# FACTS ABOUT PE-RU-NA.

Is There Any Scientific Basis For The Claim That Peruna **Prevents Infective Diseases?** 

It is during the months of September and October that some of the most infective diseases are at their height. Malaria and the infectious fevers of autumn find these months especially favorable to the growth and propagation of their deadly germs. Why is it September and October are the months when such diseases flourish?

## Contaminated Drinking Water.

There are two reasons. First, the air and drinking water and food are especially contaminated during these months by the germs that give rise to such diseases. Whether the disease germs are the cause or simply a concom ant occurrence is a matter that need not be discussed here. But the fact

that a superabundance of these germs is always accompanied by an epidemic of the diseases shows that there is some relation between them, that when one is present the other always appears. There is no way known to man yet by which the germs of these diseases can be entirely avoided. Sanitary science is gradually doing away with them

partly, but still they remain in great numbers. EVERY PERSON IS EX-POSED TO THEM CONSTANTLY. The germs of infectious disease are about us everywhere, but only certain

people succumb to their baneful influence.

This brings us to consider the second reason why September and October are the especial seasons for epidemics. The fact that everybody is exposed to the germs of disease and yet comparatively few contract the disease shows beyoud doubt that there must be some special reason why one person gets the disease and the other does not.

The skin, when unbroken, protects the outside of the body from disease germs, but it is well known that a raw surface or an open wound disables the skin from protecting the interior of the body, and disease germs may enter on

### Diseased Mucous Membranes.

THE MUCOUS MEMBRANES. when they are healthy, PROTECT THE INSIDE of the body from disease germs. But the slightest abrasion of the mucous membranes, or derangement of the mucous membranes by chronic catarrh, renders these membranes powerless to protect the body from

disease germs. Hence they enter through the mucous membranes of the stomach, of the lungs, the intestines, accumulate in the blood in great numbers, and set up infective diseases that may prove fatal. Since we cannot protect ourselves entirely from the presence of disease

germs, the only thing that remains for us to do is to KEEP THE SKIN AND MUCOUS MEMBRANES INTACT so that the disease germs cannot reach the blood, even though they assail us from within and without. This explains how it is that Peruna may be regarded as a preventive to

these diseases, and suggests that it should be taken during the months when they are prevalent. Peruna has thoroughly established itself as a catarrh remedy. Many

thousands of people have taken Peruna for chronic catarrh, and found themselves completely restored. Sometimes the catarrh is in the stomach. Other times in the throat and lungs. Sometimes in the intestinal tract. Peruna seems to act as a restorative

in all these different forms of catarrh, and thus produces healthy mucous mem-Even if disease germs do enter the stomach and lungs, the healthy mucous membranes tend to protect the blood from their encroachments. This is

the claim made for Peruna, and the claim is based on science and experience. Pathologists have been aware for many years that A HEALTHY SKIN AND MUCOUS MEMBRANE CONSTITUTE PROTECTION AGAINST IN-FECTIVE DISEASES. This is a well established scientific fact.

The experience of thousands of people in all parts of the civilized world has established the fact beyond dispute that the USE OF PERUNA DOES RESTORE THE MUCOUS MEMBRANES to perfect health, and thus protects the body from disease germs.

## PRIZES FOR BEST WINDOWS

Awards Will Be Made by the Horse Show.

INTEREST IS ALREADY KINDLED

Thousands of the Same Little Buttonhole Bows as Worn Before Have Been Ordered for Distribution.

The Omaha Horse Show association has announced that it will offer the usual prizes for the best window decorations, the windows to be unveiled at least eight days before the start of the show. The windows must be decorated in some way to suggest the fourth annual Omaha Horse Show, which is to be held October 14 to 19. Quite a little rivalry was evident last year among the leading merchants. They vied with each other in the expenditure of much time and effort, as well as no inconsiderable amount of money in order to obtain the honor of having the best decorated window in Omaha. This year the prizes will be awarded as follows:

First Prize-Eight-seat box for the entire and Prize-Six-seat box for the entire Third Prize—Four-seat box for the entire

season.

Fourth Prize-Two season tickets.

Fifth Prize-Two season tickets.

Fifth Prize-Two season tickets. Sixth Prize-One season ticket. Many of the merchants are already making plans on a more liberal scale than heretofore, and it is expected the citizens of Omaha will see efforts in this line that will make the windows nothing short of marvelous. A fair and impartial committee will pass upon the merits of the windows previous to the show.

Same Small Buttonhole Bows. The small buttonhole bows which were seen in such profusion last year here will again be in evidence next week. Several thousand have been ordered and it is expected this amount will not last long. The posters are on the way and some new ideas will be seen along this line. There is a speejal opportunity for Omaha to draw on the large stables this year for high class horses. There is no lack of interest and enthusiasm even at this early date.

The inquiries for premium lists have been pouring in from all quarters of the United States and Canada. The first inquiry was from Indianapolis, Ind.; in the next mail came requests from Oregon, Colorado, California, Illinois, New Jersey and Georgia. Following soon after this came requests from Winnipeg and Alberta, Canada. Judging by the present interest, we will have even a better show than last year. It is the intention of the officers to produce some new and startling innovations pertaining to this fourth annual Horse Show.

