The North Carolina trouble should have been instructive not only to the railroads but the lower federal judges. But the similar "rebellion" that has broken out in Alabama shows that neither the Southern railway nor the federal judges of that section have learned anything from the North supreme judge instead of Judge Al- Carolina case. Against enforcement of the new Alabama law reducing passenger rates to 214 cents a mile, the Southern rallway appeals to a federal court for an injunc-Taxes tion just as it did in North Carolina, and Judge Jones is as prompt as was Judge Pritchard in issuing a writ. But the state

officers are sworn and paid to enforce the state laws, and manifest a disposition to do so, as might be expected.

The natural consequence is the develop ment in Alabama of as acute a clash of federal and state authority as disturbed the nation in the North Carolina case. Judge Jones of the United States cour charges the grand jury, in a stump speech, to indict state officers who undertake to the new law will "kill the fair" which enforce the state law against his injunction, and Governor Comer replies that he will give the railroads until October 1 to rates. THE LABOR SHORTAGE.

Production Restricted Because Hands Are Not Available.

Philadelphia Record. The shortage of labor in this country appears to be hardly a less distressing incident of the prevailing industrial situation than the shortage of capital to carry on great projected undertakings. The short age on the farms is partly explained by the fact that the urgency comes and goes with the planting and gathering of the crops, being redundant and insufficient by

But the farmers are not the only sufferers. There is a scant supply of labor in nearly all the other industries. This is particularly evident in mining operations. The Record noted the other day the importalines of railroad because of inability to keep up the usual outturn at mines owned by the railroads. Large European orders for anthracite and bituminous coal for delivery at Philadelphia and New York have been declined because of a lack of a full force of miners in Pennsylvania collieries Never before was labor in the United States in greater demand and never before were wages higher.

It is true that the cost of living has advanced in correspondence with the rate of wages, but the time seems inopportune for reviving the outcry against an increase ci the labor supply as a result of immigration Every able-bodied man who comes into the country willing to make his living by skilled or unskilled labor is a benefactor

## Demand for Immunity Baths.

The number of persons who appear to be willing to win a position on the immunity band wagon by turning state's evidence in the coming Pennsylvania graft scandal trial indicates that, after all, there is very little honor among thieves The desire to blame it on the other fellow seems to spring eternal in the human breast, and gaining one's freedom by sending the fellow-culprit to jail is a method that unfortunately has a number
