TALK OF THE POLITICIANS

Bob Smith's Plea for Votes Fails to Create Riot.

CLAIMS CREDIT FOR ALL GOOD

Voters Are Unable, After Searching the Record, to Find Anything that Will Confirm These Claims.

'Hob" Smith's plea for votes on the ound that he slone is entitled to all the edit for money saved the taxpayers since he republicans reorganized the county board has not evoked universal response One of "Bob's" chief points is that he has changed the method of letting contracts by requiring bidders to stand by their figures on each separate item instead of en the totals. When "Bob" himself was in the grocery business he was looking for public contracts, but evidently did not practice what he now preaches. An incident is cited by Superintendent R. D. Stewart of the School for the Deaf and Durab, as follows:

"In 1908 we took bids for grocery supplies for our institution and two bids were submitted, one by Robert Smith & Broand the other by Courtney & Co. On the face of it the Smith bid was much the lower, figuring up \$596.27, as against Courtney's \$715, on the items included in the schedule. It should be known that we at that time asked for bids for various supplies in quantities of tens, or multiples or fractions of tens, reserving the right to order more or less at the same price. Inspection of the Smith bid on the supplies that would be needed showed at once that it was carefully balanced and deliberately juggled. Of the eighty-five items Smith was high bidder on thirty-nine items, Courtney high on thirty items and both bid the same on sixteen items. The bid was let to Courtney on its merits and when the vouchers were paid for the months of April. May and June, constituting the quarter, it was found by figuring the orders according to each bid that the state had saved \$57.82 by accepting the Courtney bid, notwithstanding Smith's apparently lower bid. At that time Smith openly declared that he would get even with me and has been pursuing me with all sorts of falsehoods ever since. But this shows what a great watch dog he is for the taxpayers when he is looking out for something for himself. All the original documents are on file at the Deaf and Dumb school and are indisputable."

A member of the Central Labor union writes The Bee as follows: " "Tony' Donahoe may expect every labor union vote, as you say, but he will not get it. He is too much of a professional labor union man to suit all of us. In the Central Labor union, as everyone knows, there are two factions, one the socialists and the other us regutees to hold down the 'red buttons,' but he played with him or against him seems to be almost always went in with them. Then, playing him for first place for county astoo, "Tony" is always preaching about his devotion to labor, but whenever he is sent anywhere I always notice the bill coming in for so much for his time and so much for his traveling and meals and incidentals. 'Tony' has always taken care to get he went along."

id in Deuel county, Nebraska, intending at that time to establish my residence on my claim within six months, as required by law. Later my family refused to move from the city, as my children were in school, consequently my residence was never established in Deuel county, as stated in your paper, otherwise I would never have filed as a candidate for the office of county treasurer for Douglas county. Not having complied with the provisions of the law regarding the establishment of residence on homesteads, I recently voluntarily relinquished my claim o the government."

"Keep your eye on Fursy in his race for SEVEN the county treasurer nomination," admon ishes a fellow lodge member. "He will run like an elk and win in a walk."

"Bill" Ure in effect accuses all the clerks of the district court up to this time with serving as "fury fixers" for the corporations. The fact is, all the jurers are drawn from lists made up by the county commissloners, of whom Ure is one, and if the turies are not up to the mark the defect must go back to the names Ure puts in

"Mr. Ure is a public officer," says Clerk of the Court Broadwell. "If he knew anything about jury fixing anywhere it would be his place, under his official eath as well as in his private capacity, to present bills of indictment. He wouldn't even have at a cost of a few cents, will find it. SIBLEY LAW STILL IN THE AIR

Essential Ground is that Amount of Money Involved is Less Than Jurisdictional Amount, Two Thousand Dollars.

The Nebraska Railway commission and Attorney General Thompson filed their answer in the United States circuit court Saturday morning in the matter of the injunction applied for by the American, Wells-Fargo, United States, Pacific and Adams Express companies to restrain the enforcement of the Sibley law reducing the express rates in the state of Nebraska 15

The answer denies every material allegation made in the bill of complaint by the express companies. One of the essential grounds is that the amount of money involved is less than the jurisdictional amount of \$2,000. Another is that there is no cause for an application for an injunction on the ground that the Nebraska Railway commission and the attorney general already have a suit pending in the Nebraska supreme court to test the constitutionality of the law, which is one of the points made by the express companies in their bill of complaint and hence there is nothing to enjoin. The answer further admits the law has been passed by what is known as Senate file 355, was approved by the governor July 5, and that the law is valid, writes: "I waited before writing to you but that the question of its validity still lies with the supreme court of the state and until the question is passed upon the express companies have no cause for ac-The answer therefore asks that the

figure is conservative. By proportioning the year's "other in "charges and preferred dividends" on the six months in question, it is evident that Union Pacific will earn a balance for its common stock in the current six months of between \$20,000,000 and \$21,000,000, or 101/2

