WASHINGTON, Sept. 22,-(Special.) Orders were issued this week by the navy department to commandants of government shippards and naval training stations to prepare all available sailormen to join the Atlantic fleet, which sails in December for the Pacific. I say, therefore, let the fleet sail and God speed it on its mission of peace."

### MISSOURI IS GROWING DRY Almost Half the Counties Have Now Voted Against the Saloon.

KANSAS CITY, Mo., Sept. 22.-Rev. Albert Bushnell, superintendent of the Anti-Saloon league for the Kansas City district, said yesterday that in his estimation it would be only a few weeks until Missouri would be half prohibition. "There are 114 countles in the state and forty-seven of them have voted against the saloon. Only ten more dry elections are needed to make the 'wet' and 'dry' sides equal. There have been eight counties made prohibition territory within the last week. There will be several more elections in the next few

weeks, and it looks good for the antisaloon people." At the beginning of 1905 Missouri had three prohibition counties. The local option move has been shown to be a gradual movement, with the general recent reform move as its chief stimulant. The Missouri Anti-Saloon league has kept workers in many counties and through its influence several "dry" elections may have been brought about.

That a few dollars may secure to all bird posterity a full acre of home and breeding ground, carefully patroled by Audubon wardens, is an idea that is appealing to friends of American wild life all over the country. ## Breed and Rayer Busy.

Doc Breed, manager of the concessions, and Harry Raver, manager of the shows, had a busy time Sunday locating the differnumber of cashlers, returning to remind out shows and concessionaires as they appeared on the scene. Although the fun does not start until Wednesday, the showmer were raised by a young boy in Minnesota, have learned that Omnia is worth while and that it pays to be on the ground early, even rency which passed for \$10 bills, at the though the greater part of a week is lost. The beautiful Bagdad show of Barnaby them he altered for Uncle Sam Mr. Gallaher & Raver is being pushed and the girls rehas never been able to learn, but as a re- hearsed Sunday at the Auditorium. This suit of the skilful work there are some is no common outdoor attraction, but a big musical comedy, put on with just as much care as though it was to go into the theater, where it has been played many times. Manager Breed is trying the experiment

this season of not booking a carnival company, but has scoured the country for the independent shows in the business, with the result that there will be no weakshows, or shows simply to fill in, that each CHOIR UNDER BUTLER owner and manager of a show will vie with Torrey Singers, Leader and Books to his show a feature show of the carnival. The King's Highway is known all over the broad land, as some of the big shows have done the largest business of their careers The State Christian Endeavor society right here in Omaha, and with this reputation Manager Breed had little difficulty in securing the best to be had in any part of the country. He has secured Harry Raver to manage the shows. Mr. Raver was in Omaha last year as the manager of the Parker show, but since that time has gone into the business of manufacturing merry-go-rounds and other carnival attract tions for sale. He is taking his vacation by coming to Omaha to manage the shows on the King's Highway for the Board of

Governors. Electric Linhts Tested.

Sunday was a busy day for the electric light employes, for it is no easy task to prepare the city of Omaha for the fall festival. Sunday night the street illuminations were tested as far as they are in place. The high canopies along the main thoroughfares presented a beautiful appearance and this new idea, which is being NEWS OF THE ARMY CIRCLE worked out, will meet with the hearty approval of all. The telephone and telegraph poles were cut away two years ago and consequently last year the Bluminations fell short, as there were no poles from which to string the lights. This year the lights are strung from the tops of the buildings. That is, wires are strung from there to hold the festoons and canopies which line the streets.

Railroads are making extraordinary preparations for handling the crowds which are sure to come to the celebration of Ak-Sar-Ben the Thirteenth. While some feared the attendance might fall away because of the fallure of the reads to put in the reduced fares, the experience of the state state fair was that nearly as many people attended as last year, which was the banner year in the history of the fair. There is no reason why Omaha should not draw as well with its added attractions. None of the popular features of last year's show are omitted, but several new ideas have

been worked out Little has been said of the balloon race, which is scheduled for each day, but the balloons are all ready and the race will be

run each afternoon of the carnival. Omaha merchante, always alive to their best interests and those of the city, are right in line with every move the Board of Governors has made and the united efforts of the people of Omaha will be used in furnishing the proper kind of entertainment for the visitors.
