Domestic Science Committee of lows Federation Issues List of Bulletins Helpful to Club Women in

Their Work.

Y. W. C. A. EXTENSION WORK

One of the interesting features planned by the Young Women's Christian association for this winter will be the Business Women's club. The club will meet at the association rooms every Tuesday evening. Members will be privileged to take supper together, the cost of the meal to be 10 cents, the supper to be followed by a study of the Book of Acts, one chapter to be taken each week. Once a month an evening will be devoted to the discussion of subjects of especial interest to members. Some of the subjects to be considered will be: 'Shopping from the Shopper's Standpoint," "The Stenographer's First Position," "The Business Woman and Her Relation to Her Employer." There will also be a question box. All interested in the club are cordially invited to join, Some of the other plans for this fall in-

clude: A beginners' English class at 7 o'clock on Wednesday evenings for foreign girls who cannot read or write English.

An advanced English class at 8 o'clock on Wednesday evenings for foreign girls having some knowledge of English.

Both these classes will be held at the Young Women's Christian association rooms and will be taught by a competent teacher. Those wishing to enroll will please hand their names to the extension secretary at once. The only expense for these classes will be an enrollment fee of 25 cents. Over 700 young women are attending the noon meetings being held in the factories of the city under the direction of the extension secretary, Miss Swettzer.

Helpful Bulletins.

The domestic science committee of the lowa Federation has issued the following list of farmers' bulletins that may be pro cured from the United States bureau of agriculture, Washington, D. C., that will be helpful to club women in making up programs and preparing lessons; Foods and Food Control (reprint), W. D.

Bigelow. Parts 1, 2, 3 and 4: Circular No. 46—The functions and uses of food. Circular No. 43-Food Nutrients-Food Farmers' Bulletin No. 128-Eggs and their as food. as food. irmers' Bulletin No. 121—Beans, pear uses as food.

Harrington, M. D.

Suffrage in Australia.

The correspondent of the National Union of Women's Suffrage Societies in Melbourne, Miss Vida Goldstein, has just sent the official returns, issued by the Department of Home Affairs, of the number of men and women voting for the senate and also for the house of representatives of the commonwealth of Australia in each of the states in the election of 1903 and 1906. With the one exception of Queensland, where a smaller proportion of voters, both male and female, went to the polls in 1906 than in 1908, the returns show a larger proportion of voters of both sexes taking part in the elections at the later date The actual increase in the number of women voting in 1906 over 1908 was, in the senate election, from \$69,815 in the former year to 431,633 in the latter; while for the representative chamber the increase of women voting was from 305,830 to 408,018.

The Husband's Right. In the case of Anna Eliza Wisner against

Ralph E. Wisner, the supreme court of Michigan has recently set aside a decree of divorce on the ground that the husband is entitled to select the place where he and his wife are to reside, and it is her duty to live there, provided she is treated kindly. It appeared, in the Wisner case, that the husband obtained a position with a mining company in Mexico, and his wife declined to go there with him, and he in turn refused to support her in Detroit. She then sued him for a divorce on the ground of nonsupport and the lower court granted her a decree, which the supreme court reversed on appeal, and laid down the doc trine that "the wife may not choose where the family is to live, but must follow her husband provided he treats her kindly."-Chicago Legal News.

Club Notes.

spoke one Sunday evening recently at Gibbon at a union meeting of the churches. taining to eternity are to be discussed. We can wash when Miss Palmer is gone."

There's a Fortune in It. Irrigated lands in Snake River valley of southern Idaho produce the largest and undred and fifty thousand acres will be consequences of not keeping it. Land and Water Company, Milner, Idaho.

You won't get turned down if you put proposition in The Bee's want columns. Somebody will want to buy what you want to sell. Somebody will want to sell what you want to buy. So many thousands of any sort of a proposition will strike somebody-often many people-just right. Try

Missouri Meerschaums.

"Missouri meerschaums," or corncob pipes, have become an industry of considerable importance. Last year's record was ninety-five carloads of corncobs, which were converted into 26,206,934 pipes, representing a cash value of McLill. Of that amount Franklin county produced about 35 per cent, while Gasconade, Pike and Warren counties contributed the rest. In addition to the cob pipes made last year were also manufactured 426,346 wooden

DUN'S REVIEW OF TRADE Business in Many Sections of Country Better Than at This Time Last Year.

NEW YORK, Sept. 7 .- R. G. Dun & Co.'s Co.'s Weekly Review of Trade tomorrow

Co.'s Weekly Review of Trade tomorrow will say:

Aside from some conservatism in preparing for remote requirements directly due to stringency in the money market, the volume of business is satisfactory. Trade exceeds the activity of last year in many sections and as crope are secured, there is a good demand for goods at leading jobbing markets that makes the outlook bright for fail. Wholesale dry goods sales are nearly concluded at the south, and merchants are now hurrying shipments forward to meet the autumn retail demand that is about to open. Prices of farm staples have risen to an unusual position for this season, but this is caused by large foreign needs rather than any reductions in domestic yield, and the increased amount of money paid to farmers will benefit all departments of trade and industry. The week's results are somewhat irregular, because of the holiday and interruption to telegraphic communication, but complete reports for August indicate that the midsummer month compared most favorably with 1906 in almost every department, except the market for securities.

