COURT OF ARBITRAL JUSTICE This Will Be Name of Institution Which Conference Hopes to Establish.

THE HAGUE, Sept. 5.—The, examining mmittee today approved the American proposition on the subject of the establishment of a permanent international high court of justice, with the exception of the paragraph referring to the allotment of the judges, which was referred to a subcommittee.

Article seven of the American project, which provided "that the high court yearly shall appoint three judges. With three substitutes, constituting a special tribunal, which can if necessary try cases elsewhere than The Hugue," has been changed so as to give the three judges the name of "special delegation," instead of "special tribunal," while the whole court will be called the "court of arbitral justice." Joseph H. Choate of the American delegation urged the necessity for some such arrangement and suggested several solutions for the points in dispute.

BILLBOARDS ARE CONSIDERED

New York City Clubs Would Entablish Headquarters Where Visiting Club Women May Be Shown Attention.

Consideration of the bill board received | aportant attention at the recent conference of the town improvement societies of Massachusetts and some of the conclusions of the meeting are worthy of general consideration. Regulation was deemed advisable rather than abolition, and it was held that first they should be ficensed, as this would put them under the direct supervision of some one representing the pubc and would tood to curtail the number of boards and control the character of the advertising. It was also thought that bill boards should be taxed on the same basis Three precincts in Kimball county give earning value as well as on their material value. One of the most important conclusions was that bill boards should be pro hibited entirely in places where publi money has been expended for aesthetic offect. This would protect the sky line afforded by the convergence of streets Also civic centers, boulevards, squares and parks. HARD PROBLEM FOR BISHOP

Church Must Find Place for St. Philomena People.

QLD PARISH MAY BE DIVIDED n a revenue of over \$50,000 a year, but Plan to Send Part of Congregation to Italian Church and Others

> to German Church is Considered. What to do with the people of St. Philoseha's parish, of whom there are 1,000, in case the parish property is sold, is the per-

piexing problem that now confronts Bishop Scannell and his priests. One plan suggested is to apportion the Italians in the congregation to the new Italian parish, which will build a church next spring at Mineteenth and Leavenworth, and the rest of the congregation to church of St. Mary Magdalene, at Nineteenth and Dodge streets. If this is done, the church of St. Mary Magdalene must lose the distinctive feature of being a German church, for the people of St Philomena's parish are not German speaking. There is a difficulty here, for a few of the older Germans do not wish to give up the use of their native language in the church. On this account it is suggested

mans and another priest to the others at another hour. It is said the church authorities do no want to erect a big church in the lower part of the city, if they can help it. St. Philomena's school will be closed this year. It has 14% children, who will scatfer this winter among the public schools and the various Catholic schools.
