DEMONSTRATIONS IN PARIS Commutation of Sentence of Murderer of Little Girl Arouses Great

Indignation.

PARIS, Sept. 16 .- The increasing indignation of the masses against the escape from the guillotine of Soleillant, known as the "Monstrous Violator and Murderer," whose sentence to death for the atroclous murder of a 12-year-old girl was commuted last week by President Fallieres to life imprisonment, was expressed today in a series of the most curious public manifestations that have occurred in France in the fact that several arrests were made, was almost entirely an orderly one. Many Fort Dodge will have a paper on the "Law women participated. Several thousand persons were engaged demonstrations at various points of the city, and especially large was the crowd in the Place St. Ambrose, near which lived little Marthe Erberding, the victim of Sole-Mant. The rage of the women of this district has been great since President Fallieres showed clemency to Soleillant. They nasembled this afternoon with their husbands and others of their sympathizers and were augmented in numbers by crowds of curious persons. Their orderty cries for justice were quickly changed to cries of 'Death to Soletilant," and "Down with Fallieres," as the procession led by a woman who carried a little girl on her shoulder with the purpose of indicating the object of the manifestation moved toward the Piace de la Republique. Soon the streets were choked by a vast mob and the police reserves were called to disperse it. The parade, however, assembled agam and several of the more violent demonstrators were

arrested. The entire question of crime will be taken up at the approaching session of Parliament, especially as Paris and other large cities are becoming alarmingly infested with another type of criminal known as the "Apache," who in the secluded sections almost daily maim and rob and sometimes murder their victims. Their weapon is always the knife, and gathering in bands they want only to stab pedestrians and frequently policemen merely for the sake Paris police, declared today that his force

Tax for State Fair.

The suggestion that the legislature help out the state fair in a more substantial way than usual is meeting with a considerable amount of discussion among the friends of the state fair. The suggestion was first made by the Burlington Hawkeye. It is probable now that the next legislature will be asked to provide a millage tax for a period of five years or so for the benefit of the state fair. The State university and State Agricultural college have each been given a millage tax of one-tenth the actual expenses of two delegates to the Stanton of the board of trustees and others of a mill. This was at first for a period of meetings of the league, it being generally closely associated with the matter that five years, but later was extended for five years more for the purpose of getting the permanent buildings provided, all the Iowa

institutions being now in the building stage The legislature has been rather niggardly toward the state fair and it has been accused of being not a state institution by some not informed on the law of the case. The law provides for the department of agriculture, which shall manage the state fair. The department of agriculture is managed by a board of directors, one from each congressional district elected by the state farmers' institute, which meets in the statehouse in January each year.

The fair has now several permanent buildings. There is one permanent brick horse barn and two permanent brick cattle barns. The profits from the fair will in a a long time. The demonstration, despite few years be sufficient to remove all the old sheds and build new stock barns of
