SUIT OVER INDIAN HEAD SETTLED

The suit brought by Frank A. Rinehart, the Omaha photographer, against the Growers' Canning company of Council Bluffs for an alleged infringement of his copyrighted pictures of Indian chiefs was settled and dismissed in the United States court yesterday morning. The defendant company pays Mr. Rinehart a certain sum, while he concedes it the right to use the picture on its labels. The costs were equally divided between the plaintiff and defend-

ant. The label of the Pottawattamie brand of goods canned by the Growers' Canning company bears on it the head of an Indian. which Mr. Rinehart claimed was a copy of one of his copyrighted pictures. On behalf of the Growers' Canning company it was stated that if there was a similarity between the pictures the company had not been aware of it and had made no wilful attempt to infringe upon Mr. Rinehart's

Butterfield, lots This channel will obviate the necessity of a bridge and will drain a considerable section of land. For the right-of-way for the channel the board contracted to purchase five acres from Mrs. Maria Gilmore at \$100 an acre. The channel or ditch will be known as the Gilmore cut-off.

The report of Seth Dean, engineer in charge of construction, showed that excellent work is being done on the big ditches.

Work on the Willow creek ditch has been stopped, construction having been completed as far as it was deemed prudent to go at this time. Connection, however, has not been made with the Boyer. The big dredge on the Boyer No. 2, with which the contractors had so much trouble, is now doing splendid work and this month's estimate, Engineer Dean reports, will be second cubic yards.

The time for the completion of the Allen and Willow creek ditches was extended to October 21, by which time the contractors say the Allen ditch will be completed. The time for the completion of the Boyer ditch has been extended to December 31.

S.S. S. RIDS THE SYSTEM OF MALARIA

We breathe the germs and microbes of Malaria into our lungs and they are soon absorbed into the blood and distributed to all parts of the system. Then we begin to feel "out of sorts," no appetite or energy, dull headaches, a tired, sleepy feeling, and often "dumb chills" and slight fever show that this insidious disease is affecting the entire health. As the trouble progresses and the blood becomes more deeply polluted, boils and abscesses, sores and ulcers or brown splotches appear on the skin. As Malaria is a blood disease, to cure it requires a blood purifier, and S. S. S. is recognized as the best of blood purifiers. S. S. S. destroys the germs with which the blood is loaded and rids the system of Malaria. It goes down into the circulation and attacks the disease in the right way by removing every vestige of the cause and building up the blood from a weak, watery, germ-infected stream to a rich, healthful fluid, nourishing and vitalizing every part of the body by its purity. S. S. S. tones up every part of the system by its fine tonic effects, and being made entirely of healing, cleansing roots, herbs and barks it is an absolutely safe remedy for young or old.
