The Lincolnites want to spend in the neighborhood of sm.000,000, but they are not sure they can do it all next Friday, so some of the crowd may come up in advance. Many sacrifices will be offered the great and beloved ruler in the hope that he will overlook such ninor matters as infractions of the city or linances of the big city because it is a holday crowd that is coming up and the lid s on here frequently. Incidentally the rejest has been made that if Chief Donabue ries any of his "monkey doodle" busies on any one from Lincoln he will be idnaped and brought to Lincoln and lost. ONLY NEW TRIAL OR APPEAL NOW

Attorneys Have Three Days to File Motion for Rehearing and Judge Must Set Date of Execution.

LINCOLN, Sept. 29 .- (Special Telegram.) Frank Barker, the Webster county mur derer, is same and subject to executi-That is the verdict of the jury in Judge Holmes' district court, before which Barker was tried upon the issue of his sanity. The verdict was rendered late Sunday evening. the jury having gone out Saturday evening.

The attorneys for Barker, Judge F. G. Hamer and son, Tom Hamer, member of the last legislature, will file a motion for a new trial and, if overruled, will appeal to the supreme court. A peculiar feature arises the judge kept his promise, of course. in connection with the trial, which would be settled by the supreme court on appeal and that is responsibility for the jury's pay There is a question as to whether it rests with the state or county.

This is the second trial Barker has had for the determination of his sanity. The jury stood six to six in the former. The trial was the result of a ruling by the supreme court. Judge Holmes had refused to grant the hearing, when the higher tribunal interposed its action, compelling the district judge to hear the case.

Story of Atrocions Crime. Barker murdered his brother and his brother's wife in Webster county some three or four years ago and buried their farm. The motive for the atroclous crime. as the original trial developed, was that Barker sought money which his brother had in order that he, the murderer, might marry a girl to whom he was engaged. The case aroused an intense feeling at the time and has gone down in the criminal annals of the

state as one of the most cold-blooded and wanton of orimes. On being convicted of murder, Barker was sentenced to be hanged at the state penttentiary June 15, 1905, but his attorneys raised the question of his sanity and to his relief came Governor Mickey with a reprieve, which gave him a two years' lease on life. At the expiration of that period his case was again taken up with this re-

Under the process of the law, the trial judge must set a day for the convict's execution, but interceding the judge, the attorneys for defendant have three days in which to file their motion for a new trial. This they will certainly do, as they have expressed a determination to ignore no technicalities offering the slightest hope of escaping the gallows.

The last week at the capital has been of considerable importance to Nebraska-five state conventions have been held, political Raflway commission has won out in the case wherein the railroads attempted to secure an injunction forbidding the commisto get the express infunction cases remanded to the state courts, while the railroads were successful in keeping their injunction case regarding the anti-railroad legislation in the federal court. During the coming week it is expected the various political parties will arrange for the opening of headquarters and the beginning of the campaigns. The democrats and populists have already selected each a chairman and secretary, while the republicans will meet tomorrow night to perfect their committee organization. The democrats and populists have made no public announcement of where they will open headquarters, but it is presumed Lincoln will be the place.

Preparing Sample Ballot.

Secretary of State Junkin will get out his sample ballot during the next few days, and it will be similar to the primary ballot. The governor will have his proclamation out the first of the week and it will be exactly like the primary proclamation. Secretary of State Junkin has received numerous inquiries from county clerks regarding putting names on the ballot which have been written in. In some instances nominations have been made in this way. Where the matter is solely a county question, Mr. Junkin will tell the county clerk to follow the advice of the county attorney. In some instances, were the names written in on the primary ballot kept off of the November ballot there would be no nominations for certain offices unless the names were put on the ballot by petition. In the matter of state candidates, however, the secretary will not consider the names written in, as compared with the total vote the number yoting this way is small.

Aldrich Law is at Work.

Now that the railway commission has fully determined that the Aldrich maximum freight rate bill reducing fates on certain ommodities 15 per cent, prevents it from taking the initiative in further reducing rates on these commodities, it is up to some shipper to file a complaint if he is not satisfied with the present rates. While some politicians have expressed regret that the Aldrich bill ties the hands of the commission until someone complains, reports have been received at the statehouse that the people generally are getting the benefit of the Aldrich bill reduction, while if the cut had been made by the commission the matter would have gone through the federal courts before any benefit could have been derived, as the railroads would have en-Joined its enforcement.

So far the complaints made to the com nission about the railroads have been on the service more than on the rates. A good many complaints are coming in now from the west end of the state, saying that the sparks from engines are setting fire to outbuildings, hay and grass. The management of the Burlington has promised to look into this at once.

Six Rides for Quarter. ncement was made today by the Lincoln Traction company that it will ; comply with the order of the state railway commission, that it sell six fares for 25 cents to adults and ten fares to school children, to be used during certain hours of the day, for \$5 cents. The most significant feature in connection with the ratiway commission's findings is that it places a valuation on the plant of the Traction company and the Citizens Railway company, and limits their earnings secordingly. This action, it is believed,

Mr. Chanler has family, he has wealth in a moderate way and he has a host of friends among the captains of industry, who believe the time is ripe for a candidate of Chanler's type.

While the followers of Bryan smile broadly at the suggestion of Chanler's name for the head of the democrtaic ticket next year, they do not deny the fact that the young Knickerbocker has much to commend him to the rank and file of the people. His vote-getting ability is given leserved praise, but the adherents of the 'Peerless" point to the fact that many of the same faction who were for Parker in 1904 are loudest in booming Chanler for 1908, an augury which is doomed to meet with disappointment, according to Mr. Bryan's henchmen. Just how serious the boom for Mr. Chanler is taken throughout the country is variously given by incoming politicians, but one thing is certain, the Chanler following is aggressive and it will probably "smoke out" Mr. Bryan, who, up to this time, has been content to let his enthusiastic worshipers do all the talking about the nominee of

It is because of the order of the president compelling army officers to know something about riding, so that in event of war some of the commanders will not be compelled to fight battles from nammocks or Sedan chairs. Words of Want-Ad Wisdom When you want work do you ask for or do you try to hide away from it? Do you go where work is to be had, or where there isn't any? When you advertise for work do you advertise where nobody expects you to, or where the people who want work don't always look for help? The Bee want columns are the recognized go-between of those who want and those who want to fill wants. Whatever you want, let it be known in the columns of The Bee, and the want will be filled.

Announcements, wedding stationery and sailing cards, blank book and magazine binding. 'Phone Doug. 1804. A. I. Root, Inc.

There's no chance for an argument as to whether The Bee want ads pay or not. They always pay if they ask anything consistent. There are many people in Omaha that somebody is qualified to fill any sort of a want. If you want to find a position or some body to fill a position; if you want to find the loser or the finder of an article; if you want to find a landlord or a tenant, try a Bee want ad.
