### AK-SAR-BEN COLORS UNFURLED

**Society Women Are Faithful to the Great King of Queens in Their Various Season-End Functions.**

Thursday has been far from a stupid day socially, both the Happy Hollow and the Field club have been very successful, and this being the time of the year when Ak-Sar-Ben festivities are at their height, many of the table decorations were suggestive of this, being trimmed in red, green and yellow.

One of the largest luncheons at the Happy Hollow club was given by Mrs. D. F. Sweeney and Mrs. Elizabeth Goodrich. A basket tied with a white tulle bow and filled with white asters, combined with apparatus ferns, made a pretty centerpiece for the table and the plate cards were white, designed with the initials of both of the hostesses in green. All three of the Omaha high school men who went to Anherst this fall have joined fraternities. Mr. John McCague has been pledged to Chi Psi, Mr. Prentiss Lord to Delta Kappa Epsilon and Mr. Carroll Bidgen to Beta Theta Pi.

**Coming Events.**  
Mrs. Phil McMullen entertained at dinner Thursday evening at her home in honor of her husband's birthday. The table was decorated in the Ak-Sar-Ben colors and covers were laid for eight guests.

**Pearly-Howell Wedding.**  
On Wednesday evening at 8 o'clock, Miss Nadine Purdy and Mr. Walter B. Howell, both of Lovell, Ia., were married at the home of the bride's aunt, Mrs. Delaina Morse, in the presence of a few friends and relatives, by Rev. Frank L. Loveland of the First Methodist church. The young people will be at home at Lovell, Ia.

The Women's Christian Temperance union held an educational meeting at the Young Women's Christian association rooms Wednesday afternoon. Reports from the delegates to the county convention were received and a parliamentary drill was given by Mrs. A. K. Gault, which was enjoyed by all present.

**How to Tell Cut Glass.**  
This valuable note was given by a man working in one of the best known glass houses in the east: "Many women have beautiful pieces of glassware which they think genuine cut glass, yet there are many hundreds of pieces which are only clever imitations, and there is only one known means whereby even an expert can detect the genuine from the imitation. If you will move your fingers along the inside of a piece of cut glass, you will observe that the surface is perfectly smooth, while little indentations will be found in the blown glass. This is caused by the shrinkage of the glass after the pieces are blown. The roughness is noticeable from looks, but the slight indentations over the surface. Heavy glass and glass with cut edges are no indication of the ware being genuine cut glass, for it is now possible to blow glass several inches thick, while the deceptive cut edge is done with powerful chemicals. In purchasing any cut glass, if you will remember to carefully examine the inside as herein mentioned, you can satisfy yourself that you are not paying for something which is not genuine, and there are more imitations on the market than one might suppose."

### FRENCH MODELS KEPT SECRET

**New Designs for Winter that Will Be Illustrated Later in the Season.**  
We have been viewing quantities of French models which will not be publicly displayed before October and of some which we are under bond not to produce sketches until nearer the time of their public appearance. There is no taboo upon talk concerning these creations, however, and of many of them we already have pictures.

Naturally the most reserved models offer the most tempting topic, and when one embarks enthusiastically upon this theme one begins, as we have begun, with the name of Paquin. Never was this master's power more conclusively demonstrated than it has been this fall. It is he who has had the last word concerning sleeve, skirt and coat.

Calot Seuers have produced the most superb ermine cloak of the season. Doucet has a chinchilla model which has set the fashion world murmuring praise. Beer and Francis have, each in his sphere, created models rousing profound enthusiasm; but Paquin's moves were anxiously watched by all these artists, and one of the greatest of the group on the day before Paquin's first display of new models said frankly with a shrug of his expressive shoulders: "We have had our guesses. Yes; but if tomorrow Paquin says 'No' I shall change; Voila tout!"

Luckily, Paquin has not said "No" to the short and three-quarter length sleeves to which earlier guessers gave their votes. There has been tremendous excitement in Paris over the sleeve question—excitement so considerable that we shall tell the story in a chapter all its own—and American fashion journals have been full of assertions that the short sleeve was to go, but the more conservative prophecy has been justified.

As we have said before, the long, close sleeves in coat form or in mousquetaire transparent guise is with us and will be seen throughout the winter, but for dressy bodices the short sleeve will prevail, the transparent mitten sleeve being an exception rather than the rule, and a majority of the very dressy coats are to be made with three-quarter sleeves.

**Uses for Soda.**  
A weak solution of soda will revive the color in a dusty carpet.  
Keep flowers fresh by putting a pinch of soda in the water.  
Add a little soda to the water when boiling out enamel saucepans, and it will help a cleaning.

A spoonful of soda added to the water in which dishcloths are washed will keep them a good color and sweeten them.  
One large teaspoonful of sal-soda will bleach a kettleful of clothes.  
Hair brushes need a weekly cleaning; for this purpose add one tablespoonful of soda to quart of hot water, dip the brushes into the back into this and shake well, until perfectly clean. Rinse and stand on edge to dry, says an exchange.