Expected improvement in the volume of new contracts for steel is beginning to appear, autumn business coming into sight, while the mills still have orders on hand that will take months to fill in most departments. The small concession made in pig iron brought out a better tomage, but even after recent reductions the average is about 33 per ton higher than a year ago, which in turn was 34 above the range in the same week of 1906. Activity continues at textile mills, and the cotton goods situation is maintaining a position of strength because of the large amount of business already under contract and the high prices quoted in dealings in the raw materials. No change is expected in the woolen goods market until duplicate orders begin to a position at which tanners are willing to operate freely.

REPORT OF THE CLEARING HOUSE

REPORT OF THE CLEARING HOUSE

Transactions of the Associated Banks

for the Week. NEW YORK, Sept. 7.—Bradstreet's bank clearings reported for the week ending September 5, shows an aggregate of \$2,145,-283,690, as against \$2,213,580,000 last week and \$2,774,489,000 in the corresponding week last year. Canadian clearings for the week total \$70,556,090, as against \$75,616,000 last week and \$65,142,000 in the same week last year. The following is a list of the cities:

BRADSTREET'S TONE CHEERFUL

Building Returns Lighter, but Trade is Expanding in Centers. NEW YORK, Sept. 7 .- Bradstreet's to-

morrow will say: morrow will say:

The more cheerful tone of matters finalcial is reflected in the reports of expanding trade at large jobbing centers on fall account. Building returns for August above decreases for July and from August a year ago and material is less in demand. Reports from thirty-eight American cities show a total estimate expenditure for building in August of \$34.151.136, a decrease of 3.4 per cent from July and of 3.5 per cent from August a year ago. year ago.

Business failures in the United States

Business failures in the United States for the week ending September 5 number 130, against 167 last week, 121 in the like week of 1906, 127 in 1905, 144 in 1904 and 185 in 1903. Canadian failures this week number 15, as against 29 last week and 14 in this week a year ago.

Wheat, including flour exports, from the United States and Canada for the week ending September 5 aggregated 2.923,710 bushels, against 3.808.866 bushels last week, 2.466.032 bushels in 1901. For the first ten weeks of the fiscal year the exports are 29,209,116 bushels, against 25-672.631 bushels in 1906-0° and 62,955,209 bushels in 1901-02.

Corn exports for the week are \$07,104 Corn exports for the week are 507,104 bushels against 798,071 bushels last week and \$28,179 bushels in 1996. For the fiscal year to date the exports are 13,-127,680 bushels, against 6,457,254 bushels in 1996-07.

ODD OATHS OF FOREIGN COURTS

Primitive and Symbolic Flubdub Characteristic of Some Old Countries.

When a Chinaman swears to tell the Rev. Alice Palmer, state superintendent truth he kneels down and a china saucor of temperance work in Sunday schools, is given, to him. The following oath is then administered: "You shall tell the truth and the whole truth. The saucer A parlor meeting had been arranged for is cracked and if you do not tell the truth the following morning at 10 o'clock, when your soul will be cracked like the saucer," one of the women objected to the time, re- when he breaks the saucer. Other symminding the others that Monday morning bolical variations of the Chinese oath was a very busy time with housewives. A are the extinguishing of a candle or cutbright young woman present replied: "We ting off a cock's head, the light of the do not live in a country where women must | candle representing the witness' soul and wash Monday morning when matters per- the fate of the cock symbolizing the fate of a perjurer.

In certain parts of India tigers' and Mrs. L. W. Fansler of Pender has been lizards' skins take the place of the Bible appointed superintendent of Sunday school of Christian countries, and the penalty of emperance department of Thurston county, breaking the eath is that in one case the witness will become the prey of a tiger and in the other that his body will be covered with scales like a lizard.

In Norwegian courts of law the prelude hest crops. The warm south slope on the to the oath proper is a long homily on North Side tract is ideal for orchards. One the sanctity of the oath and the terrible opened to entry October 1, 1907. Write to- the witness is duly crushed by the sense cay for particulars. Twin Falls North Side of his fearful responsibility the oath is admissistered while he holds aloft his thumb and fore and middle fingers as an mblem of the trinity.

In an Italian court the witness, with his right hand reating on an open Bible, declares, "I will swear to tell the truth, the whole truth and nothing but the people read The Bee's want ads and most truth." The Mohammedan takes the oath with his forehead reverently resting on the open Koran. He takes his "Bible" in his hand, and, stooping low, as if in the presence of a higher power, slowly bows his head until it touches the book which to him is inspired.

In certain parts of Spain the Witness when taking an oath, crosses the thumb of one hand over the forefinger of the other, and, kissing this symbolic, if primitive, cross, says, "By this cross I swear to tell the truth."-Baltimore Sun.

Bee want ads are business boosters.

TAFT SPEAKS AT PORTLAND

Secretary of War Declares People Are Tired of Millionaires.

PREDICTS COMPLETION OF CANAL

Panama Waterway Will Be Ready for Use in Seven Years from Beginning of Next Fiscal Year.

