DEALERS TO FAVOR OTHER LINES

Illinois Central Cuts Queer Capers at St. Louis, Giving Elevation There and Hurting Its Omaha Interests.

After September 26, say local grain men, no grain will be shipped over the Northwestern road from Omaha to St. Paul, Duluth and other points in the part of the country.

The road has given notice to the Interstate Commerce commission that, effective September 26, it will abolish the payment of elevation allowance of one cent per 100 pounds on grain, now paid for unloading and loading at Omaha, South Omaha, Council Bluffs, Fremont and Missouri Valley.

The road has given notice to the Interstate Commerce commission that, effective September 26, it will abolish the payment of elevation allowance of one cent per 100 pounds on grain, now paid for unloading and loading at Omaha, South Omaha, Council Bluffs, Fremont and Missouri Valley.

Due to another peculiar attitude of the Northwestern, that road is at present hauling out of Omaha no grain which originates in Iowa.

The Illinois Central also has just done a thing, which the grain dealers are at a loss to understand, for it apparently works to the disadvantage of the road.

BIG FALLING OFF IN COTTON

Lateness of Crop Causes Production to Suffer.

AVERAGE CONDITION WAS 72.7

Figures in July, 1907, Were 75 in Comparison—Fewer Gineries in Operation Than a Year Ago.

WASHINGTON, Sept. 9.—The crop reporting board of the bureau of statistics of the Department of Agriculture finds from the reports of the correspondents and agents of the bureau that the average condition of cotton on August 25 was 72.7, as compared with 75 on July 25, 1907; 73.5 on August 25, 1906; 72.1 on August 25, 1906, and a ten-year average of 74.5.

The following table shows the condition on August 25 of this year and of the preceding year with the respective ten-year averages:

States. Aug. 25, 1907. Aug. 25, 1906. 10 Years. Alabama, 75.6; Arkansas, 81; Florida, 54; Georgia, 1,387; Indian Territory, 5; Louisiana, 112; Mississippi, 1,138; North Carolina, 43; Oklahoma, 6; South Carolina, 3,090; Texas, 14,100. Last year Texas had gained 23,586 bales before September 1.

The census bureau today issued its first bulletin on the cotton report for the season as shown by returns from the ginners, showing a total of 3,416 bales up to September 1, as compared with 3,073 bales up to the same period last year. In this statement round bales are counted as half bales. The great falling off is attributed to the lateness of the crop.

HARRIMAN'S TIP ON DRIVING

Gives Newspaper Men No News, but a Pointer on Lightning the Way.

NEW YORK, Sept. 9.—E. H. Harriman, who has just completed an extensive tour of the far west, was at his country home at Arden last night, when two reporters tried to interview him regarding a revival of the question of the size and source of the campaign fund used at the last national election by the republicans, which has again been taken up by several newspapers here.

Mr. Harriman positively declined to see the men or discuss the subject and the reporters, who had come in a buggy, got into their vehicle and started away. The roads at Arden are dark and dangerous and one of the men held a lantern to light the way.

They had gone but a short distance when a man came running from the Harriman house. "What are you trying to drive that way for?" asked the man, whom both recognized as Mr. Harriman.

"Don't you know that the light in that position blinds both the horse and the driver? Let me show you how to do it. It should be tied to the shaft in this way."

Suiting the action to the word, Mr. Harriman took the lantern, crawling under the buggy and with a bit of string fastened it securely to the shaft.

The men took advantage of the opportunity to make another try for the interview, but Mr. Harriman told them that he had made it an invariable rule not to talk to reporters at his home and that he could do so as they asked.
