Whent Down in Absence of

the Outside Buying Orders.

OMAHA, September 18, 1907. All foreign markets strong and higher, and cables were extremely strong. The lomestics market was not acting well. There was lots of buil news, but prices

There was lots of buil news, but prices act heavy.
Wheat opened heavy and sluggish in spite of firm cables and plenty of buil news. The pit crowd was bearish and wers selling down wheat in absence of sutside buying orders. September wheat spened at 55% and closed at 57%c.
Corn ruled higher as a result of the atrong spot market and the firmness of all offerings. Crop news is favorable and growing conditions are of the best. September corn opened at 53%c and closed at 4%c. Gats opened steady and grew stronger or Cats opened steady and grew stronger or

CHICAGO GRAIN AND PROVISIONS

CHICAGO, Sept. 18 .- Crop damage reports from western Canada had a strengthening effect today on the local wheat market. At the close wheat for becember delivery showed a net gain of hc. Corn and oats were each a shade higher. Provisions were 2% 25c to 15c

ower.

The wheat market opened strong because of an advance at Liverpool, which was caused by small offerings of Manitoba and Argentine wheat. For a time trade was fairly active, but after the first hour the market dragged. A decline at Mindeapolis and Winnipeg shortly before noon caused a slump of almost lc. The market soon rallied, however, on reports of damage by weather in the Canadian northwest. The close was steady. December opened by wac higher, at 99% \$99% c, sold off to 98% \$99% c and closed at 99% c. Clearinces of wheat and flour were equal to 163,000 bushels, against 1,051,000 bushels on the same day last year. Minneapolis, Duluth and Chicago reported receipts of 101 cars, against 376 cars last week and 117 cars a year ago.

Corn was easy at the opening because of the same days as the opening because of the same days as the opening because

tion to Effect of Oil Hear-

ing - Close Slightly

Higher. NEW YORK, Sept. 18.—A large reduction in the outstanding short interest in the stock market was assigned as the principal cause for the languid subsidence in the brisk upward movement which was in evidence yesterday. It was considered significant of this condition that return was made of some large amounts of stocks which had been borrowed for delivery. The elimination of this requirement form the situation left the demand feeble and ineffective on prices.

the situation left the demand feeble and ineffective on prices.

The progress of the taking of evidence in the government suit to dissolve the Standard Oil company was of more influence on the market than yesterday. The progress of a new phase in the New York traction merger investigation with the coming return of important witnesses sharpened the attention to activities of this kind. Traders on the floor of the stock exchange drew unfavorable inferences from the selling of some very large blocks of United States steel, owing to an assumption that the personality of the sellers represented affiliation with important and well informed interests in the steel trade. The incident was decisive in ending the upward movement which deblocks of United States steel, owing to an assumption that the personality of the sellers represented affiliation with important and well informed interests in the steel trade. The incident was decisive in ending the upward movement which developed after the irregular opening in the market. Actual happenings with important bearing on values were few. The maintenance of the present dividend rate on New York Central was of favorable effect, although the previous fears of a cut have not been held for several days past. Good inferences also were drawn from the intimation that the number of stockholders in this company had doubled since the 1st of January last, although this was not accepted as assurance that this was a condition that would hold true of the railroad companies in general. The immediate feature of the money market is the large offerings of mercantile paper, the result being a stiff 7 per cent rate even for the prime grades, while names less well known are reported to be paying considerably higher rates, the call money also shows the effect of the payments making for the New York city 44 per cent bonds. Satisfaction was fell by some interested in the money market over the showing of the national banks as contained in the controller's compilation of reports of condition on August 22. On that date the proportion of legal reserve to deposits had arisen to 21.33 per cent, compared with 21.22 per cent on May 30, the date of the preceding call, and 20.70 per cent on September 4, the nearest corresponding date last year. The comparison with the near period shows an increase in specie and legal tender holdings of over \$10,000,000, and that with the more remote period an increase of \$77,600,600 individual deposits were \$3,544,700 less than in May and \$119,97,002 more than in September of last year, while the ioan account had expanded \$47,40,277 since May and \$379,600,602 in the yearly comparison. In the Item of "due from bankers and roserve agents," there has been decrease since May of \$68,339,825, reflecting t

advanced % per cent on call.

sale this morning, she stuff considerable proportion of the arrivals these days. The market was without any noteworthy change. Most sales looked just about steady with yesterday. There was a little more life to the trade than on some as yesterday so far as prices were con-cerned. Sellers as a rule figured that they secured about the same prices as yesterday and the general coarket was quoted as steady. Feeders are selling at least a quarter lower than a week ago and the break has brought the market down to a point that is more mark in line with buyers that quite a good many cattle have been going out into the country this week.

have been going out into the country this week.

SHEEP—Receipts of sheep yesterday proved considerably larger than estimated, the official count showing 22.53 head received. Today the receipts were disappointingly small, being only about half as large as yesterday. More than that, trains were late, so that when the market opened only about half of the estimated run was in sight. It was late before everything was in.

Feeder buyers were out in full force and they did not wait for late trains, but started in at once buying up everything in sight as fast as it could be put in shape to be shown. Moreover, they paid good strong prices. Five cars of feeder lambs sold on the opening to a feeder lambs sold on the opening to a feeder lambs sold on the fact that Chicago sent out opening telegrams indicating a lower market there the same as yeaterday did not have any apparent effect, everything selling early and much faster than it could be weighed. It was a good, strong and active market from start to finish.

There was no quotable change in the market for killers. The supply was far SHEEP—Receipts of sheep yesterday

a good, strong and active market from start to finish.

