WON PENNANT BY WORKING HARD Franck Pleased With Past and Hope-

ful for Future.

"How did we win the pennant? Why, simply by playing the best ball all the time of which we were capable," was Manager Buck Franck's answer.

"Tes; we had a good team," added the plucky little Californian, "and that team worked hard. We didn't have any shirking. Say, did you ever see a team get through a season with as little Charley Horse, as little grouching and as much all-pull-together spirit? I never did. If you have, you have me beat. All the boys were willing and trying to do their best and there was none of this back-biting and sluffin, so fatal to a team's work.

"We had a hard fight. We met good competition. Every team in the league played good ball and it wasn't a sinch for any team until the end came. We expected to win the pennant because we felt that in certain ways we could put it on the citer boys a little. We tried to niav

any team until the end came. We expected to win the pennant because we felt that in certain ways we could put it on the other boys a little. We tried to play the inside game, which is the game, you will observe, all the leaders are playing. If you don't believe it, look, for instance, at the batting averages of the big leaguers as well as others. I believe just as President Rourke says, that the team playing the inside game and batting around .250 is belter than the team hitting .300 and over and omitting some of the finer points. We will repeat these same methods next season, adding experience to them.

"Well, now, you ask me if we will win the pennant next season. I'm no speculator. If you had asked me last April if we would win the pennant this year I'd have said. 'I hope so,' but not that we would, but I don't like to take such chances, publicly. We hope to win the pennant next year. We will have much the same team as this season and our younger men will be better because they will have the experience of this season to help them. Autrey and Ragan will be missed, of course, but we must lears to survive their loss.

R. Bender, the catcher and out fielder for Omabalin the Western and our fielder for Omahaim the Western league last year. Reader is the physical director of the Washington State college at Pullman, and left Sunday to resume his duties for the winter. He did not at first want to return least this summer and started to play with Spokane in the Northwest league at the close of school. Omaha is the meantime released him to Idacoln and there he thought of nothing but playing in Lincoln. The Lincoln management had Secretary Farrell stop his playing for Quinn. Bender then changed his name and immed here where he has blayed a heady game. He has batted 240, fielded 350 and leads the team in base stealing and bunting. bunting.

Iowa Falls Poot Ball Schedule.

Iowa Falls Ia, Sept. 16.—(Specisl.)
—Superintendent Heszlewood of the city schools has just announced the foot hall schedule for the high school team this season and it includes only one game at home. The other games will be piayed with high school teams in this part of the state, under an agreement made with other teams last season for return games. These return games include Hitmpton, Cedar Palls, Clarion, Eldora Industrial school and Webster City. Under the dictation of the school board only five games can be played this season. It is thought however, that practice with the Ellsworth college team may be arranged later. Iowa Falls Poot Ball Schedule.

NOTES ON OMAHA SOCIETY S.S.S. CURES

In no other disease is a thorough cleansing of the blood more necessary than in Contagious Blood Poison. The least particle of this insidious virus will multiply in the circulation and so thoroughly contaminate the blood that no part of the body will be exempt from the ravages of thin powerful disease. Usually the first symptom is a little sore or ulcer, insignificant in itself, but soon the blood becomes so contaminated that the mouth and throat ulcerate, glands in the groin swell, hair and eye-brows come out, coppercolored spots appear on the body, and frequently sores and ufcers break out on the flesh to humiliate the sufferer. S. S. S. cures Contagious Blood Poison by purifying the circulation. It attacks the disease in the right way by going down into the circulation, neutralizing and forcing out every particle of the poison, and making this fluid pure, fresh and health-sustaining. The improvement commences as soon as the patient gets under the influence of S. S., and continues until every trace of the disease is removed from the blood, and the sufferer completely restored to health. Not one particle of the poison is left for future out-breaks after S. S. S. has purged and purificative blood. Book on the home treatment of this disease and any medical advice desired free. THE SWIFT SPECIFIC CO., ATLANTA, GA.