This will be offset between \$750,000 and \$1,000,000 by the decrease in loans outstanding and bills payable which hore interest in the last fiscal year. Last year the "miscellaneous income" the Union Pacific amounted to slightly more than \$13,000,000. In the current fiscal

000,000 at the lowest. The Union Pacific has this year some what more than \$36,000,000 of Southern Pacific preferred instead of \$18,000,000 as last year. The additional dividend from Southern Pacific preferred will amount to about \$1,150,000 for the year. Similarly, Union Pacific's holdings of Southern Pacific common this year will draw \$5,400,000 in dividends, provided the regular dividends are paid, instead of \$4,500,000 as last year.

In other words the additional income from Southern Pacific holdings is sufficient to swell the Union Pacifi's miscellaneous income to over \$15,000,000 or at the rate of \$7,500,000 for the first six months, as is shown in the above table.

The Union Pacific's investments are so many and are so ramified that additional income or reduced income is possible in certain cases. In this connection it is well to point out that the distribution of \$1 per share on the Great Northern Ore certificates neans upwards of \$90,000 to the Union Paific, and if \$2.50 is ultimately distributed this year as is expected, the income from this source will amount to nearly \$250,000. whereas nothing was paid last year.

HARD LUCK STORY STICKS Tale of Misfortune Told by Al Kennedy Wins His Release from Law.

When Al Kennedy, the man who was ccused Friday of stealing a \$2,000 Mitchell car from the Berger garage, was brought back to Omaha he told a story of misfortune and ill starred enterprise that he was released by request of Mr. Berger. Kennedy was supposed to have taken the car during the night from the locked garage by breaking into the front door or by dodging out with it during the evening when the place was open. No one knew just how he had got away. He was caught at Logan, Ia., and Detective McDonald went for him and made him drive the nachine back.

I was trying to make money for you Mr. Berger," he said Saturday morning. Two fellows hired me to take them over into Iowa at \$5 an hour going and coming and they went until they owed me \$50. At daybreak the gasoline gave out, and when we stopped at a village they gave me a hogus check and skipped. I haven't seen them since." His tale was considered plausible and no action was taken

CASSIDY PROPOSAL DISCUSSED

Wattles, Drake, Byrne and Guild Go Over the Plan and Practically Reach a Decision to Act.

A \$500,000 cereal plant for Omaha was the Subject discussed by G. W. Wattles, Lather Drake, T. C. Byrne and J. M. Guild at luncheon at the Omaha club Saturday.

The written proposition of President Cas-Drake, T. C. Byrne and J. M. Guild at luncheon at the Omaha club Saturday. sidy of the Egg-O-See company, setting forth the conditions under which it would erect a factory in Omaha, was read and discussed. It requires that Omahans take \$500,000 of 6 per cent bonds, security being given on the new plant and the company's two factories at Quincy, Ill., and Buffalo,

It was practically decided that a committee would be selected to visit the castern property of the company and to thoroughly investigate its financial condition. The general opinion expressed at the

meeting was that Omaha will be able to ecure the factory if some railroad or terminal company interested in the establishment of a big industry on its grounds will take half of the bonds. It is figured that the railroad which gets the plant on its tracks could earn \$100 a day in switching charges on grain coming into the factory and on product going out. So with a \$30,000 annual income some ratiroad could afford to invest \$250,000 in bonds.

In casting about for other interests which would be financially benefited by the location of the factory in Omaha the conclusion was reached that it would pay some local bank to take \$50,000 of the bonds in order to secure the account of the company. It was thought that the development of the grain market resulting from a factory in Omaha would warrant the Omaha Grain exchange in taking \$50,000 of the bonds. There would still be \$150,000 to raise from other sources. It is believed the money can be raised and the plant secured if some

railroad will invest \$250,000; if not, the gen-

eral sentiment is for letting the project

drop. So the first efforts of the local business men will be bent toward interesting the railroads. In the meantime they will thoroughly investigate the Egg-O-See company, that tney may be able to recommend investment