PORTLAND, Ore., Sept. 7 .- Secretary of War William H. Taft and his party, enroute to the Philippines, spent yesterday in Portland as the guests of Theodore B. Wilcox, president of the Oregon Development league. This is Mr. Taft's first visit to the Pacific northwest and his stay in Portland was made the occasion of several pleasant attentions to the distinguished statesman and his party, including breakfast at the home of Mr. Wilcox on his arrival here this morning, a sightseeing tour of the city in automobiles, and a trip to Vancouver barracks, where Secretary Taft was the guest of General

Greely. Returning to Portland, Secretary Taft was the guest of Mr. Wilcox at a luncheo at the Portland hotel. Fifty of the most prominent people of Oregon also being the guests of Mr. Wilcox on this occasion. Mr. Taft's address at the luncheon was brief. He said that he was firmly convinced that the time had come when the country was tired of the plethora of milionaires, and of their influence, and it had been demonstrated and could further be shown that the business of the nation should be run on the principle of a square deal to everyone and special privileges to none, be he rich or poor. That, he said, had been the principle of the present administration, and it would be with the republican administration to come. He expressed confidence in the ability of the people to rise up and regulate whatever abuses might exist and said the people had done this before and would do it again if occa-

sion offered. "The government and the people are in entrol," he said. "They are deaf to the criticism and machinations of powerful and arrogant combinations of capital, and they are equally deaf to the threats that are so freely uttered by powerful demagogues." Tonight Secretary Taft, in speaking under the auspices of the Oregon Development league, addressed over 5,000 people at the

Talks of Canal. He gave a minute resume of the history

of the attempts to build a canal across the isthmus of Panama and of the progress on the work since it was begun by the Roosevelt administration. He said that he

average excavation and disposal of material in Culebra cut next year of 19,000,000, o 12,000,000 cubic vards.

"It is by no means certain," he said that the time taken to make the excavation for the Culebra cut will mean the time necessary for the completion of the canal There is much to be constructed and there are the Gatun locks, and it is quite likely that the enormous structure necessary to be made for the six locks at Gatun and the enormous dam will take longer than the excavation at Culebra.

"It is quite certain that every other piece of construction to be carried on can be completed in this time, but I think it is a moderate estimate to say that the canal will be completed in seven years, from the beginning of the next fiscal year. That is, our canal will be completed about the first of July, 1915. The president has infused the same vim and energy into the canal work that he does into anything of which he has control."

DIED A MARTYR TO SCIENCE Dr. Seneca Powell Victim of Poisons Taken to Test Anti-

dotes.

Dr. Seneca D. Powell, whose name will go down in the history of medicine as a martyr to science, lies dead in his home at Greenwich, Conn., as the result of constant drinking of carbolic acid for three years to prove that pure alcohol is an antidote for the poison. He proved his theory. He caused medical science to take a great stride, and now his life has paid the penalty of his devotion to suffering

Few chapters in the history of how men have battled against disease equal the one furnished by Dr. Powell. He graduated as an M. D. in 1869 from the medical school of New York university, and at once plunged into exhaustive experiments with

humanity.

Day after day, while in Bellevue hospital and other institutions, where he served with distinction, he compounded chemicals and wrestled with the solution of the problem which he had made the goal of his lifework. Instead of administering the poison to others, he took small quantities of it himself, and then applied various antidotes.

Finally he conceived the idea of pure alcohol being an antidote. He knew he was risking his life in proving his theory. But nature rebelled at last. The poison which had been saturating his system conquered and he began to fail. He had to abandon active work, and on Saturday, after having a career almost as remarkable as any living physician, he expired, leaving behind a monument of gratitude in the minds of his fellow practitioners .-New York American.

TRY HAYDEN'S FIRST

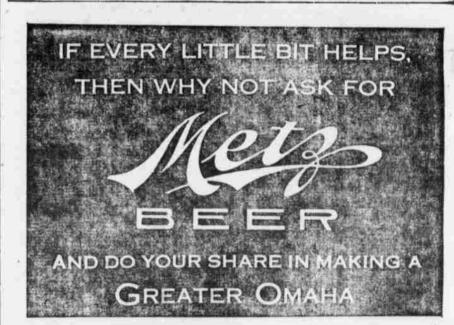

ONE THING SURE

The people who need drugs, prescriptions, etc., don't need to pay trust or hold-up prices in Omaha, South Omaha or Council Bluffs because we have centrally located drug stores in all three cities and we don't propose to boost prices any more than the cost of our goods will warrant. Having five (5) large drug stores, we buy more drugs than any competitor and of course we buy for isses money—which is the reason we can sell for less. Our new store at 15th and Douglas St., Omaha, is right in the neart of the prescription center of Omaha, and is better equipped for prescription filling than any other store in the city. LISTENI It is a well known fact that exnorbitant rents are being paid by some downtown druggists who are fighting for locations! Who pays this fancy reat? Why, the patrons of those stores, of coursel Haing long lenses at reasonable rents, we are not in the fight, which is another great advantage in trading at our stores.

Free delivery all over the cities.
