Ten Thousand Men March Review of Grand Army

PARADE IN DRENCHING

Many Drop Out Before End of Journey.

REVIEWED BY GOVERNOR HUGHES

Department of New York Entertains Executive at Luncheon.

REAL BUSINESS BEGINS TODAY

Commander-in-Chief Brown Will Make His Address and Election of Officers Will Take Place.

FARHATOGA, N. Y., Sept. 11.—Marital music, the old war tunes to which the soldiers of the civil war had marched in many campaigns, awakened Saratoga at an early hour today, the day of the parade of the veterans attending the national encampment of the Grand Army of the Republic. Significant of the falling strength of the veterans was the fact that the parade distance was reduced to one mile—the shortest ever fixed for the national encampment. For the first time the parade was limited to members of the Grand Army instead of being open to all survivors of the war.

The village was ablaze with the national colors, covering the fronts of the buildings, festooned at every convenient point, strung in rows at short intervals across the streets and completely covering the interior of the great convention hall, where the sessions of the encampment were held. One of the features of the parade was the presence of a big fleet which covered the body of General Grant on its way from Mount McGregor to the tomb, in custody of the Grand Guard led by Colonel A. S. Fowler of Little Rock, Ark., in which every man was over six feet tall and each representing one of the forty-five departments of the Grand Army of the Republic. This old flag brought up the extreme rear, escorted by the whole parade and being carried at last along the whole line of review.

Reviewed by Governor.

As planned, the national officers in carriages, with Governor Charles E. Hughes of this state, led the line, the chief of staff in command being J. Cary Winans of Toledo. The department of New York state, although entitled by seniority to fifth place, selected as hosts the left of the line, which included a representation of every department, including Alaska and of every branch of the service. The parade was reviewed by Gov. Hughes and the national officers of the Grand Army of the Republic.

The parade was started shortly before 3 p. m. in a drenching rain. It was estimated that 10,000 men were in line at the start, but many of the more infirm veterans dropped out when the storm became severe, while the others plodded on despite the weather.

The day's program began with a reception at Congress Hall, the New York state headquarters, in honor of Governor Hughes, at 11:30. At 12:30 luncheon was served by the department of New York to the governor, Commander-in-Chief Robert B. Brown and his staff, past national officers, department commanders and the other distinguished guests. Meanwhile there had been reunions of the various organizations.

Tonight there was a mustering-in service conducted by Memorial post of Cleveland, O., at the exposition exhibition in the convention hall.

The real business of the convention will begin tomorrow with the annual address of Retiring Commander Brown, reports of officers and committees and possibly election of officers. The latter, however, may be postponed until Friday. The place of the next national encampment is still in doubt, probably lying between Popoka, Kan., and Toledo, O.

WARSHIP'S NARROW ESCAPE

Battleship Indiana Had Close Call by Reason of Fire in Coal Bunkers.

WASHINGTON, D. C., Sept. 11.—The Navy department today made public the fact that through a fire in her coal bunkers on the morning of Sept. 3, the battleship Indiana, now undergoing repairs at the League Island yard, narrowly escaped destruction, the ammunition in the adjacent magazines being safely removed only through the exhibition of the greatest courage on the part of the officers and crew.

No damage resulted from the fire, which was caused by spontaneous combustion of coal. The work of removing the ammunition from the adjacent twelve-inch and six-inch guns was, according to the report, proceeded with quietness. The two magazines and the shell rooms became dangerously heated and were flooded to a depth of twenty inches. Lieutenant Commander Sticht directed the fire party, consisting of Gunner L. C. Hull and nine men, who entered the magazines and removed the ammunition. The six boxes nearest the bulkhead were so hot as to be handled with difficulty, while the bulkheads and thirteen-inch shells were so hot that they burned the hands and blistered the paint. The coal on fire was flooded and removed from the bunkers and the bulkheads and shells were sprayed with water until the temperature dropped to normal.

The following, who first entered the magazines, were recommended for bravery by the commanding officer: C. W. Leisegang, E. Rowe, C. Hartmick, J. L. Grattan, E. Linderman, E. J. Cross, C. Sheppard and L. Oster.

HARRIMAN'S EYES ON DENVER

Hughes Sends Man West to Watch Railroad Development in Colorado.

DENVER, Sept. 11.—E. H. Harriman has sent a personal representative here to watch the moves that are being made in this state looking toward railroad construction. It has been evident for some time that some interests have been at work planning large undertakings, but so quietly has the work been done that little information has reached the public.