OMAHA HORSE SHOW KNOWN FAR Attracts Wide Attention and Elicits

Words of Praise. That Omaha is already getting a goodly supply of advertising from its Horse Show is shown by the numerous press notices all the eastern papers are giving it. It is leoked upon as quite a wonder that Omaha should stand alone of all the western cities which is able to give a horse show this fall when all other towns are falling down on the enterprise. The directors of the Omaha association could see no reason for laying off for a year, because Omaha and the country surrounding was never as

prosperous as this year. In addition to printing the prize list of the Omaha show in full, Bit and Spur, the leading horse show paper of the country, gives the Omaha show this notice: The Omaha association deserves the highest credit for carrying out its plans to give its show, the enterprise being no light one in the face of the fact of the failure of the other shows to follow suit as in years past. This being the case, the exhibitor who is entering his horses at all this season should encourage this broad-gauge aspast. This being the case, the exhibitor who is entering his horses at all this season should encourage this broad-gauge association to build up its show and at the same time avail himself of the opportunity of competing for the liberal purses put up. Eleven thousand dollars in prizes are distributed among seventy-nine classes. Eleven thousand dollars in prizes are distributed among seventy-nine classes. Eleven thousand dollars in prizes are distributed among seventy-nine classes. I have compiled the following table of raics on wheat, selecting twenty-two recreasents the raics on wheat and corn in this state compare with the many documents, which he left in his will to me, and which must, of necessity. I have compiled the following table of raics on wheat, selecting twenty-two recreasents the spirit of my husband's tive towns on the Burlington and Union Pacific lipes in Nebraska. The first column represents the raics in force prior to July is another factor in its favor, and the directorate of the show has won the reputation, all too rare in these days, of giving a clean, square show, without fear or favoritism.

The Complex the Missourt of the Lipin Pacific's Kansas tariff, the left in his will to me, and which must, of necessity, be the guide to the author who will be entrusted with the work, which will be in harmony with the spirit of my husband's will. I may further state that, without necessate the alderich law, the third is a 10 per cent reduction from the Aldrich law as contemplated by the railway commission, the fourth is the Union Pacific's Kansas tariff, the lifth the Iowa rates, the sixth are the

voritism.

The Omaha show follows the Missouri state fair—a fact which all saddle and harness horse exhibitors at the latter should take into account; while the decision of Chicago to have a horse show the week of October 8, following Louisville, puts Omaha right in line to handle the horses shipping from Louisville to Chicago, where it is but a short night's run to the Nebraska city.

The Omaha show follows the Missouri the fifth the Iowa rates, the sixth are the Illinois rates, the seventh the Arkansas cotton seed rates.

For the purpose of showing how these different tariffs average I have computed the freight on twenty-two cars of 30.000 pounds each, one car from each station.

The classification is very complete and a perusal of the premiums offered shows that they are exceedingly liberal. Thirty-six classes are devoted to heavy harness horses, and the exhibitor with a small string of leather wearers has a magnificent opportunity to coin money. Harness and saidle ponies, three and five-gaited saddle horses, cobs, combination horses, hunters, jumpers, commercial horses, two sales classes and a class for cow ponies make up a most comprehensive classification. Local classes are liberally provided for, and there is very little plate offered-very nice in its way, but, as one practical exhibitor puts it. "Plate doesn't pay feed bills." Heduced rates will take effect on all rallroads for this event, and anyone who has ever exhibited at Omaha will tell you that the people who run the show are The classification is very complete and a

The executive committee is made up of E. P. Peck. T. G. McPherson, R. C. Howe, F. S. Cowgil, Thomas C. Bryne, Arthur C. Smith, F. A. Nash and Affred Darlow, George Wilkins of Chicago will manage the show. Red and white will be the official colors and the Auditorium will be lavishly decorated for the week.

Entries close October 1 and should be addressed to Secretary Harley G. Morehead, 412 New York Life building, Omaha, who will supply full information not made clear already.

Loaded Grandstand Collapses.

Le PASO. Tex. Sept. 21.—A special to the Herald from Dalhart, Tex. says: While a base ball game was being played at the Dalhart county fair here yesterday the grandstand, crowded with 1,00 spectators, collapsed. Fifteen persons were injured. All of them probably will recover. The most seriously hurt were Mrs. J. D. Howard and Mrs. Harry Wright.

If you have anything to trade advertise it in the For Exchange columns of The Van Etten in Self Derense.

OMAHA, Sept. 29.-To the Editor of The Bee: The article in your paper entitled "Van Etten Renews the Fight," while in itself it may be said to be true, yet it eaves me in the attitude of being a knave or a fool, masmuch as it does not state the whole truth. There should have been incorporated in it the facts that Van Etten alleges that this land conveyed to Mrs. Leavitt by the sheriff was not the land taxed and sold for delinquent taxes, was not the land foreclosed on, as shown by the specific description in plaintiff's petition in the action, as the land sold for alleged delinquent taxes, nor at any time so claimed; nor yet was it the land which the decree gave as the land its judgment was a lien on. Yet this sale of other land to satisfy this alleged decree was confirmed, affirmed and rehearing denied, all of which is illegal and unconstitutional (in violation of the laws and constitution of Nebrasks, the laws
