BIGGER LEAGUE, LONGER SEASON Magnates May Discuss Admission of

Topeka and Wichita. While President O'Nell did not indicate in his letter to President Rourke the purpose or object of the meeting of the magnates called for Chicago next Monday, the belief in local base ball circles is that this meeting is primarily for the purpose of discussing the admission into the league of Wichita and Topeka of the Western association.

cuising the admission into the league of Wichita and Topeka of the Western association.

The admission of these two lively little kanasa cities is hailed with considerable anticipated joy of Omaha, and doubtless, it is apprehended, with complete gratification all over the cirucit. They are both good ball towns and are wild with the first They have been having sood teams and are ripe for faster company. That the league needs them or two other towns as good has been demonstrated all too nightly to a patient and long suffering base ball public. One popular feature of the addition of these towns to the curcuit that gives satisfaction is the fact it will not only enlarge the league, but afford a longer season. Eight teams necessarily must have a longer period of time in which to play out their schedules than six teams, and six teams necessarily cannot consume as much time as eight teams without prolonging the season beyond reasonable limit. The probabilities are, therefore, if these towns are taken in, and there seems no doubt of it now, the Western longue season will begin earlier next spring and end later in the fall.

S.S. BLOOD HUMORS

When the blood becomes infected with unhealthy humors the effect is shown on the skin in the form of pimples, rashes, eruptions, or some other type of skin disease. These humors circulating in the blood, come in contact with the delicate tissues and fibres of the skin and produce irritation and inflammation, and often excessive itching and burning. Trying to cure skin troubles with external applications is treating the effect instead of the cause. Such treatment perhaps allays some of the itching and discomfort, but does not reach the blood where the real source of troubles lies. A thorough cleansing of the blood is the only cure for humors in the blood. S. S. S., a gentle acting, safe blood purifier, is the proper treatment. It goes down into the circulation and neutralizes the humors and removes them from the blood. S. S. S. supplies the blood with the fresh, healthy properties necessary to sustain the skin and keep it free from disease. S. S. S. cures Eczema, Tetter, Acue, Salt Rheum, pimples, boils, rashes, and all other skin affections and diseases. because it purifies the blood and removes the humors which are removable for the trouble. humors which are responsible for the trouble. INTERPRETATION OF GAME LAWS

ruction of Officials May Interes

Men Who Shoot. The game wardens interpret the state law to read that a person is allowed to have ten chickens or fifty ducks, but not ten chickens and ducks, rather ten chickens and forty ducks. Chickens are very scarce in the hills and the dry weather has made it almost impossible for the dogs to find the scattered birds, which have not begun to filock.

scattered birds, which have not begun to filock.

A man with a nonresident license coming into the state is only supposed to come into the state is only supposed to come into the state and take out the birds permitted under his license. The number of birds are supposed to be endorsed on the back of the license and a man can only take that number of birds from the state, it is the custom for these hunters to come to Omaha with their birds and cross the river without having the number endorsed. Deputy Game Warden Pierson confiscated five prairie chickens Thursday night, which were being shipped from Bonesteel, S. D., to Mrs. William Blatt at Nebraska City. The chickens came to Omaha via American Express and were transferred to the Adams Express at Omaha for Nebraska City. Mr. Pierson telephoned to Frank Nicholson, deputy game warden at Nebraska City to investigate the case and find who the shipper was.

Foot ball practice is starting out with a good spirit and Omaha may see some good games after all. When it is announced that several of the leading alumni of the Omaha High school are out daily to assist in the practice, it is a good indication for a winning team and one which will be a credit to the institution.

McGraw is determined on recruiting the Giants with young blood. He points to the Cubs as an illustration of this need in New York. The old players, he says, are losing base hits from a foot to a yard. Again, the Cubs start in at the first of a game to win it, and the old boys take it

Washington sporting writers figure that Cantillon will have a team 250 per cent stronger next year than this year's team is. The outfield will be Ganley. Jones and Clymer. Ed Grillo, in the Post, looking over the ground, says: "Freeman, Delegant hanty, McBride and O'Brien are a strong quarter. McBride is not a great hitter, but his field work has ever been sensational. O'Brien is not so great a fielder as Schipke, but he is a hard hitter and aggressive. Schipke would make a great utility man if no other changes in the taffeld are made."
