He also declared another reason for employing the injunction at such times, even before any threat to do damage has been made, is to cause it to appear that the federal courts are opposed the strikers. This apprehension arises, he said, because of the natural ignorance of the intricacies of the law on the part of the workingmen.

In a country where all men are workingment there should be greater community of interest, better mutual understanding and sympathy. It is in behalf of this better understanding that I speak today. I have no patience with the prejudice which exists between alleged classes when the classes themselves do not really exist.

There is no reason for hostility between employer and employe, between capitalist and wage-earner.

Capital is but the accumulation of wealth which employer and employe create to-

Wages are but the division of profits.

"The injunctions as issued against work men are never used or issued against work men are never used or issued against any other citizen of the country," declared Mr. Gompers. WESTERN MEN ACT TOGETHER

You hear much today of how a mayor of San Francisco has fallen, but you hear little of how powerful public service corporations tempted a wretched human being with great wealth and brought a once respected man to ruin and disgrace.

You hear much of how a mayor elected on a union labor ticket 4s in jail, but fittle of the fact that it was an honest district attorney, elected on the same union labor ticket, who put him there, an honest district attorney who is doing his best to put aside the mayor, the man really responsible for all this debauchery and dishonor.