When the waste pipe is clogged with grease pour down a gallon of boiling water in which has been dissolved a cupful of soda. Repeat this until all of the impurities are removed.  
In cooking gooseberries add a pinch of soda, size of a pea, to each quart of fruit, and less sugar will be required to sweeten it.  
Add a teaspoonful of soda to the water in which you wash silver.

Before using glass fruit jars the second time, wash with soda water and rinse in order to sweeten them.  
Dampen soda and apply when bitten by any poisonous insect.

**An Odd Salad.**  
Arrange the usual bed of lettuce. Cook three frankfurters unseasoned for a few minutes in boiling water. Chill these and cut into very thin slices. Slice four medium-sized cold potatoes and one small white onion, half a dozen firm pickles and stir this mixture lightly with four tablespoons of French dressing. Serve on the bed of lettuce leaves.

### BOTH PEACE AND PROSPERITY

**No Trouble and Higher Salaries for the Machinists, Says Sam Grace.**  
San Grace, business agent and secretary of the district lodge of the International Association of Machinists, which comprises all the machinists on the Union Pacific, is back from a meeting of the executive committee of the district at Los Angeles and the board of directors of the international association at St. Louis.

"We are able to report peace as a general proposition," said Mr. Grace. "The talk that would trouble within the Union Pacific shops would follow our Los Angeles meeting was all hush, just as the Bee said at the time, and we have no other disturbing news so far as we know. Things are quietest on the Union and Southern Pacifics and the Great Western and Hill roads do not threaten such great difficulty."

"At the international meeting in St. Louis we found it advisable to make a general increase of salaries, beginning with that of President O'Connell, who has served well and long the association. In view of the general increase in the cost of living, we decided it nothing more than right and just that our officials should be given more money."

**Bonnet's Extract of Vanilla** is the standard everywhere. At best grocers, prepared.

### HORSEMEN LOOK TO OMAHA

**Outsiders Are Taking Lively Interest in Gate City.**

### GOOD STABLES SURE TO COME

Lawrence Jones, Vanderbilts, Watson Pepper, Crow & Murray and Cadahy's Jumpers Are Looked For.

Inquiries for the Horse Show prize lists and letters to the secretary are coming in at such a rapid rate that there is no longer any doubt of the intense interest the outside world is taking in the Omaha Horse Show. While none of the larger foreign stables has as yet sent in its entries, many have made numerous inquiries and exchanged considerable correspondence with the directors, so that it is practically assured a large number of these will be on hand. In fact the outside interest seems to be larger than in any previous year, for the reputation of the Omaha Horse Show has gone broadcast over the land. Lawrence Jones, the Vanderbilts, Watson Pepper and Crow & Murray may all be expected to enter, for they are all making preliminary inquiries.

The Louisville Horse Show opens next Monday, and the week after the South Shore Country club will give an outdoor horse show, and the week after comes Omaha. As the Chicago show will be quite a society event, it is certain to attract many of the larger stables, and, as there is no other show except Omaha until the New York show four weeks later, the Omaha directors hope the Vanderbilts will see their way clear to come to the Omaha show.

### Crack Jumpers Will Come.

Miss Loula Long of Kansas City will enter her stable and will ride and drive her own horses. This is the first Kansas City entry assured and many more are expected, as there will be no show at Kansas City until the horsemen of that city may exhibit. Frank L. Dant of Lebanon, Ky., will enter his crack saddler, Ashland Maid. This horse has been winning the blue ribbons all over the country.

The first installment of the little red and white label buttons has arrived and many more will soon be along, and then the town will be flooded with horse show colors. While the merchants of Omaha will have their windows decorated with Ak-Sar-Ben colors for the next week, decorators are already at work on the new designs for the horse show windows. The colors of red and white make beautiful decorations, and the competition for the prizes offered by the directors is keen. Two years ago Mr. Collins won for the Bennett company, and the Bennett company won for the Bennett company.

Now to all the people of Omaha through the Bee want columns. That's the cheapest, quickest and best way to get at all the people who will be in a position to fill your wants. If you want to buy a new house or rent an old shop, if you want a \$1 errand boy or a \$25 position, try a Bee want ad. The Bee's want columns disseminate all wants.

### GOELET HEARS CALL OF WILD

**Union Pacific Magnate Admits East Is Placed for Finances Just Now.**

Robert W. Goelet of New York director of the Union Pacific and millionaire passed through Omaha on the Overland Limited Thursday morning. He was met at the station by T. M. Orr, assistant to Vice President Mohler.

A man of medium height and built on broad lines physically is Mr. Goelet, scion of a noted house of financiers. He wore a loose fitting blue serge suit. His complexion is rosy and he has a moustache, a sandy moustache, whose long ends are curled into two complete circles like a little pig's tail.

Mr. Goelet is an affable gentleman. He smiles much and laughs frequently. He is on his way to the west, where he will spend a few weeks hunting.

"Yes," he said, "in the east we hear the 'call of the wild' every year when the frost is on the pumpkin and the fodder in the shock, as you would say out here. I love to get out on the mountains and in the uninhabited wilds, far from the madding crowd and the busy marts of men and commune with nature and also have a little sport hunting the wild game."