In order to get the information at first and Mr. Harriman has sent K. H. Morey here to learn what is going on. Mr. Morey has been investigating rumors of a new railroad through the state, showing large undertakings, but so quietly has the work been done that little information has reached the public.

STEEL TRUST REACHING OUT

Deal Completed Whereby It Takes Interest in Allis-Chalmers Company.

MILWAUKEE, Wis., Sept. 11.—The Milwaukee Journal today prints a story regarding which it claims to have reliable information that Charles Allis, chairman of the executive, and Edward D. Adams of New York, chairman of the finance committee of the Allis-Chalmers company, will retire from their respective positions; that W. B. Ketchum, president of the American Steel Foundry company, will become chairman of the executive committee, and that Judge E. H. Gary, chairman of the board of directors of the United States Steel corporation, will head the board of directors of the Allis-Chalmers company and likewise the finance committee. It is explained that the Allis-Chalmers company has for some time been hampered by lack of sufficient capital to carry on its present enormous business, and the fact that Ketchum and Gary are both more actively and prominently identified with Allis-Chalmers means that the United States Steel corporation will in some measure add financial support to Allis-Chalmers.

HARMON ON RIGHT OF STATE

Former Attorney General Talks at Jamestown Exposition.

WOULD NOT LIMIT FORTUNES

Likes Idea that State May Take Care of Itself on All Great Questions of the Day.

NORFOLK, Va., Sept. 11.—Judson Harmon, former attorney general of the United States, speaking at the Ohio day celebration today, said, in part:

"The people of Ohio cherish still, as they always have done, the 'rights of sovereignty, freedom and independence,' as well as the membership in the union, thus the people of Ohio have gained these otherwise, but are none the less grateful for the precaution taken by Virginia, which would have given the state the right to care of itself, as she did."

They realize that for a people who have set out to govern themselves to look to some one else, no matter who, to govern them, is a denial of the very principle for which they are proud of the governor who when asked to take care of herself, as she did."

PROBABLE JEWISH MASSACRE

News Has Reached Roumania of Further Killing of Hebrews at Kishinev.

BRAILA, Roumania, Sept. 11.—News has reached here of another serious and atrocious anti-Jewish outbreak yesterday at Kishinev. It is estimated that no less than eighty Jews lost their lives in encounters with the infuriated populace. The Jewish quarter of Kishinev was attacked by organized bands of roughs, who looted houses and shops and ruthlessly killed or wounded all those who attempted to defend their property. The Jews are fleeing in a state of panic. Many of them, who made their way to the banks of the Bruth in the hope of finding protection in Roumania, were driven back by frontier guards.

GRODNO, Russia, Sept. 11.—Ex-Chief of Police Matsevitich of Belyorok, where the anti-Jewish outbreak occurred in June 1905, was mortally wounded by a terrorist here today. The attacker was captured.

IRKUTSK, Siberia, Sept. 11.—The chief of the secret police here, Gavriloff, was assassinated today.

JAP AMBASSADOR'S FAREWELL

Count Inouye Will Probably Be Replaced at Berlin by Viscount Aoki.

BERLIN, Sept. 11.—Count Inouye, the Japanese ambassador to Germany, has taken his farewell of the imperial chancellor, Prince Von Buelow, at Norderny, preparatory to returning to Japan. His successor has not yet been appointed, although it is asserted that Viscount Aoki, the ambassador of Japan at Washington, will be transferred here. Count Inouye's most notable diplomatic achievement while in Berlin probably was that of impressing the foreign office with the idea that Japan was willing that Germany should retain Kiaochow, the territory on the coast of China in 1898, because from the Japanese standpoint as long as Germany retains territorial interests in the far east she can be more easily dealt with after the Anglo-Japanese alliance expires.

CZAR'S YACHT IS AGROUND

Standard Fast on Rocks Off Coast of Finland, but in No Apparent Danger.

HANGO, Finland, Sept. 11.—The Russian imperial yacht Standard, with Emperor Nicholas and Empress Alexandra and their family aboard, is fast on the rocks off Hango point, on the coast west of this place. The yacht is apparently in no danger, as the emperor and his family remain on board.

The Standard ran upon the rocks, which were submerged at high tide, at 4:30 o'clock this afternoon and remained fast. A steam tugboat from Hango, on the Gulf of Finland, has arrived upon the scene and seven torpedo boats which have been escorting the imperial yacht on its tour in Finnish waters are standing by to render assistance if needed.