There was no quotable change in the market for killers. The supply was far from large and with a reasonably good demand steady prices were maintained.

One thing western sheep men must guard against and that is sending too many sheep or lambs to Chicago, especially at this time of the year, as Chicago does not have the feeder trade to take care of them. If too many are sent there the Chicago market breaks very easily and that has a naturally weakening effect upon the Omaha market.

Quotations on good to choice killers: Lambs, \$6.5097.40; yearling wethers, \$5.009 \$6.00; wethers, \$5.0095.60; ewess, \$4.1965.60.

No quotations are given on fair to good killers, as feeder buyers are taking practically everything of that description at better prices than packers will pay.

Quotations of feeders: Lambs, \$6.3097.15; yearlings, \$6.0096.60; wethers, \$3.0096.25; ewes, \$4.4094.65; yearling breeding ewes, \$5.0096.60, aged breeding ewes, \$5.0096.60.

ST. JOSEPH, Sept. 18.—Mrs. Thomas E. Marriott of Sandy City, Utah. was probably fatally injured in a collision of a Missouri Pacific passenger train and a Burlington switch sugine here today, Ralph S. Armour, a Philadelphia commercial traveler was seriously out about the legs, but will recover. Three other passengers were hurt, but not seriously.

BEST DOUGLAS COUNTY FAIR

Exhibits Being Collected Indicate Greatest Exhibit Yet Made.

CASH PRIZES LARGEST EVER

Building of Booths, Which Will Oc. cupy More than Unual Space on King's Highway, Now In Progress.

The building of booths by the Douglas

County Agricultural society on the carnival grounds for the fair is in progress All the space on Nineteenth street from Farnam to Douglas on both sides will be filled up with the various departments; farm products, green fruits, floral, textile canned goods, ceramic, fine arts, dairy poultry and miscellaneous exhibits. The live stock show will be provided for or Eighteenth street with a forty-foot frontage on Eighteenth and extending east and north, with a forty-foot frontage on Doug las street, thus giving a much larger and better exhibition space than was heretofore provided for this feature of display. The prospect is good for a fine display of everything in the line of farm products. The vine exhibit from the seed growing districts of Valley and Waterlo will be the best ever exhibited in the country. The corn show also promises to be one of the best in years. The corn wil be pretty well matured by September 26 and a big show is looked for in this as well as in all other varieties of farm crop and products of the soil.

Bright Prospects for Poultry.

The poultry exhibit has a promising out ook, both for number of fowls and quality of stock. Many members of the Tri-City Poultry club have indicated their willing ness to contribute in swelling the show with their high class exhibition stock The usually long list of contributors and the small boy with his buff cochin bantam and fan-tall pigeon are atready of deck to make entry and secure admission to the show. Any old rooster that has a fine feather left after his strenuous period of moulting is good enough for the boy whose ambition is to gain admission to the grounds, and have a shadow of protext for his claim.

In hogs and cattle, some of the bes state fair stock will be shown at the Douglas county fair. Douglas county is coming forward in the breeding of good herds of both cattle and hogs, and fanciers may be able to see some excellent specimens at Omaha this year.

The farm products department has doubled its cash prizes for precinct collective exhibits. This, it is believed, will bring out a large and better show than has ever been made by the county. The fruit show will be a surprise, in its variety and excellence in quality, notwith standing the frost damage and freezing of last spring, which destroyed the prospects for fruit in many orchards. The vegetable display that the gardeners will make will be equal to the best ever put up in the county. All other departments report a finer outlook for a successful

October 5. The live stock, including poultry, will not be received until Monday. September 30, and will be on the grounds five days. Premium lists and entry blanks can be had at the secretary's office, 601 Bee building or at Lewis Henderson's floral store, 1519 Farnam street.

ALONG THE RAILROAD RUN Wakeley Thinks South Dakota Will Not Reduce Passenger Rates Any Further.

A hearing of railroad officials was held before the South Dakota Railroad com mission Tuesday afternoon at which the passenger representatives of the roads were present to give their sides of the question as to whether passenger fares should be further reduced in South Dakota. The leg sisture prescribed a maximum rate of 24 cents a mile and the railroad commission has been ordered to classify the railroads to see which roads will be forced to make a reduction in rates and what reductions could be made within the prescribed maximum, L. W. Wakeley, general passenger agent of the Burlington, represented that road at the hearing and returned to Omaha Wednesday. Mr. Wakeley said that after the hearing the railroad men present felt the commission would not ofder any reduction under 2% cents a mile.

Medals for Employes. The Union Pacific is sending out medals to its employes who have won them by superior work during the year just past, These medals are of silver and gold with ball on which they are suspended. On the bar is put the year for which they are given and on the back are placed the recipients' names. The gold medals go to he best stations and the roadmasters' divisions. The silver medals are for the best pumping station and best section foreman on each roadmaster's division. Should an employe win a medal two years in succession another har is added at the top of the medal. Considerable pains are taken to see that these medals go to the most de-serving and to that end General Superintendent Park goes over the entire system with the division engineers and makes his selections from investigation.

Union Pacific Superintendents. Superintendents of the Union Pacific are in Omaha in consultation with General Superintendent Park. Those here are: A. P. McCoy, superitendent of the Colorado division; Superintendent Anderson of the Wyoming division and Superintendent Brinkerhoff of the Kansas division. General matters are being discussed.

Representatives of the locomotive en-gineers of the Union Pacific are holding their annual conference in Omaha during the present week. They called upon Mr. Park Wednesday morning but it is understood they had no grievance at this time, but simply paid the general superintendent a friendly visit