### SCARED BY TRUE GHOSTS

**Fellow Is Sent to the Woods by the Appearance of Genuine Apparition.**

True ghosts sent Charles Bush to the woods at Thirteenth and William streets Wednesday night, despite the efforts of a large silver mounted posse, which he wore at his throat to keep off the hoodoo.

"Them's what sent me there," he pleaded in police court. "Them's what done it, and nothin' else what is, as I never drink a drop."

Crouched in the weeds on his hands and knees, Bush was picked up by the police, while apparently undergoing the process of changing the color of his skin. Still scared white, when the colored man with the hoodoo arrived at the station and protesting the ghosts had followed the wagon, the deaf sergeant was about to enter him as a white man on the big register, when he looked at the woolly head and made it "colored."

### TUKEYS CLEARLY VINDICATED

**Sell Property to F. J. Burkley for Twenty-Five Thousand.**

### PREDICTED INCREASE IN PRICE

**Burkley Pays Twenty-Five Thousand Dollars for Lot and Brick Building Next to His Old Property.**

Frank J. Burkley has bought for \$25,000 the lot and brick building at the southwest corner of Fifteenth and Jackson streets. The property belonged to the First National bank and the sale was made through A. P. Tukey & Son.

The lot is 66x132 feet and is covered by a three-story brick building, occupied partly by the Roberts Printing company and used for office storage purposes. Mr. Burkley owns the next building to the west, that occupied by the Kimball laundry. He owns numerous other properties in the neighborhood, having made several purchases there within the last year or two.

One of his largest recent acquisitions is the Linton block at Thirteenth and Mason streets, for which he paid \$27,500.

Last Sunday A. P. Tukey & Son advertised the property just sold in a list of properties on which they prophesied a big advance in value by spring. The firm was criticized for attempting to say what given pieces of property would do, but the recent sale indicates there are believers in their forecast.

One hundred and sixty acres of the old Hills farm in the northwest corner of Douglas county has been sold by Ora Anderson to Neil Anderson for \$15,000.

**Creamery Company Buys Lots.**  
George W. Sumner of the Fairmont Creamery company has bought through George & Co. for \$2,600 two lots at the southwest corner of Forty-eighth and Cass streets. In the spring he will build a house costing \$7,000 or \$8,000.

The same firm has sold to Louis Concini for \$2,500 the residence at 1129 South Twenty-eighth street.  
G. L. Bedford, who lives in another city, will move to Omaha. He has bought from Payne, Botwick & Co. a site for a residence at Forty-third and Douglas streets.  
Harry Ruess has bought the ten-room residence with ground 32x12 feet, at the southeast corner of Twenty-first and Burt streets. The consideration being \$7,250. Robertson & Wolf made the sale.  
The same firm sold to G. Berman for \$2,500 the store building at 293 Lake street formerly owned by an eastern life insurance company. Mr. Berman will conduct a grocery store.  
Dr. A. S. Pinto has let the contract to J. Oehlertree for a \$4,000 residence at 2508 Charles street.  
James C. Hutson has bought a \$4,000 residence at the southwest corner of Eighteenth and Emmet streets.

### PUSH GOULD LINE TO COAST

**Eight Thousand Men Labor to Complete It by Next Year's End.**

Forty steam shovel men, 6377 laborers, 50 teamsters, 801 track layers and ballast men and 450 men in the engineer's department, a total of 8,288 men, are now employed in the building of the Western Pacific, the new Gould line from Salt Lake to the Pacific coast.

Trucking in western California has been in progress for some time and is being pushed with vigor between Stockton and Sacramento. A trucking machine is being used on this work, which, with the aid of from thirty to 100 men, is able to lay from 400 feet to a mile per day. The total length of the line is 930 miles and there are to be seventy-five bridges varying in length from 150 feet to 1,600 feet. The Humboldt river will be crossed thirty-three times and the bridges make an aggregate length of nearly three miles, requiring nearly 30,000 tons of structural steel.

An immense amount of tunnel work is also encountered and between Salt Lake and San Francisco there will be fifty-nine tunnels of an aggregate length of nearly ten miles.

It is expected to have this line in operation by Christmas, 1908.

### DOESN'T KNOW HER FATHER

**Eva Tarrant Fails to Recognize Man Who Would Take Her from Mother.**

Although she has lived within thirty-five miles of her father for the greater part of ten years, Eva Tarrant did not know him when they were brought face to face in Judge Troup's court Thursday morning. The custody of Eva, in the hands of her mother, is the subject of a long and contentious hearing before her father, George A. Tarrant and her mother, who is now Mrs. Ed Daniels and who lives near Herman. Tuesday Tarrant secured a writ of habeas corpus and the hearing was to have been held Thursday, but on account of the absence of a witness it was postponed until October 1.

Mr. Tarrant asserts the child is not being properly treated. Mrs. Daniels, on the other hand, declares her first husband has not contributed to the support of the child for ten years and that fact ought to stop him from asking custody, now that the custody of Eva is in the hands of her mother. Some of the neighbors of Mrs. Daniels have been called as witnesses.
