. It was reported Tuesday that Judge Ben S. Baker had the papers ready to file. Discussing this report Judge Baker said Tuesday

"I had contemplated bringing such a suit several days ago, but the probability is I will not. My elient is still considering the matter, but it is not likely we will start the sult now."

Judge Baker declined to give the name of his client. The ballots have already been printed in the rotated form, the last of them being completed Tuesday moruing. In case the use of the rotated form were enjoined it would require some quick work to reprint the ballots in time for the
